WOODBURY COUNTY BOARD OF SUPERVISORS AGENDA ITEM(S) REQUEST FORM

Date: 08/28/2018

Weekly Agenda Date: 09/18/2018

ELECTED OFFICIAL / DEPARTMENT HEAD / CITIZEN: Bridget Durst

WORDING FOR AGENDA ITEM:
 Pierson Source Water Protection planning support and promotion.

ACTION REQUIRED:

Approve Ordinance Approve Resolution Approve Motion
 Public Hearing Other: Informational Attachments

EXECUTIVE SUMMARY:

The City of Pierson will be creating a Source Water Protection plan in cooperation with Bridget Durst, Source Water Community Facilitator for Conservation Districts of Iowa and the Iowa DNR. The City of Pierson has been presented with the information regarding the Iowa DNR's Source Water Protection program and the city has signed a letter of commitment outlining the expectations related to creating their Source Water Protection plan.

BACKGROUND:

Source Water Protection is the act of preventing contaminants from entering public drinking water sources. The quality of the source water can be influenced by both natural and human activities. The concept of Source Water Protection is to manage the areas through which water travels and the activities that occur on the land surface, in order to protect the quality of that resource. These protection efforts save the community money through improved water quality requiring less treatment, longer life cycle for a well, and less likelihood of having to seek an alternative source or replace the well due to contamination.

In the last year, Bridget Durst has helped create 6 Source Water Protection Plans that have been approved by the Iowa DNR. These plans include steps prepared by local, community led Source Water teams consisting of city officials, city residents, and agricultural landowners and operators. These teams collectively determined the ideal solutions for the focus area. They continue to utilize resources offered by many partners to help implement the steps within the plans. These partners range from local community groups to federal organizations like the NRCS (Natural Resource Conservation Service).

The role of partnerships is key in developing a system for outreach, education, and support. They also open up opportunities to develop non-traditional funding and technical assistance resources.

FINANCIAL IMPACT:

There is no financial impact for the county at this time. As Pierson's plan is developed and implementation begins, technical assistance and funding MAY be requested. This depends on the projects and action items created by the community and how those components relate to the capacity of the Board of Supervisors.

IF THERE IS A CONTRACT INVOLVED IN THE AGENDA ITEM, HAS THE CONTRACT BEEN SUBMITTED AT LEAST ONE WEEK PRIOR AND ANSWERED WITH A REVIEW BY THE COUNTY ATTORNEY'S OFFICE?

Yes No

RECOMMENDATION:

In the past, the Board of Supervisors have signed a letter of commitment complementary to the letter of commitment signed by the city council or board of directors (if a rural water system). The following recommendations relate to this:

1. Review letter of commitment.
2. Make appropriate suggestions/ revisions.
3. Sign and submit letter of commitment to Bridget Durst.

Many times opportunities go overlooked without proper information sharing. The following recommendations relate to this:

1. Designate a representative, or representatives, to attend Source Water Protection meetings in Pierson.
2. Develop communication strategy between Pierson's Source Water team and the board.

ACTION REQUIRED / PROPOSED MOTION:

1. Woodbury Board of Supervisors consider signing a similar letter that demonstrates their willingness to promote and support the City of Pierson's Source Water Protection planning as well as efforts resulting from the establishment of such a plan.
2. Woodbury Board of Supervisors will designate a representative, from the board to be present during, at least, 2 Source Water Protection meetings throughout the planning process and serve as contact person between the Board and the City of Pierson.

Source Water Protection Overview

My name is Bridget Durst and I work for Conservation Districts of Iowa as a Source Water Community Facilitator in Northwest Iowa. My office is located in the DNR Field office in Spencer.

My mission is to help water supply systems, communities, and residents in the surrounding area develop awareness of Source Water and what influences its quality, organize community members to fill the roles in a Source Water Team, and provide connections to resources that provide funding and technical support to the Source Water Team and the communities they live in to carry out a Source Water Protection Plan (SWPP).

Conservation Districts of Iowa (CDI), a non-profit organization dedicated to informing, educating and leading Iowans through our local soil and water conservation districts to conserve our natural resources, has partnered with the DNR to offer communities access to my resources as a Source Water Community Facilitator.

The purpose of a SWPP is to unite a community in the common goal of protecting their Source Water. In crafting a SWPP, we are working to ensure clean drinking water by addressing and preventing contamination, and cut down on costs of treatment or drilling new wells. It will outline practices and objectives that will promote the preservation of the communities Source Water. It will give everyone a chance to contribute to the protection our shared resources. Through collaboration on this project community members will leave a positive legacy to the future generations.

A Source Water Protection Plan begins with establishing a Source Water Team. This is a group of enthusiastic, community-minded individuals committed to exploring water quality in their area. The Team is encouraged to understand how their Public Water System works, what a capture zone is, and what challenges it faces. The Team will meet to discuss opportunities for protecting the Public Water System and create goals and a timeline for the SWPP. After the SWPP is designed it is brought before the City Council for approval. The City Council will also be responsible to have an Emergency Drinking Water Contingency Plan in place to add to the SWPP. Once approved and finalized, it is submitted to the DNR.

Each public water supply in Iowa has what is called a Phase 1 Assessment available from the DNR database. This document contains basic information of geology, well locations, well depth, capture zones, and potential contaminant sources. (The public can access this information on the DNR website's Source Water Tracker iowadnr.gov)

This information is the foundation for a Phase 2 Assessment. This is essentially a Source Water Protection Plan (SWPP) that is written and implemented by citizens, city officials, business partners, landowners, and other stakeholders in the community and surrounding area.

Using the information in the Phase 1 Assessment and their own knowledge the Team members can decide the best management practices to utilize in specific areas. The practices can include anything from signs designating protected areas to implementing conservation practices in urban areas and private agricultural land. The SWPP is designed with the integrity of the community in mind. It is also intended to be revisited annually to consider its progress or if it needs to be updated and revised. Each SWPP is as unique as the community it belongs to.

As a Source Water Team Member your role in Source Water Protection is vital. Your voluntary participation will result in unique opportunities to have a direct impact on the quality of water in your area.

The role of a Source Water Community Facilitator is to support and guide the Source Water Team. I am equipped with knowledge and resources to lay the groundwork for the SWPP. I also have access through partnerships to provide education, scientific tools, and funding to help communities carry out their SWPP. Conservation Districts of Iowa and the DNR are part of the Source Water Ag Collaborative, a diverse partnership of agribusiness, commodity and community groups that are dedicated to protecting drinking water in Iowa.

If there are any questions, concerns, volunteers, or if you know someone interested in being involved please contact me.

Thank you for your support,

Bridget Durst

Source Water Community Facilitator
Conservation Districts of Iowa
(office) 712-262-4177
(cell) 712-344-0779
bridget.durst@dnr.iowa.gov.

All citizens, city officials, business partners, landowners, and other stakeholders in the area are welcome and encouraged to participate in creating and implementing a SWPP for their community.

Source Water Protection

General Description

The term "**Source Water**" is used to define drinking water in its original environment, either as surface water (rivers, streams, reservoirs, and lakes) or as groundwater (aquifers), before being withdrawn, treated, and distributed by a water system. **Source Water Protection (SWP)** is the act of preventing contaminants from entering public drinking water sources.

The quality of the source water can be influenced by both natural and human activities. The concept of Source Water Protection (SWP) is to manage the areas through which water travels and the activities that occur on the land, in order to protect the quality of the resource. These protection efforts save the community money through improved water quality requiring less treatment, longer life cycle for a well, and less likelihood of having to seek an alternate source or replace the well due to contamination.

Surface water is more susceptible to contamination incidents from natural or man-made causes, such as a flood or a chemical spill, but it also recovers much more quickly than does groundwater. **Groundwater is much less susceptible to contamination, but when that happens, natural recovery is very slow to occur.** Source Water Protection includes both groundwater (wellhead) protection and surface water protection.

The Iowa DNR's SWP Program is a voluntary program, although there are numerous benefits for a water system to protect its water supply. **There are three components to Source Water Protection:** the phase 1 assessment, Source Water Protection plan, and implementation.

The development of a good SWP Plan doesn't require any assistance or involvement of an engineer or consultant. A system may wish to contact an outside entity for assistance. The Conservation Districts of Iowa and the Iowa Rural Water Association provide experienced source water consultation and assistance for developing the SWP Plan, at no charge to the public water supply.

Bridget Durst, Source Water Community Facilitator

Conservation Districts of Iowa, Iowa DNR

1900 Grand Ave, Suite E 17

Protecting Our Drinking Water at the Source

Goals and Objectives

- Safeguard the health of water users being served by city wells.
- Prevent financial burdens caused by contaminated drinking water.
- Educate and provide awareness of the effects of drinking water contamination.
- Educate landowners in the capture zones of their potential impacts on the community's drinking water supply.
- Encourage the use of conservation practices that address nitrogen losses from agricultural production and urban runoff.
- Find non-traditional partners and funding resources to help implement projects related to source water protection.
- Address and mitigate rising nitrate levels in the public water supply through public education, outreach, and land use changes.
- Create opportunities to install urban conservation practices within city limits.

