

**NOTICE OF THE ADOPTION AND PUBLICATION OF  
ZONING ORDINANCES AND ZONING DISTRICT DESIGNATION MAPPING FOR  
THE UNINCORPORATED AREAS OF WOODBURY COUNTY, IOWA**

An ordinance establishing comprehensive zoning regulations and zoning district designation mapping for the unincorporated areas of Woodbury County, Iowa and providing for the administration, enforcement, and amendment thereof in accordance with the provisions of Chapter 335, Code of Iowa, 2007 has been adopted by the Woodbury County, Iowa Board of Supervisors on the 22nd day of July, 2008. The ordinances and mapping is effective on the date in which the complete text of the ordinances is published. All previous zoning ordinances including zoning district designation mapping is repealed upon the effective date of the new zoning ordinances. The complete text of the newly adopted zoning ordinances, including a County wide zoning district designation map, is published within this date's issue of this publication.

This notice is given pursuant to Chapter 331.302 Code of Iowa, 2007 and by order of the Woodbury County, Iowa Board of Supervisors.

Woodbury County, Iowa  
Board of Supervisors  
Douglas L. Walsh, Chairman

# **WOODBURY COUNTY ZONING ORDINANCE**

**ARTICLE 1: TITLE AND AUTHORITY, PURPOSE, APPLICABILITY, INTERPRETATION, ENFORCEMENT, SEVERABILITY, EFFECTIVE DATE**

**Section 1.01: Title and Authority**

This ordinance, which shall be known and referred to as the Zoning Ordinance for Woodbury County, Iowa, is adopted pursuant to authority granted by Chapters 331.304(6) and 335 of the 2007 Code of Iowa.

**Section 1.02: Purpose**

1. The zoning ordinance and districts as herein established have been made in accordance with a comprehensive plan and policies to promote, in accordance with present and future needs, the health, safety, morals, convenience, order, prosperity and general welfare of the present and future inhabitants of Woodbury County, Iowa.
2. This zoning ordinance will provide for, among other things:
  - A. the lessening of congestion in the streets or roads;
  - B. reducing the waste of excessive amounts of roads;
  - C. securing safety from fire, flood, panic and other dangers;
  - D. preventing on the one hand excessive concentration of population and on the other hand excessive and wasteful scattering of population or settlement;
  - E. promoting such distribution of population and such classification of land uses and distribution of land development and utilization as will tend to facilitate and provide adequate provisions for public requirements, transportation, water flowage, water supply, drainage, sanitation, educational opportunities, recreation, soil fertility, food supply, protection of the tax base;
  - F. securing economy in governmental expenditures;
  - G. preserving the availability of agricultural land;
  - H. considering the protection of soil from wind and water erosion;
  - I. encouraging efficient development patterns;
  - J. promoting conservation of energy resources and reasonable access to solar energy;
  - K. fostering the State's agricultural and other industries; and
  - L. the protection of development in unincorporated areas by regulating and limiting or determining the height and bulk of buildings and structures, the area of yards and other open spaces, and the density of use.
3. The zoning ordinance and map have been made with reasonable consideration, among other things, for the existing use and character of property, to the character of the particular district involved, and its peculiar suitability for particular uses, to trends of growth or change, and with a view to conserving natural resources and the value of land and buildings and encouraging the most appropriate use of land throughout the unincorporated territory of Woodbury County, Iowa.

**Section 1.03: Applicability**

1. **General and Territorial Applicability.** This provisions and requirements of this ordinance shall be applicable to the development and/or alterations of all land, struc-

## TITLE AND AUTHORITY, PURPOSE, APPLICABILITY, ETC.

tures and uses of land occurring after the effective date of this ordinance in the unincorporated territory of Woodbury County, Iowa.

2. **Farms Exempt.** Notwithstanding subsection 1 above, in accordance with the provisions of Chapter 335, Code of Iowa, and except to the extent required to implement section 335.27, no ordinance adopted under this section shall be applied to land, farm houses, farm barns, farm outbuildings or other buildings or structures which are primarily adapted, by reason of nature and area, for use for agricultural purposes, while so used. Conversely, the provisions of this ordinance shall be applied uniformly to all land and uses of the land that are not determined to be either farming or directly related to farming and to any structure, building, dam, obstruction, deposit or excavation in or on the flood plains of any river or stream.
3. **Determination of Farm Exemption.** The Zoning Director shall be responsible for determination of whether a particular use of land is a farm and therefore eligible for exemption from the requirements of this ordinance. In making this determination, the Zoning Director shall consider the following factors, which are alternative positive means of identifying a farming operation, rather than required findings:
  - A. Any significant (i.e., not incidental) use of land that includes agricultural production defined as the art or science of cultivating the ground, including harvesting of crops and rearing and management of livestock for production of plant crops and livestock for food, fiber and fuel shall be interpreted to be a farm, which is defined as land, farm houses, farm barns, farm outbuildings or other buildings or structures which are primarily adapted, by reason of nature and area, for use for agricultural purposes, while so used. As part of the determination of the terms "significant" and "incidental", it is not intended that farming should include gardening or keeping pets for personal use or recreational or hobby purposes; or
  - B. Any use of land that occupies 20 acres or more of land that is not clearly non-farming (i.e. a residence or a commercial or industrial enterprise) may be interpreted to be a farm, or
  - C. Any use of land for which the operator attests to filing a Schedule F, or other tax document, as part of a federal income tax return that establishes the economic activity to be a farm, shall be interpreted to be a farm.
  - D. Any building, structure or use that is integral to, or accessory to, a farm use is exempt from the requirements of this ordinance. For example, the residence of the owner or operator of property or an employee of the operation determined to be a farm, if on or adjacent to said farm shall be assumed to be a farm house, which is an accessory to the farm operation, and is therefore exempt from the requirements of this ordinance.
4. **Owner's Right to Restrict Land Uses.** Notwithstanding the right to exemption from the provisions of these regulations for any farm or farm related operations, it is expressly understood that real property owners may voluntarily limit or restrict the range of uses (including agricultural uses) on their land for any current or future occupants and tenants.
5. **Transitional Provisions.**
  - A. Nonconformities. Conforming or legal nonconforming uses and structures that were in existence on the effective date of this ordinance that are not legal and

## TITLE AND AUTHORITY, PURPOSE, APPLICABILITY, ETC.

conforming to the provisions of this ordinance shall be allowed to continue as legal nonconforming uses or structures subject to the provisions of Section 4.02.

- B. Existing variances and conditional uses.
  - (1) Any existing variance or conditional use that could be lawfully approved under the provisions of this ordinance shall continue as a lawful variance or conditional use.
  - (2) Any existing variance or conditional use that could not be lawfully approved under the provisions of this ordinance may continue as a legal nonconforming use subject to the provisions of subsection 4.02-5.
  - (3) Any conforming use prior to the adoption of this ordinance that is listed as a conditional use in this ordinance shall be considered as an approved conditional use upon adoption of this ordinance.
- C. Pending permits and applications.
  - (1) A building permit issued prior to the effective date of this ordinance or any amendment to this ordinance shall be valid, provided that construction has commenced within 90 days and diligently pursued to completion.
  - (2) An application made at least 30 days prior to and that is pending on the effective date of this ordinance or any amendment to this ordinance may be subject to the provisions of this ordinance or preceding regulations at the option of the applicant.
  - (3) An application made less than 30 days prior to the effective date of this ordinance or any amendment shall be subject to the new provisions.

### **Section 1.04: Interpretation**

1. In interpreting and applying the provisions of this ordinance, said provisions shall be held to be the minimum requirements for the promotion of the public health, safety, convenience, order, comfort, prosperity, or general welfare.
2. It is not the intent of this ordinance to interfere with, or abrogate or annul any easements, covenants or other agreements between parties, provided, however, that if this ordinance imposes a higher standard than imposed or required by other resolutions, ordinances, rules, ordinances, or by easements, covenants, or agreements, the provisions of this ordinance shall govern.

### **Section 1.05: Enforcement.**

1. General. The Planning and Zoning Department shall be responsible for the enforcement of the provisions of this ordinance.
2. Enforcement actions. Any violation of the provisions of this ordinance may result in enforcement actions including infraction citations, civil action, and/or misdemeanor charges.
3. Nuisance abatement. Any use of property in violation of the provisions of this ordinance may be determined to be a public nuisance that may be abated pursuant to the County's nuisance abatement procedures.

## TITLE AND AUTHORITY, PURPOSE, APPLICABILITY, ETC.

### **Section 1.06: Severability.**

The provisions of this ordinance are separable. If any court finds any provision to be invalid either totally or in a specific application, such judgment does not affect the validity of the other provisions of this ordinance or the application of any provision of this ordinance to other properties or uses.

### **Section 1.07: Effective Date.**

The term “effective date” when used in this ordinance shall be the date of publication of notice of adoption by the Board of Supervisors.

## ARTICLE 2: ADMINISTRATION

### **Section 2.01: Administrative Officials and Bodies**

1. **Planning and Zoning Department.** Within the Planning and Zoning Department, the Planning and Zoning Director (also called the Zoning Director throughout this ordinance) or his/her designee shall be the administrative official with primary responsibility for carrying out the provisions of this ordinance. The roles of the Zoning Director include:
  - A. Administration and enforcement of the development regulations, including this ordinance, including:
    - (1) Interpretation of the provisions of this ordinance;
    - (2) Coordination of the review processes for development-related applications by the Planning and Zoning Commission, the Board of Adjustment, and the Board of Supervisors as provided in this ordinance;
    - (3) Administrative review processes (i.e., zoning certificates, sign permits, site plan approvals, etc.) as provided in this ordinance;
    - (4) Enforcement of the requirements of this ordinance as provided in Section 1.05 of this ordinance;
    - (5) Maintenance of public records related to administration and enforcement of this ordinance.
  - B. Serve as Secretary to the Planning and Zoning Commission and the Board of Adjustment, including:
    - (1) Provide staff reports on issues and applications that come before the Commission and the Board of Adjustment; and
    - (2) Maintain records of the deliberations and decisions of the Commission and the Board of Adjustment.
  - C. Provide staff services for the development and maintenance of the County's general planning processes.
2. **Other County Officials and Departments.** Every department and employee of the County shall cooperate in the administration and enforcement of this ordinance.
3. **Board of Supervisors.** As an exercise of the powers and duties conferred upon the Board of Supervisors by the Iowa Code, they shall:
  - A. Establish policies for physical development of Woodbury County, including the General Development Plan;
  - B. Adopt legislation, including this ordinance and any amendments thereto related to effective management of the physical development of Woodbury County;
  - C. Appoint the members of the Planning and Zoning Commission and the Board of Adjustment; and
  - D. Appropriate funds, establish fees and levy taxes to provide for the costs of administering the provisions of this ordinance.

