Subject: Merville District Maintenance Vacancy

With the resignation of Bret Peterson from District 2-Merville, a vacancy is created in the secondary road department. The Merville district has already reached my recommended temporary staffing level of one FTE below FY 2009 level and Mr. Peterson's resignation leaves us one employee short of that adjusted staffing level in this district.

RECOMMENDATION: It is my recommendation that we fill the vacant position created by the resignation of Bret Peterson at Merville. I would like to advertise to fill this vacancy as soon as possible. It is my hope that by posting the jobs internally as soon as possible and advertising to the public as soon as possible so that we will be able to fill the position at Merville quickly.

Thank you for your consideration.

a) General:

All MHDS funds received by the member counties for purposes related to Sioux Rivers Regional MHDS from any source, whether receipted from the state or generated within the region and/or counties shall be under the control of the Sioux Rivers Regional MHDS Governing Board. These funds shall be maintained in each individual county's Regional MHDS Fund and will be managed locally by the MHDS Coordinator, with oversight from the Chief Executive Officer on behalf of the Board. Methods for pooling where deemed necessary, management, and expenditure of the funding are further subject to the control of the CEO.

Funds in a member county's Regional MHDS Fund shall be expended only for costs approved in the regional management plan. In the event a member county's Regional MHDS Fund results in a negative equity position or negative ending cash balance in the operating budget for that member county's Regional MHDS Fund, each of the other member counties shall provide an amount necessary to cure the negative equity position or negative balance. *This circumstance is unique, constituting the only instance in which funds may be transferred from a County's Regional MHDS Fund to another County's MHDS fund.* The percentage of the total corrective amount needed that each other member county shall be required to contribute will be based on the member county's population as shown in the last completed Federal Census, for purposes of allocating a portion that each member county shall provide. Any amounts assessed under this subsection shall be repaid from the Regional MHDS Fund of the member county that had the negative equity position or negative ending cash balance in its operating budget through a transfer to the other member counties' Regional MHDS Funds at such times and in such amounts as recommended by the CEO and approved by the Governing Board to be prudent and feasible. Any repayments shall be apportioned amongst the member counties using the same formula as the original assessment.

With the approval of all member counties, the Governing Board shall set up a Joint Regional MHDS Account, which would allow for pooling of funds for a specific purpose, for instance a region-wide project designed to meet the needs of all residents regardless of their place of residence (crisis response beds, drop-in centers, etc.) and to cover

administrative costs related to management of Sioux Rivers Regional MHDS. Funds in the Joint Regional MHDS Account shall be expended only for those purposes approved by a unanimous vote of the Governing Board. The Joint Regional MHDS Account shall be managed and administered by the CEO, in consultation with the Service Coordinators from each of the member counties, and in compliance with the law, direction from the Governing Board and other written policies of Sioux Rivers Regional MHDS.

The Governing Board shall appoint a fiscal agent annually, initially Woodbury County, for management of pooled funds.

b) **Administrative Funding and Resources:**

Administrative costs incurred in the course of doing business in each member county shall be paid from the MHDS Fund in that county. Administrative costs incurred on behalf of the Region shall be paid from the Joint Regional MHDS Account, and any funds or resources for administrative costs of Sioux Rivers Regional MHDS shall be collected utilizing the process for pooling regional funds.

c) **Use of Savings for Reinvestment**

Sioux Rivers Regional MHDS will make use of the budgeting process to devise a method for using surplus funds for the enhancement of existing services and the development of additional services, in order to benefit consumers throughout the region. In effecting the above, Sioux Rivers MHDS will comply with Chapters 12B and 12C of the Iowa Code for deposit and investment of Regional MHDS funds.

7.2 Process for Initial Funding to Begin Operations

On the Effective Date, the accrual fund balances in each member county's Fund 10 will come under the control of the Sioux Rivers Regional MHDS Governance Board, and will be deposited into a "Regional MHDS Fund" sited in each county.

Member Counties shall make an initial contribution to the Joint Regional Fund in an amount determined by a vote of the Sioux Rivers Regional MHDS Governing Board of Directors.

7.3 Process for Annual Independent Audit

Accounts of Sioux Rivers Regional MHDS shall be audited annually by a certified public accountant certified in the state of Iowa, as selected by the respective County Board of Supervisors and in the case of joint funds, the Governing Board.

8. SCOPE & AMENDMENTS

8.1 Amendments

The Governing Board is authorized to make non-substantive amendments to this Agreement with a two-thirds vote of board members present. All other amendments to this Agreement shall be conducted through the member approval process described in Section 5.3 and in compliance with Iowa Code Chapter 28E, which includes filing all amendments with the Iowa Secretary of State.