Seven Steps to Source Water Protection: Guidebook and Workbook

- Organize a Source Water Team.
 - Identify Source Water Capture zones.- SITE INVESTIGATIONS, GROUND TRUTHING
 - Inventory potential contaminant sources.- FIELD SURVEYS
 - Assess and prioritize potential contaminant sources.- DEVELOP SCALE
 - Develop an action plan.
 - Construct or update Emergency Response plan.
 - Submit and implement action plan.
- * Source Water Protection plans are considered "living documents" and within the plan there should be a schedule for continuing to revisit, revise, and implement steps

Community selection

- Selected by the DNR according to criteria
- Community public water supply
- Majority of drinking water comes from groundwater
- Total population served is over 100
- Geologically susceptible **OR** average finished nitrate level is 2.5 mg/L over the last 10 years
- Over 50 acres of the capture zone is in conventional row crop system
- No Phase 2 (source water protection plan) or outdated as of 2010

3 Components

- Phase 1 assessment
- Source Water Protection – Phase 2
- Implementation

Go to <http://www.iowadnr.gov/>

- Type in "Source Water Protection" in the search bar on the upper right of the page
- Click on the first link of the search results- this will take you to the Source Water Protection Program page
- In the upper right of the page, there will be "Source Water Tracker" under the applications
- Click on the Source Water Tracker button
- At the Source Water Tracker page, you can type in the name of the community or system you are looking for (NOTE: this is where it gets harder if the community is supplied with rural water)
- Once you have found the community click on the name -this will bring you to the page where you can access the data pages (well info, sanitary surveys, and Phase 1 Assessments)
- Click on the Phase 1 Assessment link- this will open a PDF with all of the data about the system.
- Scroll down to the chart and that gives you historic nitrate results

Source Water Assessment for Pierson (PWS# 9766041) Alluvial & Buried Sand and Gravel Aquifer

Source Water Protection

The purpose of this Source Water Protection (SWP) "Phase I" assessment is to:

- Define your source water area and susceptibility;
- locate, inventory, and rank potential contaminant sources within your source water area;
- provide the results to the public for improved protection of your drinking water.

Introduction

This Source Water Protection (SWP) "Phase I" assessment is meant to provide information and be used as a tool to help protect the quality and quantity of your drinking water. Within it you will find an inventory of your wells, tables showing potential contamination sources within your source water area, and maps showing your system's source water information.

The source water area defined in this report is the region directly linked to your water supply, and where land use changes have the greatest influence on your drinking water quality. Your source water area was defined based on scientific information available to the Iowa Department of Natural Resources (IDNR – Source Water Protection Program).

This "Phase 1" source water assessment by no means protects your drinking water. To protect your drinking water your system should develop and implement a Source Water Protection Plan. Protection measures are different for each system, but commonly include reserving areas for future wells, cleaning up contaminants, and converting portions of your source water area to native vegetation. Further information on how to protect your drinking water, including a [guidebook](#), [workbook](#) and [GIS resources](#), can be found at www.iowasourcewater.org.

This SWP assessment includes the following sections:

1. Defining Your Source Water Area
2. Susceptibility of Your Source Water Area
3. Contaminant Sources within Your Source Water Area
4. Ranking Contaminant Sources
5. How to Protect Your Drinking Water
6. Consumer Confidence Report

Section 1: Defining Your Source Water Area

Accurate well, aquifer, and pumping information is critical to providing the best estimate of your source water area. According to our records, Pierson has two active public wells open in the sand and gravel of the Unnamed Creek Alluvial aquifer and one active public well open in the buried sand and gravel of the Buried Sand and Gravel aquifer. The table below shows your well and aquifer information. If you believe the table is wrong, please contact the Iowa Source Water Protection Program at www.iowasourcewater.org or 515-725-8343.

W#	Local Name	Depth (ft.)	Const. date	Status	Aquifer	SWL (ft.)	PWL (ft.)	Aquifer thickness (ft.)	Rate (gpm)
41466	#1	26	1/1/1920	Active	Alluvial	0	0	0	0
41467	#2	34	1/1/1956	Active	Alluvial	0	0	0	0
65574	#3	233	11/1/1994	Active	Buried Sand and Gravel	142	156	29	38

Source Water Glossary

Aquifer: An underground water-bearing layer that provides a usable quantity of water.

Source Water Area: An estimation of the area contributing water to your public wells.

Capture zone: A computer modeled source water area, typically using 2-5- and 10 year time of travel periods.

Time of travel: A duration of time specified to determine the distance and area that water will travel.

Susceptibility: A measure of an aquifer's potential to become contaminated. Does not imply either good or poor water quality.

Confining layer: A layer of material which slows the movement of water.

Alluvial Aquifer

Your source water area is defined by hydrologic boundaries (i.e. an alluvial aquifer limited by landscape features). The source water protection area for your wells was modified based on the physical and hydrologic characteristics of the area. Features used to limit the extent of the hydrologic boundary typically include rivers, streams, and non-porous glacial till. Water within the boundary is projected to travel to your active wells in a short period of time.

In addition to the delineated groundwater area, surface runoff areas from streams that contribute to the groundwater capture zone were also delineated. Spills and other uncontrolled runoff have the potential to migrate through gullies, tributaries, or drainage tiles and infiltrate into the aquifer in the floodplain.

Buried Sand And Gravel Aquifer

Sufficient information was available concerning your wells, aquifer and pumping conditions to produce a computer modeled estimate of your source water area. For your water supply, the source area was divided and prioritized to show where we estimate groundwater to flow during "time of travel" periods; typically 2, 5, and 10-years. These source areas for your facility were estimated using an analytical element model for the purpose of delineating source water protection areas. The model requires certain input data for your aquifer, wells, and pumping rate, described below:

- Gradient: 0.001 ft./ft. •Flow Direction: 0 •Porosity: 0.1 •Transmissivity: 733 ft.²/day •Aquifer Thickness: 29 ft.
- Average Gallons per Day: 16,240.

Section 2: Susceptibility of Your Source Water Area

Research by the [Iowa Geological Survey](#) has determined that thickness of confining layers such as till, clay, and shale between the aquifer and the land surface is inversely related to aquifer susceptibility. Aquifers overlain by thicker confining beds are less susceptible to contamination than aquifers overlain by thin confining beds. The table below summarizes susceptibility by confining layer thickness.

Confining layer thickness	Susceptibility designation
<25 feet	Highly susceptible
25 to 50 feet	Susceptible
50 to 100 feet	Slightly susceptible
>100 feet	Low susceptibility

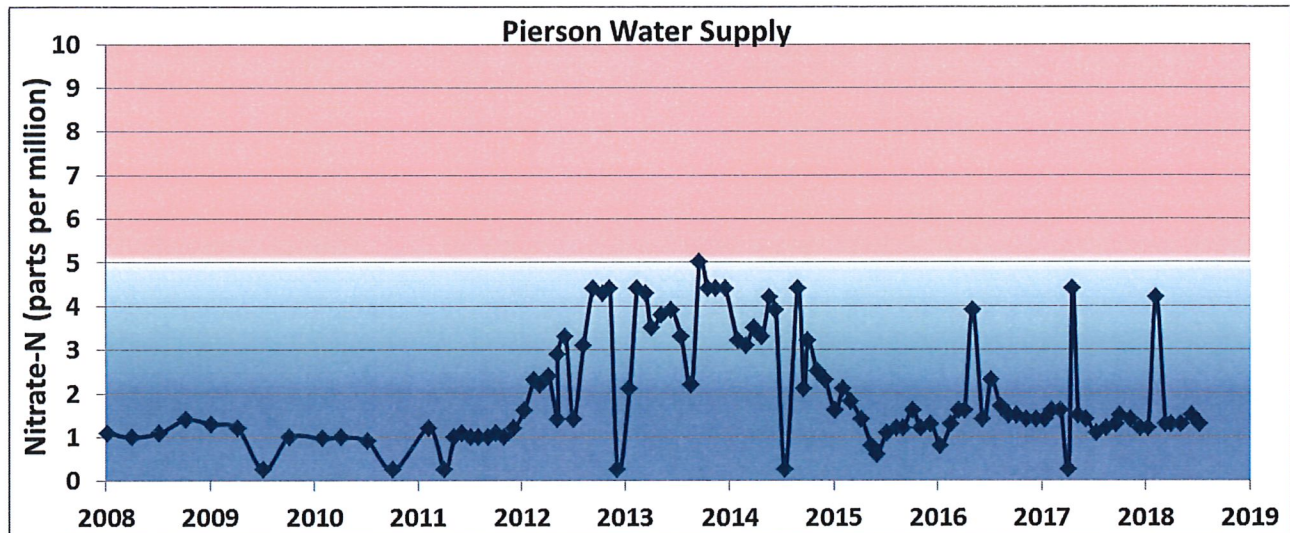

Based on our data, your wells in the Alluvial aquifer have a cumulative confining layer thickness of less than 25 feet. Your aquifer was therefore determined to be highly susceptible to contamination from the land surface.

Your wells in the Buried Sand and Gravel aquifer have a cumulative confining layer thickness of over 100 feet. This aquifer was therefore determined to have low susceptibility to surface contamination.

Another method for determining the susceptibility of your aquifer is by using nitrate concentrations in well water to evaluate the potential for contamination from the land surface. Wells that are less protected from contamination near the land surface typically have higher nitrate concentrations than wells that are more

protected from contamination near the land surface. Based on our records, finished water at Pierson has a ten-year average nitrate-N concentration of 2 parts per million (ppm), based on 103 total samples.

Nitrate concentrations in your public water supply are generally medium. Elevated nitrate concentrations can disrupt the electron transport system and cause methemoglobinemia, or blue baby syndrome, in infants.