**4. Planning and Zoning Commission.**

- A. Establishment. Pursuant to Chapter 335 of the Code of Iowa, a County Zoning Commission, consisting of five members, as previously established, is hereby continued.
- B. Appointment and membership
  - (1) The members of the Zoning Commission shall be appointed by the Board of Supervisors for terms of five years. Terms of Commissioners shall be staggered so that no more than two memberships expire on December 31 of any year. Vacancies shall be filled in the same manner for the remainder of an expired term.
  - (2) Members of the Zoning Commission shall consist of eligible electors, as defined by Iowa Code section 39.3, who reside within the area regulated by the County Zoning Ordinance and shall not be officers or employees of any agency or department of the County. Iowa law requires all appointive boards, commissions, committees, and councils of a political subdivision to be gender balanced by using a fair and unbiased method of selecting the best qualified applicants. The Board of Supervisors may appoint any qualified applicant, regardless of gender, after making a three-month good faith effort to appoint a gender balanced Commission.
  - (3) Members of the Zoning Commission shall serve without compensation but may be reimbursed for the actual expenses incurred while performing their official duties, which shall be subject to the approval of the Board of Supervisors.
  - (4) Any member of the Zoning Commission may be removed for cause by the Board of Supervisors following a public hearing on written charges. Cause for removal may be found by the Board of Supervisors in any action or condition which it determines to be detrimental to the proper functioning of the Commission, including conflicts of interest, violations of laws or regulations pertaining to the role of the Commission, failing to carry out the duties of a member of the Commission, including failure to attend 50% or more regular meetings in any twelve month period, or other conduct which casts doubt upon the integrity or effectiveness of the member.
- C. Rules of Procedure. The Commission shall organize itself and shall adopt and maintain, subject to the approval of the Board of Supervisors, Rules of Procedure in conformance with the provisions of this ordinance and the Iowa Code to govern the conduct of its business.
- D. Powers and Duties. The Zoning Commission shall have the following powers and it shall be its duty:
  - (1) To recommend the boundaries of the various districts and appropriate regulations and restrictions to be enforced in the districts within the area regulated by the County Zoning Ordinance;
  - (2) To, with due diligence, prepare a preliminary report and hold public hearings on the preliminary report before submitting the Commission's final report to the Board of Supervisors as provided in the County Zoning Ordinance and Subdivision Regulations;
  - (3) To recommend to the Board of Supervisors amendments, supplements, changes or modifications to the text or Zoning District Map of the County Zoning Ordinance. The Commission's report and any recommendations may include a proposed ordinance or amendments to an ordinance;
  - (4) To recommend to the Board of Supervisors, the adoption of a comprehensive plan pursuant to Iowa Code Section 335.5, or amendments thereto;

- (5) To contract with professional consultants, regional planning commissions, the economic development authority, or the federal government, for local planning assistance, with the approval of the Board of Supervisors.

**5. Board of Adjustment.**

- A. Establishment. Pursuant to Chapter 335 of the Code of Iowa, a County Board of Adjustment, consisting of five members, as previously established, is hereby continued.
- B. Appointment and membership.
  - (1) The members of the Board of Adjustment shall be appointed by the Board of Supervisors for terms of five years. Terms of the Board shall be staggered so that no more than two memberships expire on December 31 of any year. Vacancies shall be filled in the same manner for the remainder of an unexpired term.
  - (2) Members of the Board of Adjustment shall consist of eligible electors, as defined by Iowa Code section 39.3, who reside within the area regulated by the County Zoning Ordinance and shall not be officers or employees of any agency or department of the County. Iowa law requires all appointive boards, commissions, committees, and councils of a political subdivision to be gender balanced by using a fair and unbiased method of selecting the best qualified applicants. The Board of Supervisors may appoint any qualified applicant, regardless of gender, after making a three-month good faith effort to appoint a gender balanced Board.
  - (3) Members of the Board of Adjustment shall serve without compensation but may be reimbursed for the actual expenses incurred while performing their official duties, which shall be subject to the approval of the Board of Supervisors.
  - (4) Any member of the Board of Adjustment may be removed for cause by the Board of Supervisors following a public hearing on written charges. Cause for removal may be found by the Board of Supervisors in any action or condition which it determines to be detrimental to the proper functioning of the Board, including conflicts of interest, violations of laws or regulations pertaining to the role of the Board, failing to carry out the duties of a member of the Board, including failure to attend 50% or more regular meetings in any twelve-month period, or other conduct which casts doubt upon the integrity or effectiveness of the member.
- C. Rules of Procedure. The Board of Adjustment shall organize itself and shall adopt and maintain, subject to the approval of the Board of Supervisors, rules of procedure in conformance with the provisions of this ordinance and the Iowa Code to govern the conduct of its business.
- D. Powers and Duties. The Board of Adjustment shall have the following powers and it shall be its duty:
  - (1) To hear and decide appeals where it is alleged there is an error in any order, requirement, decision, or determination made by an administrative official in the enforcement of Iowa Code Chapter 335, or of any ordinance adopted pursuant thereto.
  - (2) To hear and decide special exceptions to the terms of the ordinance upon which such Board is required to pass under such ordinance.
  - (3) To authorize upon appeal, in specific cases, such variance from the terms of the ordinance as will not be contrary to the public interest, where owing to special conditions a literal enforcement of the provisions of the ordinance will result in unnecessary hardship, and so that the spirit of the ordinance shall be observed, and substantial justice done.

**Section 2.02: Administrative Procedures.**

**1. General Requirements.**

- A. Open Meetings. The Board of Supervisors, the Board of Adjustment and the Planning and Zoning Commission of Woodbury County shall comply with the provisions of the Iowa Open Meetings laws in the conduct of their business.
- B. Public Hearings. Public hearings shall be conducted at a reasonable time and place by the authority charged with responsibility for approving or denying or making a recommendation on any requested proposal for an amendment, appeal, variance, conditional use, or exception under this ordinance. The purpose of public hearings is to assure that recommendations and decisions on public issues are based on the best information possible and that such decisions are made in open public forums.
  - (1) Public notification. In addition to Iowa Code Chapter 21 requirements for notice to news media and posting notice of public meetings at least 24 hours prior to a public meeting, notice to the public and due notice to parties in interest of the date, time and location of a public hearing on a zoning issue shall be given not less than four nor more than twenty days prior to the date of the hearing in the manner described herein.
    - (a) For a Planning and Zoning Commission hearing on amending the text of this ordinance, notice shall be published in a newspaper of general circulation.
    - (b) For a Planning and Zoning Commission hearing on a proposed amendment of the zoning district map, notice shall be mailed to the owners of all real property lying within 1,000 feet of the subject property. This mailed notice shall not be required in the case of adoption of a countywide zoning district map, in which case, notice shall be published in a newspaper of general circulation including publication of a copy of the proposed zoning map.
    - (c) For a Board of Supervisors hearing on amendments to either the zoning district map or the text of this ordinance, notice shall be by publication in a newspaper of general circulation.
    - (d) For a Board of Adjustment hearing on an appeal or variance, notice shall also be mailed to all owners of real property located adjacent to the subject property.
    - (e) For a Board of Adjustment hearing on a conditional use or special exception, notice shall be mailed to all owners of real property located within 500 feet of the subject property, except that in the case of a conditional use to allow an airport or a sanitary landfill, or construction of a telecommunication tower as provided in subsection 5.06-3, notices shall be mailed to all owners of real property located within one mile of the subject property.
    - (f) A certified abstractor's listing of the owners needed for the described public notifications shall be provided by the applicant of the requested action.
    - (g) It is the intent of the county to provide notice of public hearings in the manner prescribed herein; however, an unintentional failure to provide notice due to incorrect addresses or failure of mail delivery or other human error shall not be grounds for upsetting any action taken.

- (2) Conduct of public hearings. Within the following guidelines, the administrative official or body charged with either deciding an issue or making a recommendation thereon shall establish rules of procedure for conduct of public hearings.
  - (a) At a public hearing, any person may appear and testify or provide evidence in support or opposition to the subject of the hearing. To assure opportunity for all interested parties to testify, the chairperson of the hearing body may set time limits for individual speakers and may limit non-germane or repetitious testimony.
  - (b) The applicant may appear in person or by agent or attorney and present written or oral evidence in support of the request.
  - (c) Additional information as reasonably deemed necessary, including technical assistance and/or evaluation of an expert or another agency with expertise may be requested. Such information shall be included in the record of the public hearing.
  - (d) The applicant, as well as any supporters and opponents of the issue, shall have an opportunity to state their positions on the issue and the applicant shall have an opportunity to rebut other's testimony.
  - (e) The administrative official or body may adjourn the hearing to a later date and time as necessary to allow a more complete hearing of the facts of the issue.
- (3) Decisions.
  - (a) Role of Planning and Zoning Commission and Board of Supervisors. In order to enhance and protect the public interest and general welfare, the Planning and Zoning Commission may recommend and the Board of Supervisors or the Board of Adjustment may approve, approve subject to conditions, or deny any requests brought before them pursuant to their powers and responsibilities outlined in these regulations.
  - (b) Timeliness. The administrative official or body charged with the responsibility for either deciding an issue or making a recommendation thereon shall do so within a reasonable time. The decision or recommendation must be in writing, setting forth findings of fact and reasons for the decision. The decision or recommendation will be reported to the applicant and to any other official or body charged with a subsequent role in the issue as soon as practical. The concurring vote of at least three members of the Board of Adjustment shall be necessary to approve any item before it. The concurring vote of at least three members of the Planning and Zoning Commission shall be necessary to approve any recommendation before it.
- (4) Ex parte communications. Any member of either the Board of Supervisors, the Board of Adjustment or the Zoning Commission charged with the responsibility for deciding an issue or making a recommendation shall rely only on information presented for public record consisting of the application and supporting materials, staff reports, and testimony presented at the public hearing. Any contact with interested parties or their agents outside the hearing process regarding any matter before the administrative official or body shall be fully noted on the record including the content of such contact or communication.
- (5) Successive applications

- (a) New application barred. If any application, appeal or other request pursuant to this ordinance has been denied, no new application for similar action may be initiated within one year
- (b) Exception. If the administrative official or body which originally decided the issue determines that either conditions have changed; new or additional information is available; or a mistake of law or fact was made, a new application may be considered.
- (c) Process.
  - (i) A request within one year for consideration of a new application for an action that has been denied shall be forwarded immediately to the official or body that denied the application.
  - (ii) The official or body shall review the request for reconsideration and determine whether the application, appeal or other request may be placed on a subsequent agenda for consideration by the same procedure outlined herein. No public notification or hearing on the request for reconsideration shall be required, but if it is determined the matter may be considered again, the public notifications and hearing requirements for the application, appeal or other request shall be fulfilled.
  - (iii) If the official or body finds that one of the determinations required in subsection (b) above can be made, the petitioner may proceed with the application, appeal or request without regard to the time limit prohibition set forth in this subsection.

