

RESOLUTION NO. 12,511**“Stepping Up to Reduce the Number of People with Mental Illnesses in Jails”**

WHEREAS, counties routinely provide treatment services to the estimated 2 million people with serious mental illnesses booked into jail each year; and

WHEREAS, prevalence rates of serious mental illnesses in jails are three to six times higher than for the general public; and

WHEREAS, almost three-quarters of adults with serious mental illnesses in jails have co-occurring substance use disorders; and

WHEREAS, adults with mental illnesses tend to stay longer in jail and, upon release, are at a higher risk of recidivism than people without these disorders; and

WHEREAS, county jails spend two to three times more on adults with mental illnesses that require interventions compared to those without these treatment needs; and

WHEREAS, without the appropriate treatment and services, people with mental illnesses continue to cycle through the criminal justice system, often resulting in tragic outcomes for these individuals and their families; and

WHEREAS, Woodbury County, Iowa and all counties take pride in their responsibility to protect and enhance the health, welfare, and safety of its residents in efficient and cost-effective ways; and

WHEREAS, Woodbury County has developed as part of the Sioux Rivers Regional Mental Health and Disabilities Services the Assessment and Stabilization Center to assist persons with mental health needs to remain out of the hospitals and jails by providing treatment alternatives thereby preventing hospitalization through involuntary commitments and/or jail stays; and

WHEREAS, through Stepping Up, the National Association of Counties, The Council of State Governments Justice Center, and the American Psychiatric Association Foundation are encouraging public, private, and nonprofit partners to reduce the number of people with mental illnesses in jails.

NOW, THEREFORE, LET IT BE RESOLVED, THAT I, Matthew Ung, Chairman of the Woodbury County Board of Supervisors, do hereby sign on to the Call to Action to reduce the number of people with mental illnesses in our county jail, commit to sharing lessons learned with other counties in my state and across the country to support a national initiative and encourage all county officials, employees, and residents to participate in Stepping Up. We resolve to utilize the comprehensive resources available through Stepping Up to:

- Convene or draw on a diverse team of leaders and decision makers from multiple agencies committed to safely reducing the number of people with mental illnesses in jails;
- Collect and review prevalence numbers and assess individuals' needs to better identify adults entering jails with mental illnesses and their recidivism risk, and use that baseline information to guide decision making at the system, program, and case levels;
- Examine treatment and service capacity to determine which programs and services are available in the county for people with mental illnesses and co-occurring substance use disorders, and identify state and local policy and funding barriers to minimizing contact with the justice system and providing treatment and supports in the community;
- Develop a plan with measurable outcomes that draws on the jail assessment and prevalence data and the examination of available treatment and service capacity, while considering identified barriers;
- Implement research-based approaches that advance the plan; and
- Create a process to track progress using data and information systems, and to report on successes.

SO RESOLVED this 21st day of March, 2017.

ATTEST:

Patrick F. Gill
Woodbury County Auditor/Recorder

WOODBURY COUNTY BOARD OF SUPERVISORS

Matthew Ung, Chairman