Section 3: Contaminant Sources within Your Source Water Area

To identify potential contaminant sources we searched electronic databases for facilities and land uses that fell inside your source water area. The databases used for the inventory are described in step 3 of the Iowa Source Water Protection [Guidebook](#). The contaminant source inventory includes facilities and land uses that have been known to contaminate groundwater.

Table 1 lists the potential contaminant sources we found in your source water area. The map numbers correspond to the contaminant source list in Table 1. The potential contaminant sources are derived from databases that have varying degrees of locational accuracy, and therefore could be located in the wrong area or omitted from the map entirely. For this reason, locational accuracy is noted at the end of the table. You or other residents may be aware of additional contaminant sources that should be included, feel free to modify this report to reflect your knowledge.

For many aquifers, particularly those overlain by thick confining layers, the greatest threat of contamination to the aquifer is through existing wells that penetrate the confining layers. For this reason, Table 2 lists all known wells, owners, and locations identified in your source water area. A numbered symbol shown on the map at the end of this report identifies well locations. Well locations are derived from databases that have varying degrees of accuracy, and therefore could be mapped in the wrong area or omitted from the map entirely. For this reason, locational accuracy is noted at the end of Table 2.

In addition to the specific “point” sources listed in Table 1, nonpoint sources of contamination also exist in your source water area. In Iowa, a potentially significant nonpoint source of contamination is row crop agriculture. Land use percentages and acreages are presented in Table 3.

Section 4: Ranking Contaminant Sources

We have attempted to prioritize the relative risk to your source water based on a three component ranking system; 1) the location of the potential contaminant source in the source water area, 2) the susceptibility ranking of the aquifer to contamination, and 3) the type of contaminant source. Points are assigned for each category and a cumulative score calculated for each potential contaminant source using the scores for each of the three components. Higher numbers always correspond to higher risk in this report.

1) Location of potential contaminant sources

Your potential contaminant sources are ranked from 1-3 based on the capture zone they are located in, with greater weight given based on proximity to the well. Fixed radius capture zones also received greater risk as they represent unknown or poorly known hydrogeologic conditions. The table below shows the risk score assigned to each source water area.

Source Water Area	Risk score
2-year time of travel, hydrologic boundary, fixed radius, 1-mile, modified karst - high	3
5-year time of travel, modified karst – medium	2
10-year time of travel, aquifer retrieval area, surface runoff area	1

2) Aquifer susceptibility to contamination

Susceptibility rankings were given scores to give more priority to aquifers with less confining layer thickness. Aquifer susceptibilities were given ranks of 1-4, from low susceptibility to highly susceptible. If your well depth or confining layer thickness is unknown, the source water area was automatically designated as “highly susceptible” and ranked 4.

3) Land-use type

The land-use type combines the potential for different facility classes or land uses to release contaminants with an estimate of the toxicity of the contaminants that may be released. Land-use risks are assigned values from 1 to 5 (least to greatest risk).

The final “Risk Score” for the source water area is the result of summing the three components of relative risk. For a list of land-use types and additional information regarding the ranking classification, please refer to the Iowa Source Water Protection [Guidebook](#).

The goal for ranking potential contaminants is to provide your system with a list to help prioritize potential risks. These risks can only be addressed through local initiatives and strategies started by your community. To begin a SWP plan, it is up to your local community to decide which potential contaminant sources carry the most risk, and to proactively engage problems you find that may affect your drinking water. The risk rankings provided in this report are only a guide; the final decision on the priority of potential contaminant sources rests with your local source water protection team.

Section 5: How to Protect Your Drinking Water

This Source Water Phase I assessment only provides information on your source water area and contaminants. Your community is responsible for taking the necessary action to ensure you have clean drinking water for future generations. To do this the Iowa Source Water Program strongly encourages you to start a source water protection plan. A SWP plan is different for each community, but the steps needed to complete one are the same for every system. Most steps have already been outlined and partially completed in the SWP “Phase 1” assessment:

Steps for completing a Source Water Protection Plan

- Step 1:** Organize a source water team
- Step 2:** Identify your source water areas
- Step 3:** Inventory well and contaminant sources
- Step 4:** Assess and rank contaminant sources
- Step 5:** Develop an action plan
- Step 6:** Construct or update your emergency response plan
- Step 7:** Submit and Implement your SWP Plan

If your community is interested in protecting your drinking water, there are plenty of free resources available to help guide you through this process. www.iowasourcewater.org has many online resources available, including a detailed [guidebook](#) and [workbook](#) created for Iowa community water supplies. Please contact Jessica Montana (712-243-1934) of the Iowa Source Water Program for further information.

Section 6: Consumer Confidence Report

As the agency responsible for conducting drinking water programs in the state of Iowa, IDNR must provide each public water supply with language to be included in their Consumer Confidence Report regarding source water protection. The following language, at a minimum, must be included in each Consumer Confidence Report you produce from now on:

“The Pierson water supply obtains a portion of its water from the sand and gravel of the Unnamed Creek Alluvial aquifer and a portion of its water from the buried sand and gravel of the Buried Sand and Gravel aquifer. The Alluvial aquifer was determined to be highly susceptible to contamination because the characteristics of the aquifer and overlying materials provide little protection from contamination at the land surface. The Buried Sand and Gravel aquifer was determined to have low susceptibility to contamination because the characteristics of the aquifer and overlying materials provide natural protection from contaminants at the land surface. Pierson’s Alluvial wells will be highly susceptible to contaminants near the land surface such as leaking underground storage tanks, contaminant spills, and excess fertilizer application. The Buried Sand and Gravel well will have low susceptibility to surface contaminants such as leaking underground storage tanks, contaminant spills, and excess fertilizer application. A detailed evaluation of your source water was completed by the Iowa Department of Natural Resources, and is available from the Water Operator at 712-375-5015.”

You may modify this language or include additional information if you so desire, but you must identify the source of your system’s drinking water and identify known sources of potential contamination.

Iowa Source Water Agricultural Collaborative

945 SW Ankeny Rd., Suite A

Ankeny, Iowa 50023

515-289-8300

www.iasourcewater.org

Iowa Source Water Ag Collaborative supports voluntary and locally-led Source Water Protection

The Iowa Source Water Agricultural Collaborative was formalized in 2016 with the goal of providing Iowans information and resources to protect their drinking water sources. Approximately 2,790,000 Iowans, 91% of the population, source their water from community water supplies. Of the community water supplies that draw from ground water, 41% are considered susceptible or highly susceptible to contamination originating from the land surface.

The Source Water Agricultural Collaborative is committed to helping Iowans protect these vital community drinking water sources. The Collaborative is working toward this goal in many ways. Conservation Districts of Iowa, the current chair, has partnered with the Iowa Department of Natural Resources to hire two staff members based in Spencer and Atlantic to work on Source Water Protection. These Source Water Community Facilitators are dedicated to working with willing communities to create, implement and fund a plans to protect their drinking water.

By protecting their drinking water, communities can save significantly by avoiding the cost of drilling new well fields or building enhanced water treatment facilities. Source Water Protection can help communities rally around a project, partner with private and public organizations, and potentially secure new revenue streams.

Source Water Protection also presents a unique opportunity to encourage installation of conservation practices on Iowa's agricultural land. By putting in conservation practices like perennial vegetation, cover crops or extended rotations around community wells, farmers can improve their soil health and the ability of the land to act as a buffer for community water supplies.

The members of this collaborative are dedicated to the success of locally-led Source Water Protection in Iowa, and they are equally dedicated to aiding communities, farmers and landowners as they work to protect drinking water sources.

Members of the Iowa Source Water Agricultural Collaborative:

MM/DD/YYYY

Dear Bridget,

Please accept this letter of commitment from the city of {city/system name} to participate in Source Water Protection (SWP) Planning. We agree to working with you as our Source Water Community Facilitator throughout this process. We understand that this is a volunteer led project carried out by the city, our community members, and local agricultural producers. We recognize that in order to implement the Source Water Protection Plan (SWPP or Phase 2 Assessment) we must dedicate time and monetary funding when necessary.

We recognize that by investing in Source Water Protection we are working to decrease the need for substantial costs to our community in the future.

We are aware of the purpose of creating our SWPP is to address the rising nitrate levels in our public water system and that our plan will include steps to address the need for best management practices in areas that effect aquifers that supply drinking water to our community.

We have been given information regarding the 7 Steps for Source Water Protection:

1. Organize a Source Water Team
2. Identify Source Water Capture Zones
3. Inventory Well Contaminant Sources
4. Prioritize Contaminant Sources
5. Develop an Action Plan
6. Sign Affidavit for Emergency Response Plan
7. Submit and Implement Plan

We realize that by following the SWP Guidebook and SWP Workbook we are given the direction necessary to complete the SWPP to the standards created by the Iowa Department of Natural Resources in order to have the SWPP approved by the Iowa DNR. We also understand that we do not have to wait for approval to begin implementing the steps written in our SWPP.

We understand that the process is potentially lengthy but we are committed to completing and submitting our SWPP in a timely manner with an ideal deadline of June 30, 2019. In order to do this we intend to rely on your role as our Source Water Community Facilitator, involvement of members of the community, as well as other organizations who are committed to Source Water Protection and conservation of natural resources. We recognize the importance of maintaining clear and prompt communication with you while you work to investigate resources on our behalf, organize Source Water Team meetings, and assist in the development our SWPP as needed.