**2. Building permit requirement.** No excavation, erection, construction, reconstruction, enlargement, alteration or moving of any building or structure may be undertaken until a building permit has been issued by the Zoning Director. (Note: Farm structures are exempt from zoning regulations and from any fees associated with building permits but require building permits.)

A. Exceptions:

- (1) No building permit is required for a residential accessory storage building less than 120 square feet in area.
- (2) No building permit is required for a temporary structure designed and used in a manner that includes moving on skids or wheels from one location to another.

Note: These exempted structures are not exempt from the dimensional standards (e.g. setback requirements) of these regulations.

B. Building permit application. An application for a building permit shall include the following:

- (1) Structure plans. Architectural and/or engineering plans and specifications prepared pursuant to the acceptable professional standards.
- (2) Site plans. An application for a building permit involving a new or expanded building or for a sign permit shall be accompanied by a site plan that contains the following elements:
  - (a) North arrow and scale.
  - (b) Dimensions of the site.

- (c) Location and size of existing and proposed structures.
  - (d) Location and layout of vehicle parking, loading and queuing areas, street accesses, and driveways.
  - (e) Location, size and description of any existing or proposed signs as required by Section 5.02.
  - (f) Grading plans if required by the County's grading regulations.
  - (g) Flood hazard area designations as required by Section 5.03.
  - (h) Such other information as the Zoning Director may require to determine compliance with the provisions of this ordinance.
- (3) Fee. A permit fee, as established by resolution of the Board of Supervisors to defray administrative costs, shall accompany the building permit application.
- C. Building permit approval.
- (1) Review. The Zoning Director shall submit building permit applications for review, comment and recommendation by appropriate departments and agencies.
  - (2) Approval. Approval of a building permit by the Zoning Director shall be based upon findings that the proposed use of the site and the proposed location and dimensions of the structure on a subject parcel of real property comply with the zoning provisions of this ordinance.
  - (3) Denial. If a building permit application is denied, the application shall be returned to the applicant with a written explanation of the reasons for the denial.
- D. Validity. Any building permit that is subsequently found to have been issued in conflict with the provisions of this ordinance shall be void.
- E. Expiration. A certificate of zoning compliance shall expire and become void if the construction or change in use of the property has not commenced within 180 days or is not completed within one year after issuance. If necessary, additional one-year renewals may be issued.

### 3. Zoning Ordinance Text Amendment

It is anticipated that changes in the text of this title may be found to be in the public interest. The procedure for amendment of the text of this title shall be as follows:

- A. Initiation. Amendments to the text of this title may be initiated by the Board of Supervisors or the planning and zoning commission.
- B. Planning and Zoning Commission review. The planning and zoning commission shall conduct a public hearing on the proposed amendment of the text of this title in the manner prescribed in subsection 2.02-1.B and shall review the amendment and any supporting information prior to considering a recommendation to either approve or disapprove the proposed amendment.
- C. Board of Supervisors hearing. Upon receipt of the recommendation of the planning and zoning commission along with any supporting information, the Board of Supervisors shall conduct a public hearing on the proposed amendment of the text of this title in the manner prescribed in subsection 2.02-1.B.
- D. Adoption. Following the public hearing, the Board of Supervisors may:
  - (1) Defer consideration of the matter for further study; or

- (2) Reject the proposed amendment; or
- (3) Adopt the ordinance amending the text of this title.

**4. Zoning Ordinance Map Amendment.**

- A. Authority. The Board of Supervisors shall amend the zoning district map (except the flood hazard overlay zones) pursuant to the procedures set out in this subsection and Section 335 of the Iowa Code.
- B. Purpose. An amendment to the zoning ordinance map is intended to reflect changing use and development patterns in the county and to move the zoning map into compliance with the adopted long range comprehensive plan.
- C. Filing.
  - (1) Right of amendment. A request to amend the zoning ordinance map may be filed by the Board of Supervisors, the planning and zoning commission or any person with an ownership or contractual interest in the particular real estate.
  - (2) Form of application. An application to amend the official zoning map shall be submitted to the zoning director and shall include at least the following information:
    - (a) The name and address of the property owner and the applicant;
    - (b) The address, if any, and legal description of the property;
    - (c) A statement of the current and the requested zoning district classification of the property;
    - (d) A map, drawn to scale, showing the subject property and sufficient area surrounding the property with information regarding zoning, land uses, streets, etc. to illustrate the relationship of the property to its environs;
    - (e) For planned development zoning districts, either a preliminary or final development plan as described in subsection 2.02-5.E. below;
    - (f) A statement of the Corn Suitability Rating (CSR) of the property as established by the Natural Resource Conservation Service (NRCS), and
    - (g) A statement of explanation and justification for the requested change in zoning district classification.
  - (3) Fee. A filing fee, as established by resolution of the Board of Supervisors to defray administrative costs, shall accompany the application of a property owner to amend the zoning district map.
  - (4) A certified abstractor's listing of the names and mailing addresses of all owners of real property lying within 1,000 feet from the subject property.
- D. Review and decision-making process.
  - (1) Evaluation criteria. The Planning and Zoning Commission shall base their recommendations and the Board of Supervisors shall base their decision on any requested amendment of the zoning district map on the following criteria:
    - (a) Conformance with the goals and objectives set forth in the approved General Development Plan for Woodbury County including the Future Land Use Map;

- (b) Compatibility and conformance with the policies and plans of other agencies with respect to the subject property;
  - (c) Consideration of the Corn Suitability Rating (CSR) of the property;
  - (d) Compatibility with adjacent land uses;
  - (e) Compatibility with other physical and economic factors affecting or affected by the proposed rezoning; and
  - (f) Any other relevant factors.
- (2) Planning and zoning commission recommendation. The planning and zoning commission shall review and make a recommendation on any proposed amendment to the zoning district map as follows:
- (a) Hearing required. The planning and zoning commission shall conduct a public hearing on the proposed zoning district map amendment in accordance with subsection 2.02-1. B.
  - (b) Notification. Public notification of the planning and zoning commission hearing on the proposed amendment of the official zoning map shall be as required by subsection 2.02-1. B(1). Such notices shall provide information on the time, date and location of the hearing and a brief description of the proposed change in zoning district classification.
  - (c) Time limit for recommendation. A recommendation to the Board of Supervisors for approval, approval with conditions or disapproval on the proposal, shall be made within 35 days of the conclusion of the public hearing unless the petitioner consents to an extension of time. If no recommendation is made within 35 days from the conclusion of the public hearing, the issue will be forwarded to the Board of Supervisors with no recommendation.
- (3) Board of Supervisors action. Following receipt of the recommendation of the planning and zoning commission, the Board of Supervisors shall consider and act upon a proposed amendment to the zoning district map as follows:
- (a) Hearing required. The Board of Supervisors shall conduct a public hearing on the proposed zoning district map amendment in accordance with the procedure outlined at subsection 2.02-1. B.
  - (b) Notification. Public notification of the Board of Supervisors hearing on the proposal shall be as required by subsection 2.02-1. B(1).
  - (c) Decision. Following the public hearing, the Board of Supervisors may:
    - (i) Defer consideration of the proposal; or
    - (ii) Reject the proposal; or
    - (iii) Proceed subject to subsections (iv) and (v) below, to adopt an ordinance approving the amendment to the zoning district map.
    - (iv) Super majority required. A 60 percent majority of the Board of Supervisors shall be required to adopt the proposed amendment of the zoning district map if the owners of more than 20 percent of either,
      - (a) the area of the subject property or
      - (b) the area of real property ly-

ing within 500 feet of the subject property file a written objection prior to the conclusion of the public hearing,

- (v) The Board of Supervisors may impose restrictive conditions upon the approval of an amendment to the zoning district map if, before the conclusion of the public hearing, the owner agrees to the conditions in writing.

**5. Planned Development**

- A. Authority. The Board of Supervisors may amend the zoning district map to provide for a –PD Planned Development Overlay Zone pursuant to the procedures set out in this subsection and Chapter 335 of the Iowa Code.
- B. Purpose. As set forth in subsection 3.01-9. A, the purpose of the –PD Planned Development Overlay Zone is to allow greater flexibility and encourage more creative, innovative development with specific design features not otherwise required or allowed by the provisions of other zoning district regulations. As the title describes, the –PD overlay zone is not intended to be a free-standing zoning district; it is to be applied as an overlay to one of the other zoning districts.
- C. Development Plan Required: Any development in a –PD Planned Development Overlay Zone requires approval of a final development plan pursuant to the procedures set forth in this Section. At the option of the developer, a preliminary development plan may be provided for review and approval as part of an incremental process leading to approval of a final development plan. If a preliminary development plan is reviewed and approved in conjunction with the request to establish a –PD Planned Development Overlay Zone, a final development plan must be submitted, reviewed and approved by the same procedure provided in subsections 2.02-5. D, E and F below.
- D. Filing.  
A request to amend the zoning ordinance map to create a –PD Planned Development Overlay Zone may be filed by any person with an ownership or contractual interest in the particular real estate. Such a request may be filed independently or in conjunction with a request to amend the underlying base zoning district designation. The request must include the following:
  - (1) An application to amend the official zoning map to establish a –PD Planned Development Overlay Zone including at least the following information:
    - (a) The name and address of the property owner and the applicant;
    - (b) The address, if any, and legal description of the property;
    - (c) A statement of the current and the requested zoning district classification of the property;
    - (d) A statement of explanation and justification for the requested change in zoning district classification.
  - (2) A preliminary or final development plan as described in subsection 2.02-5. E below. Either a preliminary or final development plan must be approved as part of approval of a –PD Planned Development Overlay Zone. A preliminary development plan is recommended if the developer wishes to minimize costs in the initial stages of project approval or if the project has multiple phases.

- (3) Fee. A filing fee, as established by resolution of the Board of Supervisors to defray administrative costs, shall accompany the application of a property owner to amend the zoning district map.
- (4) A certified abstractor's listing of the names and mailing addresses of all owners of real property lying within 1,000 feet from the subject property.