8.2 Entire Agreement

This Agreement represents the entire 28E Agreement of Sioux Rivers Regional MHDS.

8.3 Invalidity

If any one or more provisions of this Agreement are declared unconstitutional or contrary to law, the validity of the remainder hereof shall not be affected.

8.4 No Waiver

The waiver by any party of a breach or violation of any provisions of this Agreement shall not operate as or be construed to be a waiver of any subsequent breach.

RE: WOODBURY COUNTY BRIDGE INSPECTION AND RATING PROGRAM – 2015

Dear Mr. Nagra:

This proposal for bridge inspection and rating services for your 2015 Program is submitted in accordance with your request for professional structural engineering services. You have asked us to reinspect and rate approximately 176 structures in 2015 from the attached list for the Standard Rating and HS-20 or HL-93 Design Trucks. Posting recommendations will be provided for gross weight allowed and maximum axle weight allowed. We will complete Program Manager and Team Leader assignments, provide master lists, cost estimating and summary listing per the Iowa DOT and FHWA guidelines and requirements.

We propose to reinspect these 176 structures in 2015 for a fee of \$148.24 per bridge. We will perform any required load rating computations, update scour evaluations and complete the fracture critical inspections to justify deficiencies, changes, replacements, repairs, funding, etc., at the following estimated rates:

- Load Rating Computations: \$105.00 Each
- Updated Level A or B Scour Evaluations: \$ 85.00 Each

In addition to the above, we will provide assistance with the implementation of the SIIMS database as directed by the County at our hourly rates.

Please review this proposal and, if it is acceptable, return one signed and dated copy to us. We will do another good job for you and Woodbury County.

Sincerely,

Milton C. Clemenson

Request for Professional Engineering Consulting Services For Orton Slough Drainage District Improvements

PROJECT DESCRIPTION

The Woodbury County Board of Supervisors, acting as trustee for the Orton Slough Drainage District, is seeking the services of an engineering consultant to provide design services for repairs to the Orton Slough Drainage District tile system.

The Orton Slough Drainage District encompasses 2255 acres south of Sioux City and Sergeant Bluff, Iowa. Diagrams and aerial photos outlining the district are included with this RFP. The district was established in 1919. The district tile system is approximately 6800 feet long. The district is split by Interstate 29. The main ditch and drainage structures drain to a 30" intake which feeds a 20" I.D. butted concrete pipe. The pipe outlets into Browns Lake.

SCOPE OF SERVICES

Woodbury County is seeking an engineering consultant to provide engineering services for the design of repairs to the Orton Slough Drainage District. A recent review of the tile line noted that there are several broken tile sections and two damaged intakes. The consultant will survey the existing system, identify portions of the tile and/or intakes needing repair, and prepare a set of plans and bid documents for letting. The main district ditch from the railroad structure near the intersection of 250th Street and Old Highway 75 and draining west to the main intake shall also be surveyed. If the survey indicates that the ditch should be cleaned, excavated, or cleared of trees and brush, plans for the cleaning of the ditch shall be included in the project plan set. The pipes through the railroad should be checked to see whether they need to be cleaned. This work, if needed, shall also be included as part of the improvement plans. The consultant will provide plans and documents sufficient to allow the county to apply for any necessary Corps of Engineers and Iowa Department of Natural Resources permits and prepare said applications for the trustees. The final plans and bid documents shall be prepared and provided to the trustees for letting.

Project plans are to be prepared by April 1, 2015 in time to allow for a letting on or about April 30, 2015. The county, at its option, may request a contract with the consultant to provide construction engineering and inspection for the project. Construction engineering is not to be included in the lump sum price for the scope of work provided herein.

WOODBURY COUNTY INFORMATION PROVIDED TO THE CONSULTANT

The Woodbury County Engineers office will provide the topographical survey and right of way information, along with land owner names and addresses and support information as needed by the consultant. The consultant will do the necessary field and condition survey of the tile line and use acquired data to prepare plans and bid documents for letting.

SUBMITTAL REQUIREMENTS

To be considered for award of this work, consultants shall prepare the following:

1. A letter of interest not to exceed two pages
2. Organizational chart of your firm. This chart shall illustrate key personnel responsible for specific elements of the process.
3. Resumes of personnel responsible for the services to be provided.
4. A list of similar work performed in the last three years.
5. A list of three references for recent contracts of similar size and scope.
6. Proof of professional liability insurance.
7. Schedule of billable hourly rates listed by position title for staff likely to be involved in the Woodbury County project.
8. A lump sum quotation for the identified scope of services.