We understand the significance of viewing our Phase 2 Assessment (SWPP) as a living document and we acknowledge the importance of reviewing it on a regular basis to see if we are meeting the goals or to update it as needed. It is our pleasure to begin the work of creating our Source Water Protection Plan.

Sincerely,

Mayor/ City Clerk/ Administrator/Manager

ACTION REQUIRED / PROPOSED MOTION:

Minutes - Woodbury County Zoning Commission Meeting September 10, 2018

The Zoning Commission (ZC) meeting convened on the 10th of July 2018 at 6:00 p.m. in the Board of Supervisors' Meeting Room Number 104 in the County Courthouse, 620 Douglas Street, Sioux City, Iowa.

ZC Members Present: Tom Bride, Bruce Garbe, Barbara Parker, Shawn Streck,
Christine Zellmer Zant
Staff Present: David Gleiser, Dan Priestley
Public Present: Bryan Berkenpas, Steve Mrla, Ryan Ross

Chairwoman Zellmer Zant called the meeting to order at 6:00 p.m.

No citizens present for non-agenda items.

The July 23rd, 2018 meeting minutes were approved. Motion by Bride, seconded by Parker. Carried 5-0.

A public hearing was opened for the consideration of the Sorta Heaven Minor Subdivision. Kenneth & Kelly Boyle propose to subdivide parcel #884506200009 (29.31 acres) into 2 lots. This parcel is in Government Lots 1, 5, and 6 in Section 6 of the Merville Township. The property is zoned AP.

Gleiser provided an overview of the plat along with the staff recommendation to the Zoning Commission. The purpose of the subdivision is to facilitate the sale of property from the Boyle's to Mr. Brian Berkenpas. To meet Berkenpas' bank requirements, the Boyle's are splitting 8 acres (single-family dwelling, pool, and accessory structure) which will be used as the Berkenpas homestead, and the remaining 21.31 acres (livestock building and fencing) will be used for the Berkenpas farming operation. Berkenpas qualifies for the Ag Exemption as provided by the Iowa Code, and because this tract of land has already been split more than once, a minor subdivision is required.

Gleiser noted that the Zoning Commission held a public hearing on July 23rd, 2018 for the initially proposed Sorta Heaven subdivision plat and received comments from 5 of the 10 property owners within 1000' and listed within the applicant's certified abstractor's affidavit. As the Commission voted on July 23rd to table its decision until a revised plat was received, the same property owners within 1000' were notified again by letter and were informed of the revised plat. Since then, the CED office received 2 new written correspondences from property owners within 1000' of the proposed subdivision. Gleiser read the correspondences provided by Jeanenne Malmberg and Deanna Mander Bachman, and by Jessica Uhlenkamp of Heidman Law Firm on behalf of Mr. Mrs. Mrla.

Gleiser also noted that the revised plat was scheduled to be reviewed by the Zoning Commission in a public hearing on Monday, August 27th, 2018 at 6pm. However, that morning CED staff were asked by Commissioner Bride to seek clarification on Section 4.04: Lot Requirements, subsection 4. Access and Street Frontage of the Zoning Ordinance, as it related to the proposed Sorta Heaven subdivision plat and the easement access off Hwy 20. Accordingly, CED staff sought for clarification by the County Attorney's office on this section of the ordinance to determine whether the easement access off Hwy 20 must be required to be 60'

wide. The Assistant County Attorney that counsels the CED department, as well as the Secondary Roads department, and the Board of Supervisors, was out of the office until Friday so the County Attorney advised staff to pull the Sorta Heaven minor subdivision from the agenda until his office had time review it. Therefore, the August 27th meeting was cancelled due to a lack of other agenda items.

On August 31st, 2018, CED staff met with Assistant County Attorney Widman and the County Engineer to review the plat and zoning ordinance. At the conclusion of that meeting, all were in consensus with the determination that the 30' access easement off Hwy 20 is sufficient for the intended use of the revised plat and a 60' wide easement shall not be required.

CED staff also contacted the IDOT and were informed the current access off Hwy 20 serving the Mrla and Boyle parcels is a Type C Entrance (the DOT's lowest rated entrance type), and by their definition serves light traffic volumes. Generally, Type C entrances carry at least 20 vehicles per hour and typically serve residential, farm or field entrances. If a Type C Entrance serves more than one property, the minimum allowable width is 20' and the maximum allowable width is 35'.

Gleiser acknowledged that Lots 1 and 2 comply with the Zoning District Dimensional Standards for the AP Zoning District. Because Mr. Berkenpas is Ag Exempt, the accessory structure located on Lot 2 may remain without a principle structure, and it will be construed as a legal nonconforming structure. If Mr. Berkenpas would ever sell Lot 2 to someone not Ag Exempt, any future building of a single-family dwelling would need to be constructed to meet the guidelines of the ordinance. The accessory structure located on Lot 1 is located about 460 ft. from the front property line and meets the requirements of an accessory structure built "two times the required front yard setback". The staff recommendation was to recommend the Sorta Heaven Addition Minor Subdivision plat to the Board of Supervisors for final approval.

Commissioner Bride explained his interpretation of Section 4.04: Lot Requirements, subsection 4. Access and Street Frontage of the Zoning Ordinance, specifically noting the language "Any lot used for residential purposes shall have a minimum frontage of 20 feet on a public road or an exclusive (i.e., not shared), unobstructed private access easement of at least 20 feet in width to a public road." He stated his lack of support for the plat due to the easement off Hwy 20 only being 30' wide. He encouraged Berkenpas to acquire an additional 10' in easement from Mrla. Commissioner Garbe expressed his concern with potential items such as snow being placed in the ROW and presenting visibility issues with traffic.

After much discussion with Berkenpas, his Attorney Ryan Ross, and Mrla, and with no success on reaching an agreement to obtain any additional easement, or an agreed upon condition prohibiting any residential development on Lot 2, Chairwoman Zellmer Zant requested the Commission vote on the plat as proposed.

Streck motioned to recommend the Sorta Heaven Addition Minor Subdivision plat as proposed to the Board of Supervisors for final approval; Parker seconded. Chairwoman Zellmer Zant issued a Roll Call Vote. Aye: Streck, Parker, Zellmer Zant. Nay: Bride, Garbe.

There were no citizens wishing to be heard, or additional Commissioner comments or inquiries. Chairwoman Zellmer Zant adjourned the meeting at 7:29 p.m.

TITLE OPINION

TO: COUNTY AUDITOR AND RECORDER
WOODBURY COUNTY, IOWA

Dear Sir:

We have this date examined a complete abstract of title, pursuant to Iowa Code Section 354.11(1)(c) to property which includes in its entirety, property described in the surveyor's certificate of the plat of: Sorta Heaven Addition, a Minor Subdivision in Government Lots 1, 5, and 6 of Section 6, T88N, R45W of the 5th P.M., An Addition to Woodbury County, Iowa, last certified by Engleson Abstract Co., Inc. dated _____, 2018 at 8:59 a.m. and from said abstract find good and merchantable title to said premises vested in Kenneth J. Boyle and Kelly M. Boyle, husband and wife, subject to the following liens, limitations and exceptions:

- Entry 5 ¼ of Part II shows an Easement dated September 16, 1953 and filed November 2, 1953 in Book 734, Page 259.
- Entry 5 ½ of Part III shows a Contract dated April 9, 1959 and filed April 13, 1960 in Book 923, Page 466 regarding Rd. No. US #20, Woodbury County Project No. F2(16) regarding acquisition of certain lands by the Iowa State Highway Commission.
- Entry 10 of Part IV shows an Establishment of a Special Access Connection between Kenneth J. Boyle and the Iowa Department of Transportation, acting for the State of Iowa filed April 23, 2003 on Roll 587, Image 113 with regard to the establishment of an access onto Highway 20.
- Entry 33 of Part IV shows a Survey of the caption description, dated March 26, 2008 by Douglas J. Mordhorst and filed April 3, 2008 in Roll 697, Image 1434.
- Entry 31 of Part II shows a Notice of Filing of Soil and Water Resource Conservation Plan filed July 29, 1992 in Roll 266, Image 2343.
- Entry 36 of Part IV shows Resolution #10,455 filed August 29, 2008 in Roll 699, Image 7213. This resolution establishes comprehensive zoning regulations for unincorporated areas and requirements for the design and development of new subdivisions of unincorporated land.
- Entry 37 of Part IV shows Resolution #10,456 filed August 29, 2008 in Roll 699, Image 7313 showing the Woodbury County Board of Supervisors adopted new subdivision ordinances.

All certified real estate taxes and special assessments due and payable have been paid. Real estate taxes and special assessments not certified are a lien in an undetermined amount.

Dated: _____, 2018.

Grantor: Steve Mrla

Grantee: Sorta Heaven, LLC

Legal Description: See Exhibit B attached hereto.

Document or instrument number if applicable: N/A

ACCESS EASEMENT AND MAINTENANCE AGREEMENT

This EASEMENT AND MAINTENANCE AGREEMENT (this "Agreement") is entered into as of the 18 day of September, 2018 by and between Steve Mrla ("Mrla") and Sorta Heaven, LLC, an Iowa limited liability company ("Sorta").

RECITALS

A. Sorta is in the process of acquiring certain real estate legally described as set forth on **Exhibit A** attached hereto and also known as Lots 1 and 2, Sorta Heaven Addition, a minor subdivision in part of Lot 1, Boyle's Addition and Part of Government Lots 1, 5 and 6 of Section 6, T88N, R45W of the 5th P.M., an Addition to Woodbury County, Iowa. (the "Sorta Real Estate").