E. Development Plan Requirements.

- (1) Preliminary development plan. A preliminary development plan submittal shall include:
  - (a) A vicinity map, drawn to scale, showing the subject property and sufficient area surrounding the property with information regarding zoning, land uses, streets, etc. to illustrate the relationship of the property to its environs;
  - (b) A dimensioned, scale drawing of the site plan at an appropriate scale showing the location of proposed structures (including signs), open space, parking and loading areas with access drives and queuing areas, service areas for utilities and waste disposal, and minimum setbacks. Construction site envelopes with minimum setbacks and separations may be indicated to allow flexibility in locating structures on the site.
  - (c) Land uses to be allowed on the site should be identified either by a listing or reference to allowed uses in the underlying zoning district.
  - (d) Tabulations of dwelling units, parking spaces and land coverage by structures, open space and paved surfaces in square feet and percentage of total site area.
  - (e) A preliminary grading plan showing existing and proposed topography.
  - (f) Existing and proposed utility services.
  - (g) A preliminary storm water management plan showing retention/detention areas, storm sewers and drainage ways. Any flood hazard areas on the site should be identified.
  - (h) A preliminary landscaping plan illustrating screening and buffering intended to minimize conflicts with nearby properties and uses.
  - (i) Proposed phasing of the project.
  - (j) Any other information necessary to describe the intended development plan.
- (2) Final development plan. A final development plan submittal shall include:
  - (a) A vicinity map, drawn to scale, showing the subject property and sufficient area surrounding the property with information regarding zoning, land uses, streets, etc. to illustrate the relationship of the property to its environs;
  - (b) A dimensioned drawing of the site plan at a scale of 1" = 100' showing the location of proposed principal and accessory structures (including signs), open space, parking and loading areas with access drives and queuing areas, service areas for utilities and waste disposal, and minimum setbacks. Construction site envelopes with minimum setbacks and separations may be indicated to allow flexibility in locating structures on the site.

- (c) Land uses to be allowed on the site should be identified either by a listing or reference to allowed uses in the underlying zoning district.
- (d) Tabulations of dwelling units, parking spaces and land coverage by structures, open space and paved surfaces in square feet and percentage of total site area.
- (e) A grading plan with 2-foot contours showing existing and proposed topography.
- (f) Existing and proposed utility services including size and locations.
- (g) A storm water management plan showing retention/detention areas, storm sewers and drainage ways. A drainage report certified by a professional engineer is required to verify the size of retention or detention facilities and outflows from the site. Any flood hazard areas on the site should be identified.
- (h) A landscaping plan illustrating screening and buffering intended to minimize conflicts with nearby properties and uses. Species, numbers and initial sizes of plant materials should be indicated.
- (i) Any other information necessary to describe the intended development plan.

F. Review and decision-making process.

- (1) Planning and zoning commission recommendation. The planning and zoning commission shall review and make a recommendation on any proposed establishment of a –PD Planned Development Overlay Zone and development plan as follows:
  - (a) Hearing required. The planning and zoning commission shall conduct a public hearing on the proposed establishment of a –PD Planned Development Overlay Zone and development plan in accordance with subsection 2.02-1. B.
  - (b) Notification. Public notification of the planning and zoning commission hearing on the establishment of a –PD Planned Development Overlay Zone and development plan shall be as required by subsection 2.02-1. B(1). Such notices shall provide information on the time, date and location of the hearing and a brief description of the –PD Planned Development Overlay Zone and development plan.
  - (c) Time limit for recommendation. A recommendation to the Board of Supervisors for approval, approval with conditions or disapproval on the proposal, shall be made within 35 days of the conclusion of the public hearing unless the petitioner consents to an extension of time. If no recommendation is made within 35 days from the conclusion of the public hearing, the issue will be forwarded to the Board of Supervisors with no recommendation
- (2) Board of Supervisors action. Following receipt of the recommendation of the planning and zoning commission, the Board of Supervisors shall consider and act upon a proposed amendment to the zoning district map as follows:
  - (a) Hearing required. The Board of Supervisors shall conduct a public hearing on the establishment of a –PD Planned Development Overlay Zone and

development plan in accordance with the procedure outlined at subsection 2.02-1. B.

- (b) Notification. Public notification of the Board of Supervisors hearing on the proposal shall be as required by subsection 2.02-1. B (1).
- (3) Decision. Following the public hearing, the Board of Supervisors may:
  - (a) Defer consideration of the proposal; or
  - (b) Reject the proposal; or
  - (c) Proceed subject to subsections (d) and (e) below, to adopt an ordinance approving the amendment to the zoning district map.
  - (d) Super majority required. A 60 percent majority of the Board of Supervisors shall be required to adopt the proposed amendment of the zoning district map if the owners of more than 20 percent of either, (i) the area of the subject property or (ii) the area of real property lying within 500 feet of the subject property file a written objection prior to the conclusion of the public hearing,
  - (e) The Board of Supervisors may impose restrictive conditions upon the approval of establishment of a –PD Planned Development Overlay Zone and development plan if, before the conclusion of the public hearing, the owner agrees to the conditions in writing.

**6. Conservation Development**

- A. Authority. The Board of Supervisors shall amend the zoning district map to provide for a CD, Conservation Development Overlay Zone pursuant to the procedures set out in this subsection and Section 335 of the Iowa Code.
- B. Purpose. As set forth in subsection 3.01-10. A, the purpose of the CD, Conservation Development Overlay Zone is to allow a transfer of development rights for residential units between portions of a contiguous development site. As the title describes, the CD overlay zone is not intended to be a free-standing zoning district; it is to be applied as an overlay to the AP, AE, NR and SR zoning districts.
- C. Procedure.
  - (1) Rezoning. The procedure for amending the zoning ordinance map to create a CD, Conservation Development Overlay Zone is the same as rezoning to one of the base zones as described in subsection 2.02-4 above.
  - (2) Coordination with subdivision. A rezoning to a CD overlay zone may be carried out concurrently with the review and approval process for a preliminary plat pursuant to the requirements of the County subdivision regulations. The transfer of development rights permitted within a development permitted in a CD, Conservation Development Overlay Zone will be accomplished as part of the subdivision platting process.

**7. Appeals.**

- A. Authority. The Board of Adjustment shall hear and decide appeals pursuant to subsection 2.01-5. D subject to the procedures, standards and conditions set out in this subsection.

- B. Purpose. An appeal is intended to provide an aggrieved party a process where it is alleged there is an error in any order, requirement, decision, interpretation or determination made by the zoning director.
- C. Filing.
  - (1) Right of appeal. An appeal may be filed by any person aggrieved by, or by any officer, department or Board of Adjustment of the county affected by, a decision or interpretation of the zoning director.
  - (2) Form of appeal. An appeal to the Board of Adjustment must be filed within thirty days of the action being appealed. The application shall be in a form and contain sufficient information as required to set out the alleged error and the grounds for the appeal. If a variance is concurrently sought, the appeal must so state.
  - (3) Fee. A filing fee, as established by resolution of the Board of Supervisors to defray administrative costs, shall accompany the notice of appeal.
  - (4) A certified abstractor's listing of the names and mailing addresses of all owners of real property lying adjacent to the subject property if the appeal is related to a specific property.
- D. Stay of Proceedings. An appeal shall have the effect of a temporary suspension of enforcement of the provisions of these regulations that are the subject of the appeal until the conclusion of the appeal process, unless the zoning director certifies that the suspension may cause imminent peril to life or property.
- E. Review and decision-making process.
  - (1) Hearing required. The Board of Adjustment shall conduct a public hearing, in accordance with subsection 2.02-1. B.
  - (2) Notification. Public notification of the Board of Adjustment hearing on the appeal shall be as required by subsection 2.02-1. B(1). Such notices shall provide information on the time, date and location of the hearing and a brief description of the appeal being sought.
  - (3) Decision. Within 30 days after the public hearing the Board of Adjustment shall approve, approve with conditions or deny the appeal. The Board of Adjustment shall set forth findings of fact upon which their action is based.
- F. Appeal of the actions of the Board of Adjustment. Any aggrieved party may appeal a decision of the Board of Adjustment within 30 days as provided by the Iowa Code. Such an appeal suspends the effect of the action of the Board of Adjustment until the appeal has been resolved. Any construction or costs incurred during the period subject to appeal is at the risk of the applicant.

**8. Variances**

- A. Authority. The Board of Adjustment shall hear and decide on requests for a variance pursuant to subsection 2.01-5. D subject to the procedures, standards and conditions set out in this subsection and Section 335 of the Iowa Code.
- B. Purpose. A variance is intended to provide necessary relief from the requirements of the zoning provisions of this title that would create unnecessary hardships or practical difficulties.
- C. Filing.

- (1) Right to seek variance. A request for a zoning variance may be filed by any person aggrieved by a provision of the zoning ordinance that limits their intended use of property.
  - (2) Form of application. An application for a variance shall be submitted to the zoning director and shall include at least the following information:
    - (a) The name and address of the property owner and the applicant;
    - (b) The address, if any, and the legal description of the property;
    - (c) The current zoning district classification;
    - (d) A specific description of the proposed variance including the section of this title from which a variance is requested;
    - (e) A map, drawn to scale, showing the subject property, all structures and other improvements, with the proposed variance identified;
    - (f) Statements in response to the criteria and standards for approval of variances in subsection 2.02-8. F (1) below.
  - (3) Fee. A filing fee, as established by resolution of the Board of Supervisors to defray administrative costs, shall accompany the notice of appeal.
  - (4) A certified abstractor's listing of the names and mailing addresses of all owners of real property lying adjacent to the subject property.
- D. Stay of Proceedings. A request for a variance appeal shall have the effect of a temporary suspension of enforcement of the provisions of these regulations that are the subject of the variance request until the conclusion of the variance process, unless the zoning director certifies that the suspension may cause imminent peril to life or property.
- E. Review and decision-making process.
- (1) Hearing required. The Board of Adjustment shall conduct a public hearing on the variance request in accordance with subsection 2.02-1. B.
  - (2) Notification. Public notification of the Board of Adjustment hearing on the variance request shall be as required by subsection 2.02-1. B(1). Such notices shall provide information on the time, date and location of the hearing and a brief description of the requested variance.
  - (3) Decision. Within 10 days after the public hearing the Board of Adjustment shall approve, approve with conditions or limitations, or deny the requested variance. The Board of Adjustment shall set forth findings of fact addressing the points enumerated in subsection 2.02-8. F(1) below as a basis for its action.
- F. Requirements for variances:
- (1) In order to grant a variance, the Board of Adjustment must determine that:
    - (a) Granting the variance will not be contrary to the public interest or the general intent and purpose of this title in that it:
      - (i) Adversely impacts nearby properties;
      - (ii) Substantially increases congestion of people, buildings or traffic;
      - (iii) Endangers public health or safety;

- (iv) Overburdens public facilities or services; or
  - (v) Impairs the enjoyment, use or value of nearby property.
- (b) Granting the variance is necessary to assure that the owner does not suffer an economic hardship. (Note: Increased financial return or reduced costs to the applicant are not adequate cause for a finding of hardship.) A finding of economic hardship must be based on each of the following:
- (i) The property cannot yield a reasonable return if used in compliance with the requirements of this title;
  - (ii) The property has unique physical constraints that result in its inability to be used in compliance with the requirements of this title; and
  - (iii) The hardship is not a result of actions by the owner.
- (2) No variance shall be granted which would permit the establishment of a use within a given district which is prohibited therein;
- (3) No variance shall be granted which is so commonly recurring that it is a de facto amendment of this ordinance; and
- (4) No variance shall be granted that is more than the minimum relief needed.
- (5) No variance shall be granted to the provisions of Section 5.03 relative to flood plain management requirements unless the Board of Adjustment considers the factors listed in subsection 5.03-9.C (4).
- G. Conditional approval of variances. The Board of Adjustment may, as a condition related to approval of a variance, impose restrictions and safeguards upon the property and the variance granted if it determines the restrictions to be necessary to minimize adverse effects on other property or the public interest. Such conditions shall be set forth in the resolution of the Board of Adjustment granting the variance. Failure to comply with any conditions imposed on a variance approval is a violation of this title.
- H. Appeal of the actions of the Board of Adjustment. Any interested party may appeal a variance decision of the Board of Adjustment in two ways.
- (1) If the Board of Adjustment approves a variance, the Board of Supervisors pursuant to Section 335.10 of the Iowa Code may remand the matter to the Board of Adjustment for further consideration at any time within 30 days.
  - (2) Any aggrieved party may appeal a decision of the Board of Adjustment within 30 days as provided by Section 335.18 of the Iowa Code. Such an appeal suspends the effect of the action of the Board of Adjustment until the appeal has been resolved. Any construction or cost incurred during the period subject to appeal is at the risk of the applicant.