B. Mrla has previously granted a 30' x 40' access easement as set forth on Plat of Survey filed by MLS & Associates on April 3, 2008 in Roll 697, Image 1434, providing the Sorta Real Estate with access to the public right of way.

C. Mrla has agreed to increase the width of previously provided access easement so as to provide improved access to the Sorta Real Estate.

NOW THEREFORE, Mrla and Sorta, in consideration of One Dollar (\$1.00) and other valuable consideration, the receipt of which is hereby acknowledged, agree as follows:

1. Grant of Access Easement. Mrla does hereby grant Sorta, a non-exclusive easement for vehicular and pedestrian ingress and egress to and from the Sorta Real Estate over and across the real estate described hereto on **Exhibit B** (the "Easement Area").

2. Maintenance. It is agreed that Sorta shall maintain a driveway in good repair upon the Easement Area. The maintenance obligations shall include, but not be limited to the following:

(a) Maintaining any surfaces in a level, smooth and evenly-covered condition (including filling any potholes) with the type of surfacing material originally installed or of similar quality, use and durability;

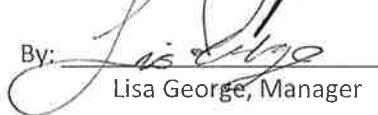

(b) Removing all unsightly weeds, papers, debris, snow, ice, filth and refuse, and thoroughly sweeping the areas to the extent reasonably necessary to keep said areas in a neat, clean and orderly condition;

2. Appurtenant. The easement granted herein is to be held by the respective grantees, their tenants, servants, visitors, licensees, heirs and assigns as appurtenant to the land owned by the respective grantees.

3. No Rights in Public. Nothing contained herein shall be construed as creating any rights in the general public or as dedicating for public use any portion of the Easement Area.

ACCESS EASEMENT AND MAINTENANCE AGREEMENT

The undersigned, Sorta Heaven, LLC, an Iowa limited liability company, is the owner of the real estate legally described as set forth on **Exhibit A** attached hereto and also known as Lots 1 and 2, Sorta Heaven Addition, a minor subdivision in part of Lot 1, Boyle's Addition and Part of Government Lots 1, 5 and 6 of Section 6, T88N, R45W of the 5th P.M., an Addition to Woodbury County, Iowa.

WHEREAS, Sorta Heaven, LLC is presently the owner of both Lots 1 and 2, but intends to transfer title to one or more of these lots to a third party in the future, and the imposition of this easement is a requirement of the minor subdivision of the property described on Exhibit A.

WHEREAS, Access to the adjacent US Highway 20 is restricted and Lot 2 does not have access to highway 20 unless an access easement is provided over and upon a part of Lot 1.

NOW THEREFORE, Sorta Heaven, LLC in consideration of One Dollar (\$1.00) and other valuable consideration, the receipt of which is hereby acknowledged, does hereby grant to the owner of Lot 2, an easement for right of way purposes across the north thirty feet of Lot 1 and as further depicted on the Final Plat of Sorta Heaven Addition (the "Easement Area").

1. Maintenance. It is agreed that the owner of Lot 2, at lot 2 owner's cost, shall construct and maintain a driveway in good repair upon the Easement Area. The maintenance obligations shall include, but not be limited to the following:

- (a) Maintaining any surfaces in a level, smooth and evenly-covered condition (including filling any potholes) with the type of surfacing material originally installed or of similar quality, use and durability;

(b) Removing all unsightly weeds, papers, debris, snow, ice, filth and refuse, and thoroughly sweeping the areas to the extent reasonably necessary to keep said areas in a neat, clean and orderly condition;

2. Appurtenant. The easement granted herein is to be held by the respective grantees, their tenants, servants, visitors, licensees, heirs and assigns as appurtenant to the land owned by the respective grantees.

3. Non-Merger of Easement. The easement created herein shall not merge by virtue of the common ownership of the servient and dominant estates affected hereto. It is the intention of the parties hereto that said easement continue and remain on the above-described premises as set forth above.

4. No Rights in Public. Nothing contained herein shall be construed as creating any rights in the general public or as dedicating for public use any portion of the Easement Area.

WOODBURY COUNTY BOARD OF SUPERVISORS AGENDA ITEM(S) REQUEST FORM

Date: 9/20/2018 Weekly Agenda Date: 9/25/2018

ELECTED OFFICIAL / DEPARTMENT HEAD / CITIZEN: Melissa Thomas

WORDING FOR AGENDA ITEM:

Create a deduction for Four Seasons Health Club membership fees to be taken directly from employee's payroll.

ACTION REQUIRED:

- Approve Ordinance
- Approve Resolution
- Approve Motion
- Public Hearing
- Other: Informational
- Attachments

EXECUTIVE SUMMARY:

Four Seasons Health Club is offering membership at a reduced rate for Woodbury County employees if deducted directly from payroll.

BACKGROUND:

Through Woodbury County's Wellness program, points may be obtained to maintain the Health Insurance discount. Four Seasons and Mercy Business have teamed up to communicate employee participation (only if approved by the employee). This would lead to employees being able to maintain their Health Insurance discount by going to the gym on a regular basis.

FINANCIAL IMPACT:

0 to a positive impact on Woodbury County's Health Plan

IF THERE IS A CONTRACT INVOLVED IN THE AGENDA ITEM, HAS THE CONTRACT BEEN SUBMITTED AT LEAST ONE WEEK PRIOR AND ANSWERED WITH A REVIEW BY THE COUNTY ATTORNEY'S OFFICE?

Yes No

RECOMMENDATION:

Human Resources is requesting approval to allow Four Seasons Health Club membership fees to be payroll deducted.

ACTION REQUIRED / PROPOSED MOTION:

Motion to approve a deduction of Four Seasons Health Club membership fees.

7.	Traffic Control	1 Lump Sum	\$ 7,000.00	\$ 7,000.00
TOTAL BID				\$101,085.08

Said specifications and plans are hereby made part of and the basis of this agreement, and a true copy of said plans and specifications are now on file in the office of the County Engineer under date of August 14, 2018

That in consideration of the foregoing, the Contracting Authority hereby agrees to pay the Contractor, promptly and according to the requirements of the specifications the amounts set forth, subject to the conditions as set forth in the specifications.

That it is mutually understood and agreed by the parties hereto that the notice to bidders, the proposal, the specifications for Project No. PCC Patching 2018 in Woodbury County, Iowa, the within contract, the contractor's bond, and the general and detailed plans are and constitute the basis of contract between the parties hereto.

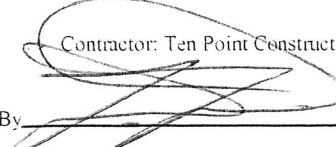

That it is further understood and agreed by the parties of this contract that the above work shall be commenced and completed on or before:

Approximate Starting Date	Specified Starting Date	Late Start Date	Number of Working Days
		October 14, 2018	21

That time is the essence of this contract and that said contract contains all of the terms and conditions agreed upon by the parties hereto.

It is further understood that the Contractor consents to the jurisdiction of the courts of Iowa to hear, determine, and render judgment as to any controversy arising hereunder.

IN WITNESS WHEREOF the parties hereto have set their hands for the purposes herein expressed to this and three other instruments of like tenor, as the _____ day of _____, 2018

This document has important legal consequences. Consultation with an attorney is encouraged with respect to its completion or modification.

Any singular reference to Contractor, Surety, Owner or other party shall be considered plural where applicable.

This document combines two separate bonds, a Performance Bond and a Payment Bond, into one form. This is not a single combined Performance and Payment Bond.

Printed in cooperation with American Institute of Architects (AIA). The language in this document conforms exactly to the language used in AIA Document A312-Performance Bond-2010 edition.

§ 1 The Contractor and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors and assigns to the Owner for the performance of the Construction Contract, which is incorporated herein by reference.

§ 2 If the Contractor performs the Construction Contract, the Surety and the Contractor shall have no obligation under this Bond, except when applicable to participate in a conference as provided in Section 3.

§ 3 If there is no Owner Default under the Construction Contract, the Surety's obligation under this Bond shall arise after

- .1 the Owner first provides notice to the Contractor and the Surety that the Owner is considering declaring a Contractor Default. Such notice shall indicate whether the Owner is requesting a conference among the Owner, Contractor and Surety to discuss the Contractor's performance. If the Owner does not request a conference, the Surety may, within five (5) business days after receipt of Owner's notice, request such a conference. If the Surety timely requests a conference, the Owner shall attend. Unless the Owner agrees otherwise, any conference requested under this Section 3.1 shall be held within ten (10) business days of the Surety's receipt of the Owner's notice. If the Owner, the Contractor and the Surety agree, the Contractor shall be allowed a reasonable time to perform the Construction Contract, but such an agreement shall not waive the Owner's right, if any, subsequently to declare a Contractor Default;
- .2 the Owner declares a Contractor Default, terminates the Construction Contract and notifies the Surety; and
- .3 the Owner has agreed to pay the Balance of the Contract Price in accordance with the terms of the Construction Contract to the Surety or to a contractor selected to perform the Construction Contract.

§ 4 Failure on the part of the Owner to comply with the notice requirement in Section 3.1 shall not constitute a failure to comply with a condition precedent to the Surety's obligations, or release the Surety from its obligations, except to the extent the Surety demonstrates actual prejudice.

§ 5 When the Owner has satisfied the conditions of Section 3, the Surety shall promptly and at the Surety's expense take one of the following actions:

§ 5.1 Arrange for the Contractor, with the consent of the Owner, to perform and complete the Construction Contract:

§ 5.2 Undertake to perform and complete the Construction Contract itself through its agents or independent contractors:

§ 5.3 Obtain bids or negotiated proposals from qualified contractors acceptable to the Owner for a contract for performance and completion of the Construction Contract, arrange for a contract to be prepared for execution by the Owner and a contractor selected with the Owner's concurrence, to be secured with performance and payment bonds executed by a qualified surety equivalent to the bonds issued on the Construction Contract, and pay to the Owner the amount of damages as described in Section 7 in excess of the Balance of the Contract Price incurred by the Owner as a result of the Contractor Default; or

§ 5.4 Waive its right to perform and complete, arrange for completion, or obtain a new contractor and with reasonable promptness under the circumstances:

- .1 After investigation, determine the amount for which it may be liable to the Owner and, as soon as practicable after the amount is determined, make payment to the Owner; or
- .2 Deny liability in whole or in part and notify the Owner, citing the reasons for denial.

§ 6 If the Surety does not proceed as provided in Section 5 with reasonable promptness, the Surety shall be deemed to be in default on this Bond seven days after receipt of an additional written notice from the Owner to the Surety demanding that the Surety perform its obligations under this Bond, and the Owner shall be entitled to enforce any remedy available to the Owner. If the Surety proceeds as provided in Section 5.4 and the Owner refuses the payment or the Surety has denied liability, in whole or in part, without further notice the Owner shall be entitled to enforce any remedy available to the Owner.

§ 7 If the Surety elects to act under Section 5.1, 5.2, or 5.3, then the responsibilities of the Surety to the Owner shall not be greater than those of the Contractor under the Construction Contract, and the responsibilities of the Owner to the Surety shall not be greater than those of the Owner under the Construction Contract. Subject to the commitment by the Owner to pay the Balance of the Contract Price, the Surety is obligated, without duplication, for

- .1 the responsibilities of the Contractor for correction of defective work and completion of the Construction Contract;
- .2 additional legal, design professional and delay costs resulting from the Contractor's Default, and resulting from the actions or failure to act of the Surety under Section 5; and
- .3 liquidated damages, or if no liquidated damages are specified in the Construction Contract, actual damages caused by delayed performance or non-performance of the Contractor.

§ 8 If the Surety elects to act under Section 5.1, 5.3 or 5.4, the Surety's liability is limited to the amount of this Bond.

§ 9 The Surety shall not be liable to the Owner or others for obligations of the Contractor that are unrelated to the Construction Contract, and the Balance of the Contract Price shall not be reduced or set off on account of any such unrelated obligations. No right of action shall accrue on this Bond to any person or entity other than the Owner or its heirs, executors, administrators, successors and assigns.

§ 10 The Surety hereby waives notice of any change, including changes of time, to the Construction Contract or to related subcontracts, purchase orders and other obligations.

§ 11 Any proceeding, legal or equitable, under this Bond may be instituted in any court of competent jurisdiction in the location in which the work or part of the work is located and shall be instituted within two years after a declaration of Contractor Default or within two years after the Contractor ceased working or within two years after the Surety refuses or fails to perform its obligations under this Bond, whichever occurs first. If the provisions of this Paragraph are void or prohibited by law, the minimum period of limitation available to sureties as a defense in the jurisdiction of the suit shall be applicable.

§ 12 Notice to the Surety, the Owner or the Contractor shall be mailed or delivered to the address shown on the page on which their signature appears.

§ 13 When this Bond has been furnished to comply with a statutory or other legal requirement in the location where the construction was to be performed, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

§ 14 Definitions

§ 14.1 Balance of the Contract Price. The total amount payable by the Owner to the Contractor under the Construction Contract after all proper adjustments have been made, including allowance to the Contractor of any amounts received or to be received by the Owner in settlement of insurance or other claims for damages to which the Contractor is entitled, reduced by all valid and proper payments made to or on behalf of the Contractor under the Construction Contract.

§ 14.2 Construction Contract. The agreement between the Owner and Contractor identified on the cover page, including all Contract Documents and changes made to the agreement and the Contract Documents.

§ 14.3 Contractor Default. Failure of the Contractor, which has not been remedied or waived, to perform or otherwise to comply with a material term of the Construction Contract.

§ 14.4 Owner Default. Failure of the Owner, which has not been remedied or waived, to pay the Contractor as required under the Construction Contract or to perform and complete or comply with the other material terms of the Construction Contract.

§ 14.5 Contract Documents. All the documents that comprise the agreement between the Owner and Contractor.

§ 15 If this Bond is issued for an agreement between a Contractor and subcontractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed to be Contractor.

§ 16 Modifications to this bond are as follows:

(Space is provided below for additional signatures of added parties, other than those appearing on the cover page.)

WOODBURY COUNTY BOARD OF SUPERVISORS AGENDA ITEM(S) REQUEST FORM

Date: 9/21/2018

Weekly Agenda Date: 9/25/2018

ELECTED OFFICIAL / DEPARTMENT HEAD / CITIZEN: Rocky De Witt

WORDING FOR AGENDA ITEM:

Operation of All-terrain and Off-road Utility Vehicles on county roadways

ACTION REQUIRED:

Approve Ordinance

Approve Resolution

Approve Motion

Public Hearing

Other: Informational

Attachments

EXECUTIVE SUMMARY:

Discuss a possible ordinance designating portions of county roadway in unincorporated areas which All-terrain Vehicles and Utility Vehicles may be operated during a specified time frame. This would also be used to establish regulations regarding their operation on county roads.

BACKGROUND:

Woodbury County does not currently have an ordinance regarding all-terrain vehicles. We have also included a copy of Sac County, Iowa's ordinance for operation of All-terrain vehicles within their county.

FINANCIAL IMPACT:

None

IF THERE IS A CONTRACT INVOLVED IN THE AGENDA ITEM, HAS THE CONTRACT BEEN SUBMITTED AT LEAST ONE WEEK PRIOR AND ANSWERED WITH A REVIEW BY THE COUNTY ATTORNEY'S OFFICE?

Yes No

RECOMMENDATION:

Discussion regarding a future public hearing to establish a county ordinance

ACTION REQUIRED / PROPOSED MOTION:

Discuss future public hearing

Sac County Example

TITLE IV STREETS, ROADS, & PUBLIC HIGHWAYS

CHAPTER 9 OPERATION OF ALL-TERRAIN AND OFF-ROAD UTILITY VEHICLES

4-9-1 PURPOSE: The purpose of this Resolution is to designate that portion of county highways upon which All-Terrain Vehicles and Utility Vehicles may be operated during a specified period, to specify said period, and to establish regulations regarding such operation.

4-9-2 DEFINITIONS: (1) "All-terrain vehicle," as defined by Iowa Code Section 321I.1(1)(a), means a motorized vehicle with not less than three and not more than six nonhighway tires that is limited in engine displacement to less than one thousand cubic centimeters and in total dry weight to less than one thousand two hundred pounds and that has a seat or saddle designed to be straddled by the operator and handlebars for steering control.

(2) "Off-Road Utility Vehicle", as defined in Iowa Code Section 321I.1(17), means a motorized flotation-tire vehicle with not less than four and not more than eight low-pressure tires that is limited in engine displacement to less than 1,500 cubic centimeters and in total dry weight to not more than 1,800 pounds and that has a seat of bucket or bench design, not intended to be straddled by the operator, and a steering wheel or control levers for control.

(3) "Roadway", as defined in Iowa Code Section 321I.1, means that portion of a highway improved, designed, or ordinarily used for vehicular travel.

4-9-3 OPERATION ON ROADWAYS: If an All-Terrain or Off-Road Utility Vehicle is properly registered pursuant to Iowa Code Section 321I.3, the same may be operated on any Sac County, Iowa, roadway, such operation limited to roadways lying outside the city limits of any incorporated city which does not have an ordinance or other regulation in effect allowing such operation, and such operation further limited to the hours from official sunrise to official sunset of the same day, as established by the National Weather Service.

4-9-4 UNLAWFUL OPERATIONS: (1) A person shall not drive or operate an All-Terrain or Off-Road Utility Vehicle:

- a. At a rate of speed in excess of the posted speed limit, nor greater than reasonable or proper under all existing circumstances.
- b. In a careless, reckless, or negligent manner so as to endanger the person or property of another or to cause injury or damage thereto.
- c. While under the influence of intoxicating liquor or narcotics or habit-forming drugs.
- d. Without a lighted headlight and taillight.
- e. In any tree nursery or planting in a manner which damages or destroys growing stock.
- f. On any public land, ice, or snow, in violation of official signs of the commission prohibiting such operation in the interest of safety for persons, property, or the environment. Any officer appointed by the commission may post an official sign in an emergency for the protection of persons, property, or the environment.

g. In any park, wildlife area, preserve, refuge, game management area, or any portion of a meandered stream, or any portion of the bed of a non-meandered stream, which has been identified as a navigable stream or river by rule adopted by the department and which is covered by water, except on designated riding areas and designated riding trails. This paragraph does not prohibit the use of ford crossing of public roads or any other ford crossing when used for agricultural purposes; the operation of construction vehicles engaged in lawful construction, repair, or maintenance in a streambed; or the operation of all-terrain vehicles on ice.

h. Upon an operating railroad right-of-way. An All-Terrain or Off-Road Utility Vehicle may be driven directly across a railroad right-of-way only at an established crossing and, notwithstanding any other provisions of law, may, if necessary, use the improved portion of the established crossing after yielding to all oncoming traffic. This paragraph does not apply to a law enforcement officers or employee's duties or to an employee of a utility with authority to enter upon the railroad right of-way in the lawful performance of the employee's duties.