## 9. Conditional Uses

- A. Authority. The Board of Adjustment shall hear and decide upon requests for a conditional use pursuant to subsection 2.01-5.D subject to the procedures, standards and conditions set out in this subsection.
- B. Purpose. Conditional uses are those uses having special or unique characteristics that require a careful review of their location, design, configuration, and impacts to determine the desirability of permitting their establishment on any given site. Conditional uses may or may not be appropriate in a particular location.

C. Filing.

- (1) Right to apply for conditional uses. An application for a conditional use may be filed by the owner of, or any other person with a contractual interest in, the subject property.
- (2) Form of application. An application for a conditional use shall be submitted to the zoning director and shall include at least the following information:
  - (a) The name and address of the property owner and the applicant;
  - (b) The address, if any, and the legal description of the property;
  - (c) The current zoning district classification;
  - (d) A specific description of the proposed conditional use including the section of this title for which a conditional use is authorized;
  - (e) A map, drawn to scale, showing the subject property, all structures and other improvements, with the proposed conditional use identified;
  - (f) Statements in response to the criteria and standards for approval of conditional uses in subsection 2.02-9. F below.
- (3) Fee. A nonrefundable filing fee, as established by resolution of the Board of Supervisors to defray administrative costs, shall accompany the application for a conditional use.
- (4) A certified abstractor's listing of the names and mailing addresses of all owners of real property lying within 500 feet from the subject property, except that in the case of a conditional use to allow construction of an airport, a sanitary landfill, or a telecommunication tower as provided in subsection 5.05-3, the abstractor's list shall be for all owners of real property located within one mile of the subject property.

D. Stay of proceedings. A request for a conditional use shall have the effect of a temporary suspension of enforcement of the provisions of these regulations that are the subject of the conditional use until the conclusion of the conditional use process, unless the zoning director certifies that the suspension may cause imminent peril to life or property.

E. Review and decision-making process.

- (1) Review by the planning and zoning commission. The planning and zoning commission shall review the application for a conditional use and report its findings and recommendations to the Board of Adjustment before their public hearing on the application. In their review, the planning commission shall consider each of the standards and other considerations for review of conditional uses as specified in subsection 2.02-9. F below.
- (2) Action by the Board of Adjustment.
  - (a) Hearing required. After receiving the report of the planning and zoning commission, the Board of Adjustment shall conduct a public hearing on the variance request in accordance with subsection 2.02-1. B.
  - (b) Notification. Public notification of the Board of Adjustment hearing on the conditional use request shall be as required by subsection 2.02-1. B(1).

Such notices shall provide information on the time, date and location of the hearing and a brief description of the requested conditional use.

- (c) Decision. Within 35 days after the public hearing, the Board of Adjustment shall approve, approve with conditions or limitations, or deny the requested conditional use. The Board of Adjustment shall set forth findings of fact addressing the points enumerated in subsection 2.02-9. F below as a basis for its action.

**F. Requirements for conditional uses.**

- (1) Standards. In order to grant a conditional use, the Board of Adjustment must determine that:
  - (a) The conditional use requested is authorized as a conditional use in the zoning district within which the property is located and that any specific conditions or standards described as part of that authorization have been or will be satisfied.
  - (b) The proposed use and development will be in harmony with the general purpose and intent of this ordinance and the goals, objectives and standards of the general plan.
  - (c) The proposed use and development will not have a substantial or undue adverse effect upon adjacent property, the character of the neighborhood, traffic conditions, parking, utility facilities, and other factors affecting the public health, safety and general welfare.
  - (d) The proposed use and development will be located, designed, constructed and operated in such a manner that it will be compatible with the immediate neighborhood and will not interfere with the orderly use, development and improvement of surrounding property.
  - (e) Essential public facilities and services will adequately serve the proposed use or development.
  - (f) The proposed use or development will not result in unnecessary adverse effects upon any significant natural, scenic or historic features of the subject property or adjacent properties.
- (2) Other considerations. In its review of conditional use requests, the Board of Adjustment shall consider whether, and to what extent:
  - (a) The proposed use or development, at the particular location is necessary or desirable to provide a service or facility that is in the public interest or will contribute to the general welfare of the neighborhood or community.
  - (b) All possible efforts, including building and site design, landscaping and screening have been undertaken to minimize any adverse effects of the proposed use or development.

**G. Limitations.**

- (1) The Board of Adjustment may set a time limit for establishment of the use authorized by a conditional use permit as a condition for approval. If the use has not been established within that time, the Board of Adjustment may consider revocation of the conditional use permit.

- (2) If the use or development for which the conditional use permit was granted ceases to exist for a period of ninety days, the certificate of occupancy shall be terminated. The use or development shall not be reinstated unless the Board of Adjustment issues another conditional use permit.
- H. Appeal of the actions of the Board of Adjustment. Any interested party may appeal a decision of the Board of Adjustment as provided by the Code of Iowa. Such an appeal suspends the effect of the action of the Board of Adjustment until the appeal has been resolved.

**ARTICLE 3: ZONING DISTRICTS**

**Section 3.01: Zoning Districts Establishment.** The entire unincorporated area of Woodbury County is classified and divided into zoning districts with purposes, requirements and standards as follows:

**1. AP – Agricultural Preservation Zoning District**

- A. Purpose: The purpose of the AP, Agricultural Preservation District is to encourage the continued role of agriculture as the primary economic sector in the unincorporated areas of Woodbury County, thereby preserving its rural character. Land uses that are compatible with agriculture and farming are allowed. Soil and water conservation practices are encouraged.
- B. Allowed uses. The AP – Agricultural Preservation Zoning District generally allows (a) agricultural uses and (b) limited single-family residential uses, which are described more definitively in the Land Use Summary Table in subsection 3.03-4. Not more than two residences shall be allowed on any quarter-quarter section (nominally 40 acre) tract; if a property owner wishes to subdivide to create more than two parcels on a quarter-quarter section, concurrently with the platting process the zoning designation should be changed from the AP Zoning District to an appropriate classification. On-premise sales of products primarily produced on the farm are permitted.
- C. Dimensional standards. Section 3.04 includes a table of comparative dimensional standards for all zones.
- D. Off-street parking and loading. Off-street parking and loading facility requirements for all principal allowed, conditional and accessory uses in the AP zoning district shall be provided and maintained according to the provisions of Section 5.01.
- E. Supplemental regulations. All pertinent provisions of Article 5, Supplemental Regulations, shall apply to uses and development in AP zoning district.

**2. AE -- Agricultural Estates Zoning District**

- A. Purpose and Intent. The purpose of the AE, Agricultural Estates Zoning District, is to provide for a limited increase in the amount of small acreage development, including a controlled expansion of residential uses in appropriate locations throughout the county, in conformance with the County's General Development Plan, and in a manner that is compatible with agricultural uses. It is intended that development of residences in the AE Zoning District be on platted lots including appropriate limitations on uses as established by the owner/developer as part of the subdivision process.  
  
The AE Zoning District may also be appropriate for existing residential developments that have densities more than two parcels per quarter-quarter section, whether in subdivisions or otherwise created, for which no use restrictions were imposed in order to allow conformity with the dimensional standards of this ordinance.
- B. Allowed Uses. The AE, Agricultural Estates Zoning District, generally allows (a) single-family residential uses, (b) agricultural uses, and (c) related public uses, which are described more definitively in the Land Use Summary Table in subsection 3.03-4. Any limitations on agricultural uses are established by and enforced as restrictive covenants filed of record by an owner/developer.
- C. Dimensional Standards. Section 3.04 includes a table of comparative dimensional standards for all zones.

- D. Off-street parking and loading. Off-street parking and loading facility requirements for all principal allowed, conditional and accessory uses in the AE zoning district shall be provided and maintained according to the provisions of Section 5.01.
- E. Grading, erosion and sedimentation control. All grading activity must be in compliance with the grading and erosion/sediment control regulations of Woodbury County and the Iowa Department of Natural Resources.
- F. Supplemental regulations. All pertinent provisions of Article 5, Supplemental Regulations, shall apply to uses and development in AE zoning district.

**3. NR -- Non-Agricultural Residential Zoning District**

- A. Purpose. The purpose of the NR, Non-Agricultural Residential Zoning District is to provide for orderly development of low-density residential areas in conformance with the County's subdivision regulations. Property shall only be zoned NR in conjunction with approval of a subdivision plat for which the owner/developer restricts the range of uses to the extent that no agricultural uses (including horses and other livestock) are allowed in the NR Zoning District.
- B. Allowed Uses. The NR, Non-Agricultural Residential Zoning District generally allows (a) single-family residential uses; and (b) related public uses, which are described more definitively in the table in subsection 3.03-4. As part of the process of establishment of NR zoning and subdivision of the property, an owner/developer must prohibit agricultural uses by a covenant filed of record.
- C. Dimensional Standards. Section 3.04 includes a table of comparative dimensional standards for all zones.
- D. Off-street parking and loading. Off-street parking and loading facility requirements for all principal allowed, conditional and accessory uses in the NR zoning district shall be provided and maintained according to the provisions of section 5.01.
- E. Grading, erosion and sedimentation control. All grading activity must be in compliance with the grading and erosion/sediment control regulations of Woodbury County and the Iowa Department of Natural Resources.
- F. Supplemental regulations. All pertinent provisions of Article 5, Supplemental Regulations, shall apply to uses and development in NR zoning district.