(2) A person shall not operate or ride in an All-Terrain or an Off-Road Utility Vehicle with a firearm in the person's possession unless it is unloaded and enclosed in a carrying case. However, a non-ambulatory person may carry an uncased and unloaded forearm while operating or riding in an All-Terrain or Off-Road Utility Vehicle.

(3) A person shall not operate an All-Terrain or Off-Road Utility Vehicle:

a. With more persons on the vehicle than it was designated to carry.

b. Paragraph "a" does not apply to a person who operates an All-Terrain or Off-Road Utility Vehicle as part of a farm operation as defined in Iowa Code Section 352.2.

(4) A person shall not operate an All-Terrain or Off-Road Utility Vehicle on a designated riding area or designated trail unless the riding area or trail is signed as open to Off Road Utility Vehicle operation.

(5) A person shall not operate a vehicle other than an All- Terrain or Utility Vehicle on a designated riding area or designated trail unless the riding area or trail is signed as open to such other use.

(6) A person shall not operate an All-Terrain or Off-Road Utility Vehicle unless the operator is 18 years of age or older and has a valid Iowa Driver's License; unless the vehicle is duly registered; and unless the operator has proof of insurance complying with that required of the operator of a motor vehicle pursuant to applicable Iowa Statutes, Rules, and Regulations, including but not limited to Iowa Code Sections 321.20B and 321A.21.

4-9-5 EXEMPT VEHICLES: Registration shall not be required for all-terrain vehicles used exclusively to conduct agricultural operations pursuant to Iowa Code section 321I.9(3).

4-9-6 PENALTIES: Violation of this Ordinance shall constitute a SIMPLE MISDEMEANOR punishable by a minimum fine of \$65.00, a maximum fine of \$625.00, plus applicable surcharges and court costs, and/or up to thirty (30) days in jail.

4-9-7 EFFECTIVE DATE: This ordinance shall become effective on November 18, 2014.

WOODBURY COUNTY BOARD OF SUPERVISORS AGENDA ITEM(S) REQUEST FORM

#12

Date: 9/19/2018 Weekly Agenda Date: 9/25/2018

ELECTED OFFICIAL / DEPARTMENT HEAD / CITIZEN: Supervisor Matthew Ung

WORDING FOR AGENDA ITEM:

Compliance of Woodbury County as a Certified Local Government

ACTION REQUIRED:

- Approve Ordinance
- Approve Resolution
- Approve Motion
- Public Hearing
- Other: Informational
- Attachments

EXECUTIVE SUMMARY:

Woodbury County risks being removed as a Certified Local Government as it hasn't complied with requirements set by the State of Iowa. While this is not immediately detrimental, it is not ideal.

BACKGROUND:

Jim Jung & I have discussed this topic with Dr. Paula Mohr, Architectural Historian & Certified Local Government Coordinator, since before the courthouse's 100th anniversary. The State Historical Society of Iowa has been awaiting a formal answer for years, and may decertify Woodbury County soon. In lieu of the next historical committee meeting being set, this item should be decided by the board.

FINANCIAL IMPACT:

There is no immediate financial impact, but being certified enables Woodbury County to take full and timely advantage of certain grants as they become available. Staff time will be required to generate annual reports.

IF THERE IS A CONTRACT INVOLVED IN THE AGENDA ITEM, HAS THE CONTRACT BEEN SUBMITTED AT LEAST ONE WEEK PRIOR AND ANSWERED WITH A REVIEW BY THE COUNTY ATTORNEY'S OFFICE?

Yes No

RECOMMENDATION:

I think the county should continue on as a Certified Local Government. The required commission ("by agreement") should be created soon and could replace the historical committee ("special purpose") which would sunset Dec. 31. If the board decides not to take action on the requirements, the Chair should send a letter to Dr. Mohr as she requests, in order to bring closure to this question.

ACTION REQUIRED / PROPOSED MOTION:

Move to request the Auditor's Office work with guidance from the State Historical Society of Iowa to update the Historical Preservation Resolution if needed, and to direct the Chairman to reestablish the Historic Preservation Commission with the same guidance.

Matthew A. Ung

Subject: Re: Certified Local Government
Attachments: AmendmentResolution1990.pdf; CLGagreement.pdf; Resolution1987.pdf

Matthew,

Thank you for your call today.

I have attached some of the documents we have in our files.

- Woodbury's Historic Preservation Resolution passed in 1987
- Amendment to the Resolution, passed in 1990
- CLG agreement between Woodbury County and the State Historical Society of Iowa signed in 1991

Here is what I recommend:

1. The Board of Supervisors should decide whether they want to continue as a Certified Local Government. I am happy to phone in for a meeting to discuss the program and answer questions.
2. If the answer is no, then the chair of the Board of Supervisors should send me a letter stating that the county wants to be decertified. The county will be able to come back into the program at a later time, with no penalty.
3. If the answer is yes, determine whether the 1987 resolution and 1990 amendment are still in place. If they are not, they will need to be readopted by the Board. I can work with the Board and County Auditor to make sure the new resolution meets the current terms of the Certified Local Government program.
4. The Board of Supervisors will then appoint the historic preservation commission. I can then work with them to get them up and running.

We also have a [CLG guidebook](#) online. There is an FAQ section beginning on page 5 that may be particularly helpful.

Meanwhile, please let me know if you have questions or if I can help in any way.

Best,

Paula

WOODBURY COUNTY, IOWA

COPY

RESOLUTION NO. 7254

88 APR 4 A10: 50

CLERK OF COURSE
WOODBURY COUNTY, IOWA

A RESOLUTION ESTABLISHING A HISTORIC PRESERVATION COMMISSION FOR WOODBURY COUNTY, IOWA; PROVIDING FOR THE RECOGNITION AND PROMOTION OF HISTORIC SITES AND DEFINING POWERS AND DUTIES OF THE COMMISSION.

WHEREAS the Woodbury County Board of Supervisors desires to establish a Historic Preservation Commission for Woodbury County, Iowa with the following guidelines:

Section 1: Purpose and Intent

The purpose of this resolution is to:

- a. Promote the educational, cultural, economic and general welfare of the public through the recognition, enhancement, and perpetuation of sites and districts of historical and cultural significance;
- b. Safeguard the County's historic, aesthetic, and cultural heritage by preserving sites and districts of historic and cultural significance;
- c. Stabilize and improve property values;
- d. Foster pride in the legacy of beauty and achievements of the past;
- e. Protect and enhance the County's attractions to tourists and visitors and the support the stimulus to business thereby provided;
- f. Strengthen the economy of the County;
- g. Promote the use of sites and districts of historic and cultural significance as places for the education, pleasure, and welfare of the people of the County.

Section 2: Definitions

- a. Commission. The Woodbury County Historic Preservation Commission, as established by this resolution.
- b. Historic District. An area which contains a significant portion of buildings, structures or other improvements which,

represents a significant and distinguishable entity whose components may lack individual distinction; or

2. is associated with events that have made significant contributions to the broad patterns of our local, state or national history; or

3. possesses a coherent and distinctive visual character or integrity based upon similarity of scale, design, color, setting, workmanship, materials, or combinations thereof, which is deemed to add significantly to the value and attractiveness of properties with such area.

4. is associated with the lives or persons significant in our past; or

5. has yielded, or may likely to yield, information important in prehistory or history.

c. Historic Site. A structure or building which,

1. is associated with events that have made a significant contribution to the broad patterns of our history; or

2. is associated with the lives of persons significant in our past; or

3. embodies the distinctive characteristics of a type, period, or method of construction, or that represents a work of a master, or that possesses high artistic values, or that represents a significant and distinguishable entity whose components may lack individual distinction; or

4. has yielded, or may be likely to yield, information important in prehistory or history.

Section 3. Woodbury County Historic Preservation Commission

a. The Commission shall initially consist of seven (7) members who shall be residents of the County.

b. Members of the Commission shall be appointed by the Board of Supervisors. The Board shall appoint members from applications received by the County Board Office. **Members shall demonstrate a positive interest in historic preservation,** possessing interest in historic preservation, possessing interest or expertise in architecture, architectural history, historic preservation, planning, building rehabilitation, conservation in general or real estate.

c. The original appointment of the members of the **Commission shall be, two for two years, and two for three years, and two for four years,** from January 1 following the year of such appointment or until their successor is appointed to serve for

f. Vacancies shall be filled by the County according to the original selection as aforesaid.

g. Members shall serve without compensation.

h. A simple majority of the commission shall constitute a quorum for the transaction of business.

i. The Commission shall elect a Chair who shall preside over all Commission meetings and elect a Secretary who shall be responsible for maintaining written records of the Commission's proceedings.

j. The Commission shall meet at least three (3) times a year.

k. All members shall reside in Woodbury County, Iowa and shall not be an employee or an elected official of Woodbury County, Iowa.