**4. SR – Suburban Residential Zoning District**

- A. Purpose and Intent. The purpose of the SR, Suburban Residential Zoning District is to provide for orderly development of suburban density residential development in compliance with the County's subdivision regulations. It is intended that development of residences in the SR Zoning District would be on platted in subdivisions for which the developer/owner has restricted the range of uses to the extent that no uses other than appropriate density residential and residential accessory uses are allowed.

The SR Zoning District may also be appropriate for existing residential areas that have densities more intense than two acres per dwelling for which no use restrictions were imposed in order to allow conformity with the dimensional standards of this ordinance.

Densities more intensive than two-acre minimum lot sizes require adequate public or private improvements and services such as water and sanitary sewerage, access roads, etc.

- B. Allowed Uses. The SR, Suburban Residential Zoning District generally allows (a) single-family residential uses, (b) multiple-family residential uses as conditional uses and (c) related public uses, which are described more definitively in the table in subsection 3.03-4.
- C. Dimensional Standards. Section 3.04 includes a table of comparative dimensional standards for all zones.
- D. Off-street parking and loading. Off-street parking and loading facility requirements for all principal allowed, conditional and accessory uses in the SR zoning district shall be provided and maintained according to the provisions of section 5.01.
- E. Grading, erosion and sedimentation control. All grading activity must be in compliance with the grading and erosion/sediment control regulations of Woodbury County and the Iowa Department of Natural Resources.
- F. Supplemental regulations. All pertinent provisions of Article 5, Supplemental Regulations, shall apply to uses and development in SR zoning district.

**5. GC -- General Commercial**

- A. Purpose and Intent. The purpose of the GC, General Commercial Zoning District is to provide for orderly development of limited commercial uses that are compatible with and serve the agricultural sector of rural Woodbury County.
- B. Allowed Uses. The GC, General Commercial Zoning District generally allows (a) limited commercial uses; and (b) related public uses, which are described more definitively in the table in subsection 3.03-4.
- C. Dimensional Standards. Section 3.04 includes a table of comparative dimensional standards for all zones.
- D. Off-street parking and loading. Off-street parking and loading facility requirements for all principal allowed, conditional and accessory uses in the GC zoning district shall be provided and maintained according to the provisions of Section 5.01.
- E. Grading, erosion and sedimentation control. All grading activity must be in compliance with the grading and erosion/sediment control regulations of Woodbury County and the Iowa Department of Natural Resources.
- F. Supplemental regulations. All pertinent provisions of Article 5, Supplemental Regulations, shall apply to uses and development in GC zoning district.

**6. HC -- Highway Commercial Zoning District**

- A. Purpose and Intent. The purpose of the HC, Highway Commercial Zoning District is to provide for orderly development of general commercial uses serving the needs of travelers on the major highways of the county. The district should be located at intersections along the state and federal highways and at interchanges of Interstate 29.
- B. Allowed Uses. The HC, Highway Commercial Zoning District generally allows (a) general commercial uses; and (b) related public uses, which are described more definitively in the Land Use Summary Table in subsection 3.03-4.
- C. Dimensional Standards. Section 3.04 includes a table of comparative dimensional standards for all zones.
- D. Off-street parking and loading. Off-street parking and loading facility requirements for all principal allowed, conditional and accessory uses in the HC zoning district shall be provided and maintained according to the provisions of Section 5.01.

- E. Grading, erosion and sedimentation control. All grading activity must be in compliance with the grading and erosion/sediment control regulations of Woodbury County and the Iowa Department of Natural Resources.
- F. Supplemental regulations. All pertinent provisions of Article 5, Supplemental Regulations, shall apply to uses and development in HC zoning district.

**7. LI Limited Industrial Zoning District**

- A. Purpose and Intent. The purpose of the Limited Industrial Zoning District is to provide for the orderly development of heavy commercial, warehousing and limited industrial uses. Appropriate sites for the LI Zoning District should have excellent infrastructure especially transportation access via highways.
- B. Allowed Uses. The LI Limited Industrial Zoning District generally allow a range of warehousing, wholesale and industrial uses, which are described more definitively in the table in subsection 3.03-4.
- C. Dimensional Standards. Section 3.04 includes a table of comparative dimensional standards for all zones.
- D. Off-street parking and loading. Off-street parking and loading facility requirements for all principal allowed, conditional and accessory uses in the LI zoning district shall be provided and maintained according to the provisions of Section 5.01.
- E. Grading, erosion and sedimentation control. All grading activity must be in compliance with the grading and erosion/sediment control regulations of Woodbury County and the Iowa Department of Natural Resources.
- F. Supplemental regulations. All pertinent provisions of Article 5, Supplemental Regulations, shall apply to uses and development in LI zoning district.

**8. GI General Industrial Zoning District**

- A. Purpose and Intent. The purpose of the GI, General Industrial Zoning District is to provide for the orderly development of heavy commercial and industrial uses. Appropriate sites for the GI Zoning District should have excellent infrastructure including transportation access via highways, railroad, airports, or barge, sanitary sewerage, water service, and power supply.
- B. Allowed Uses. The GI, General Industrial Zoning District generally allows a very broad range of (a) industrial uses; (b) commercial uses; (c) wholesale and warehouse uses; and (d) related public uses, which are described more definitively in the Land Use Summary Table in subsection 3.03-4. Certain general industrial uses that may tend to be objectionable due to their odor, vibrations, smoke, glare, heat, noise or similar characteristics are provided as conditional uses in this district.  

Adult business uses may be located in the LI Zoning District as conditional uses. Adult businesses are regulated in order to control the secondary effects associated with such uses, not to prohibit these uses from exercising their rights under the U.S. Constitution.
- C. Dimensional Standards. Section 3.04 includes a table of comparative dimensional standards for all zones.
- D. Off-street parking and loading. Off-street parking and loading facility requirements for all principal allowed, conditional and accessory uses in the GI zoning district shall be provided and maintained according to the provisions of Section 5.01.

- E. Grading, erosion and sedimentation control. All grading activity must be in compliance with the grading and erosion/sediment control regulations of Woodbury County and the Iowa Department of Natural Resources.
- F. Supplemental regulations. All pertinent provisions of Article 5, Supplemental Regulations, shall apply to uses and development in GI zoning district.

**9. PD – Planned Development Overlay Zoning District**

- A. Purpose and Intent. The purpose of the PD, Planned Development Overlay Zoning District is to allow greater flexibility and encourage more creative, innovative development with specific design features not otherwise required or allowed by the provisions of other zoning district regulations. The intent of Planned Development Overlay Zoning approval process set forth in subsection 2.02-5 is to provide a mechanism for review and approval of development proposals that will promote high standards with maximum flexibility for innovation. As the title describes, the –PD overlay zone is not intended to be a free-standing zoning district; it is to be applied as an overlay to one of the other zoning districts.
- B. Allowed Uses. The PD, Planned Development Overlay Zoning District is generally intended to allow the range of land uses allowed in the underlying zoning district as a matter of right without regard to approval of a specific plan as provided herein. However, anything that is not prohibited is potentially acceptable as a part of an approved planned development in a PD overlay district including mixed use developments. Likewise, only the uses in an approved PD planned development shall be allowed.
- C. Dimensional Standards. In the absence of an approved PD Planned Development, the dimensional standards set forth for the underlying base zone shall be applied. It is intended that the review and approval process for Planned Development set forth in subsection 2.02-5 will result in dimensional standards that provide protection for neighboring properties while also allowing maximum flexibility needed to assure a successful development.
- D. Off-street parking and loading. In the absence of an approved PD planned development, the off-street parking and loading facility requirements set forth in Section 5.01 shall be applied. Off-street parking and loading facility requirements for all uses in the PD overlay zoning district shall be provided and maintained based upon the approved development plan. As part of the approval of a specific planned development proposal, the standards set forth in subsections 5.01-3 through 5.01-5 should be considered, but shall not be required as a condition for approval of the proposed planned development to be the approved standards for the development plan.
- E. Grading, erosion and sedimentation control. All grading activity must be in compliance with the grading and erosion/sediment control regulations of Woodbury County and the Iowa Department of Natural Resources.
- F. Landscaping, screening and buffering. An approved planned development may require a standard of landscaping, screening and buffering requirements.
- G. Approval process. The procedure for review and approval of a PD Planned Development Overlay District is prescribed in subsection 2.02-5. F.

**10. CD -- Conservation Development Overlay Zoning District**

- A. Purpose and Intent. The CD, Conservation Development Overlay Zoning District is intended to be mapped as an overlay of the AP, AE, NR and SR zoning districts. The CD zone is intended to allow the transfer of development rights for residential units be-

tween portions of a contiguous development site in order to accomplish the purpose set forth below. Up to 75% of a parcel may be dedicated to a conservation or preservation purpose with no effect on the permitted number of dwelling units that would be allowed on the total site in the underlying zoning district. Additional densities may also be authorized based upon public benefits or cost reductions resulting from the manner in which the conservation or preservation set-aside area is established.

The purposes of the CD district are to:

- (1) Encourage the conservation and preservation of open space and the natural areas of the county. Included within desired targets for conservation and preservation are prime agricultural land, wetlands, wooded areas, native prairies, and the unique land formations known as the Loess Hills;
  - (2) Encourage greater design flexibility and efficiency in the siting of services and infrastructure while minimizing impacts on environmental resources and natural or cultural features;
  - (3) Encourage an appropriate density and clustering of residential development to allow urban infill to occur when water and sanitary sewer facilities are available in the future; and
  - (4) Encourage development of a variety of housing resources that are functionally and physically integrated with their surroundings.
- B. Allowed Uses. The specific land uses allowed as principal allowed, conditional and accessory uses in the underlying zoning district are also allowed in the CD, Conservation Development Zoning District.
- C. Dimensional Standards
- (1) Minimum lot size. For dedication of development rights by easement or title, the minimum residential lot size in the underlying zoning district may be reduced by the same percentage as the dedication of development rights area is of the total area within a conservation development subdivision, up to a maximum reduction of 75% in the AP, AE and NR zones (to a minimum of ½ acre lot size) or 40% in the SR zone (to a minimum of 6,000 sq. ft.).  
(Example: For a 40-acre development in an AE-CD zone, if 30 acres is set aside with a permanent conservation easement restricting the use to agriculture, a total of 20 residential lots could be developed on ½ acre lots on the remaining 10 acres. This example disregards land that might be required for roads and other support for the development and also assumes that water and sewer systems are sufficient to serve the resulting residential densities.)
  - (2) Minimum lot width. The minimum lot width may be reduced by the same percentage as for the minimum lot size in subsection (1) above to not less than 100 feet in the AP, AE and NR zones and not less than 60 feet in the SR zone.
  - (3) Maximum building height. Building height limits in the underlying zoning district are not altered by dedication of development rights in the –CD overlay zone.
  - (4) Minimum front yard setback. The front yard setback may be reduced from the required minimum in the underlying AP, AE and NR zoning districts by ½ foot for each percent that the dedication of development rights is of the total area within the conservation development subdivision, to not less than a 50-foot setback.
  - (5) Minimum side yard setback. The side yard setback may be reduced from the required minimum in the underlying AP, AE, NR and SR zoning districts by one foot

for each five percent that the dedication of development rights is of the total area within the conservation development subdivision, to not less than a 10-foot setback in the AE and NR zones or 7 feet in the SR zone.

- (6) Minimum rear and corner side yard setback. The rear and corner side yard setback requirements of the underlying zoning district are not altered by any dedication of development rights in a conservation development subdivision.
- (7) Maximum lot coverage. The maximum lot coverage by structures in the underlying SR zoning district may be increased by one percent for each five percent that the dedication of development rights is of the total area within the conservation development subdivision, to not more than 40% of the total lot area.

D. Performance Standards.

- (1) Grading, Erosion and Sedimentation control. All grading activity must be in compliance with the grading and erosion/sediment control regulations of Woodbury County and the Iowa Department of Natural Resources.
- (2) Sanitary sewer systems. For areas not served by public sanitary sewage collection and treatment systems, the following options may be used, subject to the limits of other applicable standards and regulations:
  - (a) Individual septic systems may be located on the lot served.
  - (b) Individual or group septic systems or other approved sanitary treatment systems may be located on the land dedicated for conservation or preservation within the subdivision.
- (3) Potable water systems. For areas not served by public or private potable water systems, the following options may be used, subject to the limits of other applicable standards and regulations:
  - (a) Individual wells may be located on the lot served.
  - (b) Individual or group wells (and treatment systems) may be located on the land held for conservation and preservation within the subdivision.

E. Approval Process. The procedure for review and approval of a CD, Conservation Development Overlay District is prescribed in subsection 2.02-6.

**Section 3.02: Official Zoning District Map.**

The boundaries of the zoning districts are shown on the Zoning District Map dated August 1, 2008, which accompanies the Zoning Ordinance and is hereby declared to be a part of this chapter. The Zoning District Map and all notations, references, indications, and other information shown thereon are as much a part of this chapter as if they were fully described herein. The Zoning District Map is not set out in this Code of Ordinances but shall remain on file in the County Zoning Office and shall constitute a part of this Zoning Ordinance as if set out therein and herein. The Zoning District Map shall be updated periodically to show any amendments approved as provided in subsection 2.02-4. The Zoning Director shall certify a tabulation of the map updates on the face of the map.

**Section 3.03: Zoning District Allowed Use Provisions.**

- 1. **Land Use Summary Table.** The table in subsection 3.03-4, which follows, identifies specific uses that are either principal allowed, conditional, accessory, temporary or prohibited uses in each zoning district.

- A. Principal allowed uses, indicated by “ok” in the table, are allowed as a matter of right in the zoning district, subject only to compliance with the general standards required for all uses in the zoning district.
  - B. Conditional uses, indicated by “C” in the table, are allowed in the zoning district only upon approval by the Zoning Board of Adjustment based upon findings of compliance with the requirements of subsection 2.02-9. F.
  - C. Accessory uses, indicated by “A” in the table, are either subordinate to or serve a principal allowed or conditional use on the same zoning lot.
  - D. Prohibited uses, indicated by “--” (i.e., a blank) in the table, are not allowed in the zoning district as either a principal allowed, conditional or accessory use. Some uses, indicated by “XX” in the table, are specifically identified as incompatible and therefore prohibited in the zoning district.
- 2. Land Use Summary Table Organization.** The table in subsection 3.03-4 is a matrix with a comprehensive listing of uses arrayed down the side of the table with the zoning districts heading the column. The uses are arranged in general categories, e.g. residential, office, trade, industrial, etc. The general categories are arranged in an ascending order of land use perceived urban intensity with agriculture first, followed by residential, then office uses, etc. Within each category, subcategories and individual uses are arranged in alphabetic order.
  - 3. Interpretation and updating.** The listing of uses in the table in subsection 3.03-4 is intended to be comprehensive; however, it is certain to be incomplete due to omissions or new uses that will be developed in the future. The zoning director shall interpret which uses found in the Land Use Summary Table are comparable to an unlisted use or which zoning districts are appropriate for such use to be allowed as either principal allowed, conditional or accessory uses. The table in subsection 3.03-4 may be updated pursuant to the procedure outlined in Section 2.03 from time to time to reflect legislative acceptance or rejection of the interpretations of the zoning director.

4. Land Use Summary Table of Allowed Uses in each Zoning District

|  | Agricultural Preservation<br>AP | Agricultural Estates<br>AE | Non-Agricultural Residential<br>NR | Suburban Residential<br>SR | General Commercial<br>GC | Highway Commercial<br>HC | Limited Industrial<br>LI | General Industrial<br>GI |
|--|---------------------------------|----------------------------|------------------------------------|----------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| <b>ok</b> Principal allowed use  |                                 |                            |                                    |                            |                          |                          |                          |                          |

<sup>(1)</sup> Minimum lot areas are net of area of rights-of-way.

## ARTICLE 4. GENERAL REQUIREMENTS

### Section 4.01: Scope of the Ordinance.

No building, structure or land in the unincorporated areas of Woodbury County may be used or constructed, reconstructed, moved or structurally altered except in conformance with the provisions of this Ordinance.

### Section 4.02: Nonconformities

1. **Intent.** Conforming or legal nonconforming structures and uses that were in existence on the effective date of this ordinance that are not legal and conforming to the provisions of this ordinance are legal nonconforming uses or structures and as such, may continue, but may not be expanded or re-established, except as provided in this Section.
2. **Definitions.**
  - A. **Legal Nonconforming Lot of Record.** A parcel of land that was designated as a lot in a subdivision or a parcel in a deed filed of record prior to the effective date of this ordinance, which conformed to the dimensional requirements of the zoning district in which it was located at the time it was created, but which is not in conformance with all dimensional requirements established by this ordinance. A lot made nonconforming by public action shall be considered a legal nonconforming lot of record.
  - B. **Legal Nonconforming Structure.** A structure that was in conformance with the dimensional requirements of the zoning district in which it was constructed, but which is not in conformance with all the dimensional requirements established by this ordinance.
  - C. **Legal Nonconforming Use.** A use that was an allowed use in the zoning district in which it was initially established, but which is not an allowed use under this ordinance in the zoning district in which it is located.
3. **Legal Nonconforming Lots of Record.** In any zoning district in which single-family dwellings are permitted, a single-family residence may be erected on a legal nonconforming lot of record provided that no additional nonconformity is created.
4. **Legal Nonconforming Structures.** Any legal nonconforming structure may continue to exist subject to the requirements of this Section.
  - A. **Enlargement, Repair, Alterations:** Any enlargement, maintenance, repair or remodeling of a legal nonconforming structure shall not either create any additional nonconformity or increase the degree of existing nonconformity of the structure.
  - B. **Damage or Destruction:** If a nonconforming structure is damaged or destroyed, by any means, to the extent of more than sixty percent of its replacement value, such structure shall not be restored except in conformance with the dimensional requirements for the zoning district in which it is located.
  - C. **Amortization of nonconforming signs and lighting systems.** Nonconforming signs and nonconforming telecommunication tower lighting systems shall be terminated or made conforming not later than ten calendar years from the date of erection or five calendar years from the effective date of this ordinance, whichever is later.
5. **Legal Nonconforming Uses.** A legal nonconforming use may be continued so long as it remains otherwise lawful, subject to the following provisions:

## GENERAL REQUIREMENTS

- A. A legal nonconforming use shall not be moved to another portion of the site than was occupied at the effective date of this ordinance.
- B. A legal nonconforming use shall not be enlarged or extended to occupy a greater area than was occupied at the effective date of this ordinance, except within a structure that is suitable by reason of its layout, design and construction for the use and that was existing at the effective date of this ordinance.
- C. If a legal nonconforming use ceases for any reason for a period of more than twelve months, any subsequent use of such land shall conform to the regulations specified by this Ordinance for the district in which such land is located.
- D. A legal nonconforming use may be changed to a use of the same or lesser intensity. The relative intensity of uses is determined as follows:
  - (1) All principal uses within the same zoning district are considered to be of the same intensity.
  - (2) The intensity of principal permitted uses of zoning districts shall be considered to be least intensive in the AP zone and progressively more intensive in the order of zoning districts established in Section 3.01, except that residential uses may not be established as replacement uses for any non-residential use in a commercial or industrial zoning district.

### **Section 4.03: Rules of Measurement**

1. **Building Height.** Building height is measured as the vertical distance from finished grade to the top of the highest point of the finished roof.
2. **Lot Area.** Lot area is measured as the amount of gross land area contained within the property lines of a lot or parcel, but not including streets, rights-of-way or easements providing general public access.
3. **Lot Width.** The lot width is measured as the distance between side lot lines measured at the rear of the required front yard setback on a line parallel to the front lot line.
4. **Lot Frontage.** Lot frontage is measured as the distance along the front lot line between its intersections with the side lot lines. On curved or multiple-segment front lot lines, frontage is the sum of the lengths of any straight segments and the arc lengths of curved segments.
5. **Flag Lots.** For flag lots, the required front yard shall be measured from the point back from the street lot line that the lot width meets the minimum lot width requirement for the zoning district.
6. **Lot Coverage.** Lot coverage is measured as the percentage of the total lot area covered by buildings. It is calculated by dividing the area of building cover by the area of the lot. However, (i) areas covered by swimming pools and hot tubs shall not be counted as covered areas for purposes of determining lot coverage; and (ii) open decks less than 30 inches above grade shall not be included in calculations of lot coverage.
7. **Setbacks.** Setbacks are measured between the lot line and the closest projection of a building or structure along a line perpendicular to the lot line, and must remain unobstructed from the ground to the sky except as otherwise specifically allowed in this Ordinance.

8. **Separation Distance.** Whenever a regulation requires a proposed use or activity to be located a specified distance from an existing use, zoning district boundary, or activity, such distance or spacing requirement shall be measured from the closest point of the structure or building housing the proposed use to the closest edge of the principal structure housing the existing use or to the closest lot line, except that separation distances required for Adult Uses shall be measured as stated in Section 5.04.