Section 4: Powers of the Commission

a. The Commission may conduct studies for the identification and inventories designation of Historic Districts and sites meeting the definitions established by the resolution. (The necessary inventory forms and procedures for their completion are available from the state Office of Historic Preservation.) The commission may proceed at its own initiative or upon a petition from any person, group, or association. The Commission shall maintain records of all studies and inventories for public use.

~~b. The Commission may make a recommendation to the state~~ office of Historic Preservation for the listing of a historical district or site in the National Register of Historic Places and may conduct a public hearing thereon.

c. Other Powers. In addition to those duties and powers specified above, the Commission may, with Board approval:

1. Accept unconditional gifts and donations of real and personal property, including money, for the purpose of historic preservation.

2. Acquire by purchase, bequest, or donation, fee and lesser interests in historic properties, including properties adjacent to or associated with historic preservation.

3. Preserve, restore, maintain and operate historic properties, under the ownership or control of the Commission

governments in the pursuance of the objectives of historic preservation.

7. Provide information for the purpose of historic preservation to the governing body.

8. Promote and conduct an educational and interpretive program on historic properties within its jurisdiction.

Section 5: Separability

Should any section or provision of this resolution be decided by a court of this state to be unconstitutional or invalid, such decision shall not affect the validity of the ordinance as a whole or any part thereof other than the part so decided to be unconstitutional or invalid.

Section 6: Amendatory Provisions

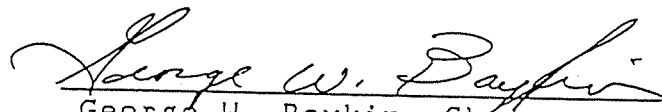

The County may amend this resolution to meet any unforeseen circumstances which may affect the duties and responsibilities of the Commission.

Section 7: Effective Date

This resolution shall take effect immediately upon passage and publication as required by law.

SO RESOLVED THIS 23rd day of November, 1987.

CLG CERTIFICATION

CERTIFIED LOCAL GOVERNMENT (CLG) AGREEMENT

This agreement is made and entered into by and between Woodbury County, Iowa, hereinafter referred to as the CLG, and the Bureau of Historic Preservation, State Historical Society of Iowa, hereinafter referred to as the STATE; WITNESSETH THAT:

WHEREAS, the STATE is interested in granting Certified Local Government status to qualified local governments; and

WHEREAS, the STATE is empowered by federal statute to institute the Certified Local Government program in Iowa; and

WHEREAS, the CLG has met all qualifications and criteria set forth by the STATE and the U.S. Department of the Interior, including the passage of historic preservation legislation and the creation of a historic preservation commission;

NOW, therefore, it is agreed by and between the parties hereto as follows:

1. That the STATE will consider the CLG eligible for the STATE's 10% pass-through funds from the Department of the Interior; and
2. That the STATE will monitor all preservation activities of the CLG, including those of its historic preservation commission; and
3. That the CLG and the STATE mutually agree to abide by the general and specific conditions and responsibilities attached hereto as Exhibits A and B and any additional responsibilities hereto attached as Exhibit C; and
4. The CLG will faithfully comply with all applicable Federal and State laws as specified by the STATE; and
5. The CLG will faithfully comply with all applicable regulations and directives issued by the STATE and the U.S. Department of the Interior; and
6. The CLG shall hold the STATE and Federal government harmless from damages in any action arising from the performance of any work performed under the auspices of this agreement or any grant.

IN WITNESS WHEREOF, the parties hereto have executed this agreement on the day and year last specified below.

David Crosson 4/29/91
David Crosson, Administrator / Date

EXHIBIT A

GENERAL CONDITIONS

ARTICLE I: General Responsibilities of a Certified Local Government.

- A. The CLG will enforce all appropriate state and local ordinances for designating and protecting historic properties.
- B. The CLG will organize and maintain a historic preservation review commission which must meet at least three times per year. The commission will be composed of community members with a demonstrated positive interest in historic preservation, or closely related fields, to the extent available in the community, with consideration of at least one representative in history and one in architecture. If an appropriate discipline cannot be represented, the CLG shall utilize expertise in this area when considering nominations to the National Register of Historic Places and other actions that will impact properties which are normally evaluated by a professional in such discipline. This can be accomplished by consulting with the Bureau of Historic Preservation, State Historical Society of Iowa, another CLG, or hiring a consultant on an as-needed basis.
- C. The CLG will review National Register nominations on any property that lies in the jurisdiction of the local historic preservation commission. After allowing for public comment, the commission and the chief elected local official(s) shall decide if the property meets the criteria of the National Register. This recommendation must be submitted to the STATE within sixty days (or sooner if mutually agreed upon) of the commission decision.
- D. The CLG shall provide for adequate public participation in the local historic preservation programs, including the process of recommending properties for nomination to the National Register of Historic Places. This will be accomplished in a format issued by the STATE in its program guidelines.
- E. CLG Commission members will participate in STATE-sponsored or approved historic preservation training activities.
- F. The CLG shall submit an annual report of its historic preservation activities in a format prescribed by the STATE.
- G. The CLG shall maintain a system for the survey and inventory of historic and prehistoric properties in a manner consistent with and approved by the STATE.

- H. The CLG shall not unlawfully discriminate on the basis of sex, race, color, and/or national origin in any of its activities in implementing its programs.

ARTICLE II: Amendment of Agreement.

The CLG or the STATE may, during the duration of this agreement, deem it necessary to make alterations to the provisions of this agreement. Any changes, which shall be mutually agreed upon, shall be incorporated into this agreement. The provisions of the amendment shall be in effect as of the date of the amendment unless otherwise specified within the amendment. A waiver of any conditions of this agreement must be in writing from a duly authorized official of the STATE.

ARTICLE III: Patent and Copyright.

- A. No material or product produced in whole or in part under this agreement shall be subject to patent or copyright by either party in the United States or in any other country.
- B. The U.S. Department of the Interior reserves a royalty-free non-exclusive and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use, any materials produced in whole or in part under this agreement for government purposes.

ARTICLE IV: Accounts and Records.

- A. Accounts: The CLG shall maintain books, records, documents, all aspects of financial management and other evidence pertaining to all activities under this agreement.
- B. Audit and Inspection: At all times during normal business hours and as frequently as is deemed necessary, the CLG shall make available to the STATE all of its records pertaining to all matters covered by this agreement.
- C. Retention of Financial Records: All records in the possession of the CLG pertaining to this agreement shall be retained by the CLG for a period of three (3) years beginning with the date upon which this agreement is issued. All records shall be retained beyond the three (3) year period if audit findings have not been resolved within that period.
- D. The CLG shall provide the STATE copies of all audit reports issued during the agreement period.

ARTICLE V: Termination of Agreement.

- A. Termination for Cause: The STATE or the CLG may terminate this agreement in whole or in part, at any time, whenever it is determined that the other party has failed to comply with the conditions of the agreement. The STATE or the CLG shall promptly notify the other party in writing of the determination and the reasons for the termination, together with the effective date.
- B. Termination for Convenience: The STATE and the CLG may terminate this agreement, in whole or in part, when both parties agree that the continuation of the agreement would not produce beneficial results. The two parties shall agree upon the termination conditions, including the effective date and, in the case of partial termination, the portion to be terminated. Termination will be made without prejudice.
- C. Rights in Incompleted Products: In the event the agreement is terminated, all finished or unfinished products prepared by or for the CLG under this agreement shall, at the option of the STATE, become its property.

ARTICLE VI: Interest of Officials and Others.

- A. STATE: No officer or employee of the STATE shall participate in any decisions relating to this agreement which affect his or her personal interest or the interest of any corporation, partnership, or association in which he or she is, directly or indirectly interested or has any interest, direct or indirect, in this agreement or the proceeds thereof.
- B. CLG: The CLG covenants that it presently has no interest and shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance of services required to be performed under this agreement.

ARTICLE VII: Assignment of Interest.

Neither this agreement or any interest therein nor claim thereunder shall be assigned or transferred by the CLG to any other party or parties.

ARTICLE VIII: Agreement Coverage.

This instrument contains the entire agreement between the parties and any statements, inducements or promises not contained herein shall not be binding upon said parties. This agreement shall inure to the benefit of, and be binding upon the successors in office of, the respective parties.

If any of the provisions herein shall be in conflict with the laws of the State of Iowa, or shall be declared to be invalid by any court of record in this State, such invalidity shall be construed to affect only such portions as are declared invalid or in conflict.

ARTICLE IX: Reports.

The CLG shall submit to the STATE two (2) copies of an annual report by October 1 of each year as specified.

ARTICLE X: Agreement Duration.

The agreement shall remain in effect until terminated by either or both parties.

EXHIBIT B

SPECIAL CONDITIONS

ARTICLE I: Identification of Parties.

This agreement is entered into by and between the Bureau of Historic Preservation, State Historical Society of Iowa, hereinafter called the **STATE** and **WOODBURY COUNTY** hereinafter called the **CLG**.

ARTICLE II: Designation of Officials.

- A. **STATE.** The Administrator of the State Historical Society of Iowa is the State Official authorized to execute any changes in the terms, conditions, or amounts specified in this agreement. He may designate a member of his staff to negotiate, on behalf of the **STATE**, any changes to this agreement.

- B. **CLG:** The Chairman, Board of Supervisors, Woodbury County is authorized to execute any changes in the terms, conditions, or amounts as specified in this agreement. He/She may designate a member of his/her staff to negotiate, on behalf of the **CLG**, and changes to this agreement.

EXHIBIT C

CLG SPECIAL DELEGATED RESPONSIBILITIES