**Section 4.04: Lot Requirements.**

1. **Zoning Lot.** Every building constructed or structurally altered shall be located on a zoning lot as defined in Section 6.02.
2. **Number of Residential Structures.** Not more than one principal residential structure shall be constructed, structurally altered or used for residential purposes on any zoning lot except as allowed by conditional use or planned development.
3. **Flag Lots.** Flag lots are discouraged except when necessary to provide access when normal lot patterns are impossible to achieve due to topography or existing lot patterns. Flag lots shall not be created in order to avoid construction of streets within a proposed development.
4. **Access and Street Frontage.** Any lot used for residential purposes shall have a minimum frontage of 20 feet on a public road or an exclusive (i.e., not shared), unobstructed private access easement of at least 20 feet in width to a public road. An unobstructed private access easement of 60 feet in width may serve as access for multiple residential lots as general public access.
5. **Limits on Reduction of Lot Dimensions.** No zoning lot shall be divided or reduced in dimension to the extent that required setbacks, lot width or density of use are not maintained. This section shall not apply if a portion of a lot is acquired for a public purpose.

**Section 4.05: Setback Requirements**

1. **Definitions.**
  - A. **Setback.** The minimum horizontal distance between a designated lot line (e.g. front, rear, etc.) and the buildable area of a lot.
  - B. **Yard.** The actual area or minimum distance between a designated lot line and a structure or building. A conforming yard equals or exceeds the setback requirement.
2. **General Provisions.** Any building, structure or use erected, altered, or established, shall comply with the setback requirements of the district in which it is located, except as specified in this Ordinance.
3. **Location of Required Setback.** The required setback for any building, structure or use shall be contained on the same lot as the building, structure or use and entirely upon land in a district in which the principal use is permitted.
4. **Sharing of Required Setback or Space Prohibited.** No part of a setback provided for any building or structure to comply with the provisions of this Ordinance shall be included as part of a setback or other space required under this Ordinance for another building or structure.

- 5. Required Setback on Private Streets.** All applicable building setbacks along private streets shall be measured from the nearest line of the easement or parcel containing the private street.
- 6. Front Setbacks on Reverse Corner Lots.** On reverse corner lots the corner side setback shall be equivalent to the required front setback on the adjacent lot to the rear.
- 7. Front and Rear Setbacks for Through Lots.** Through lots shall provide front yard setbacks on both street frontages.
- 8. Permitted Encroachment in Yards.**
  - A. Every part of a required yard shall be open to the sky except where accessory buildings are permitted and except for the ordinary projections from principal buildings of sills, belt courses, cornices, fireplace chimneys, gutters and downspouts, and ornamental features projecting not to exceed 24 inches.
  - B. The following shall not be considered to be obstructions when located in any required yards:
    - (1) Open or screened porches, less than three feet above the grade, with or without awning or canopy covers, projecting into the setback not more than six feet and having no more than 48 square feet of area;
    - (2) Bay windows projecting three feet or less.
    - (3) Handicapped accessible ramps, steps and other assisting devices that are not more than four feet above grade;
    - (4) Heat pump and air conditioning compressor units;
    - (5) Recreational and laundry-drying equipment;
    - (6) Arbors, trellises, fences or walls subject to applicable height restrictions;
    - (7) Flag poles; and
    - (8) Approved freestanding signs;
    - (9) Solar energy collectors and heat storage units not more than 24 inches;

**Section 4.06: Private Sewage Disposal and Water Supply Systems.**

There shall be sufficient ground area unoccupied by structures or paving to allow a proper system of sewage disposal and/or water supply conforming with the applicable standards and requirements of county and state regulations regardless of other provisions of this Ordinance. Site plans accompanying Building Permit applications shall clearly show the proposed sewage disposal system and/or water supply system. All such proposed systems shall be subject to approval of the appropriate health agencies prior to issuance of a building permit. Coverage of any part of a septic tank or leach field by a building or hard surface shall not be permitted.

**Section 4.07: Maximum Density Not Guaranteed.**

The number of dwelling units allowed on a site is based on the presumption that all other applicable standards shall be met. The maximum density established for a zoning district is not a guarantee that such densities may be obtained, nor a valid justification for granting variances.

**Section 4.08: Exception to Height Limitations.**

Except as otherwise provided in this section, the height limitations in this Zoning Ordinance shall not apply to water storage facilities, fire towers, cooling towers, ornamental towers and spires, telecommunication towers, antennas, aerials, chimneys, elevator bulkheads, flag poles, wind generators or other necessary mechanical appurtenances, provided that no such structure or appurtenance shall extend into any approach zone, clear zone or other restricted air space required for protection of any airport.

### **Section 4.09: Corner Visual Clearance.**

Nothing shall be erected, placed, planted, or allowed to grow on a corner lot in such a manner as to significantly impede vision of drivers or obscuring visibility of an official control sign.

### **Section 4.10: Temporary Buildings and Structures.**

Temporary buildings, including manufactured/mobile homes, that are used solely for office or storage purposes in conjunction with construction work only, may be permitted in any zoning district during the period that the construction work is in progress, but such temporary buildings shall be removed upon completion of the construction work.

### **Section 4.11: Single-Family Detached Dwellings.**

The following standards shall apply to all single-family detached dwellings:

1. The main body shall have a minimum dimension of not less than 23 feet.
2. There shall be a continuous and complete perimeter foundation of the main body.
3. The main structure shall be permanently affixed to its foundation.
4. Manufactured homes, as defined in section 6.02, if located outside a manufactured/mobile home community, shall comply with the following requirements:
  - A. Classification as real estate and assessment as real property in accordance with the Code of Iowa,
  - B. All hitches, wheels, axles, and any types of other towing devices shall be permanently removed.
  - C. Compliance with the National Manufactured Housing Construction and Safety Standards Act and must have displayed an appropriate certification label issued by the United States Department of Housing and Urban Development, and must not have been altered in violation of applicable codes. If a structure lacks such certification, it must conform to the State Building Code.

### **Section 4.12: Accessory Buildings**

1. For the AP, AE, NR and SR zoning districts, side and rear yard setback requirements for accessory buildings are set forth in section 3.04.
2. No accessory building shall be constructed upon a lot until the construction of the principal building has commenced. In no event shall such building be used as a dwelling unless it is a facility designed for human habitation and a certificate of occupancy shall have been issued for such use.
3. No accessory structure shall be constructed closer to the front lot line than the front edge of the principal structure or two times the required front yard setback, whichever distance is shorter, except that free-standing on-premise advertising signs may be placed within the front yard setback subject to the setback requirements in subsection 5.02-7.

4. No detached accessory building or structure shall exceed the height of the principal building or structure.
5. Detached accessory structures shall not be located closer to any other accessory or principal building than ten feet.

**Section 4.13: Building prohibited.**

The Natural Resources Conservation Service (NRCS) has identified areas that are potentially subject to inundation by waters released due to partial or complete failure of a dam or other water retention or detention facility. No building shall be constructed in such identified potential water inundation areas.

**Section 4.14: Home Occupation Uses.**

“Home occupation” is defined as any business, occupation or activity conducted for gain within a residential building, or an accessory building, which is incidental or secondary to the use of such building for dwelling purposes and which does not change the essential residential character of the property. The regulations of this section dealing with home occupations are designed to protect and maintain the residential character of a neighborhood while permitting certain limited commercial activities.

1. The home occupation must be the enterprise of a person living on the premises.
2. Only three persons who do not reside on the premises may be employed in the home occupation.
3. The home occupation shall be conducted entirely within an enclosed building and there shall be no display or outdoor storage that would indicate from the exterior that the building is being used in part for any purpose other than residential.
4. Home occupation and employee vehicles shall be stored either in a building or screened from view from a public or private road or from an adjacent property.
5. Only one on-premise unlighted sign not more than 25 square foot in area shall be allowed.
6. No equipment or process shall be used in a home occupation that produces noise, vibration, glare, fumes, odors, or electromagnetic interference detectable beyond the premises to the extent that the home occupation is determined to be noxious, offensive or hazardous.
7. Prohibited home occupations: The following uses are specifically prohibited as home occupations:
  - A. Adult uses.

**Section 4.15: Junk vehicles.**

1. Junk vehicles may not be stored outside an enclosed building except
  - A. In a properly screened storage area as part of either an automotive salvage business or an automotive towing business as allowed in the Land Use Summary Table in Section 3.03-4.
  - B. Not more than two junk vehicles may be stored outside an enclosed building in a location adequately screened from view from a public roadway or adjacent property.
2. Parts removed from vehicles may not be stored outside an enclosed building.

## GENERAL REQUIREMENTS

3. "Junk vehicle" is defined as a vehicle, including, but not limited to automobile, truck, motorcycle, trailer, etc. that is not capable of operation as intended due to obsolescence, disrepair or removed parts.

## **ARTICLE 5 SUPPLEMENTAL REQUIREMENTS**

### **Section 5.01. Off-street Parking and Loading.**

1. **Intent.** This chapter is intended to establish off-street parking and loading space requirements related to the use of property with the intent of a) reducing congestion on public roads; and b) providing safe and convenient access, thereby promoting the public health, safety and welfare.
2. **Applicability.**
  - A. All uses established after the effective date of this title shall provide off-street parking and loading space in accordance with the standards set forth in this chapter.
  - B. Uses that do not conform to the standards set forth in this section on the effective date of this title but that were in compliance with the parking and loading requirements under which said uses were established shall be deemed to be legally nonconforming.
  - C. Any expansion or change of use shall require additional parking and loading for the new or expanded portion of the use. Any existing legal nonconformity in quantity of off-street parking and loading requirements, as described in subsection 5.01-2.B above, may be extended as a matter of right.
  - D. Temporary encroachment into required parking spaces for seasonal sales display area may be authorized by the Zoning Director for up to 90 days during a year based upon a determination that adequate parking is available to meet the demand during the period of encroachment.
3. **Location Requirements.**
  - A. No parking or loading spaces may be located within five feet of a public right-of-way or easement or within five feet of an abutting residentially used or zoned lot.
  - B. Required off-street parking and loading spaces shall be located on the same zoning lot as the use they serve.
4. **Size requirements.**
  - A. Parking spaces. A parking space shall be at least 180 square feet in size exclusive of the area of any access aisle or driveway. The minimum parking space width shall be 9 feet.
  - B. Loading spaces. All loading spaces and access aisles shall be of sufficient size and conformation that no loading or unloading operations and no vehicle being maneuvered, loaded or unloaded shall infringe upon any road. Minimum size requirements for loading spaces are as follows:
    - (1) Manufacturing and warehousing uses: Loading spaces shall be not less than 12 feet by 60 feet for manufacturing and warehouse uses.
    - (2) Retail, service and institutional uses: Loading spaces shall be not less than 12 feet by 30 feet for retail and service uses and for institutions.
  - C. Handicapped parking spaces. Handicapped parking spaces shall be provided and identified in all off-street parking areas as required by Section 321L.5 of the Iowa

## SUPPLEMENTAL REQUIREMENTS

Code.

For reference, the proportion of handicapped parking spaces required are as follows:

| <u>Total Parking Spaces</u> | <u>Handicapped Spaces</u>    |
|-----------------------------|------------------------------|
| 10 to 25                    | 1 space                      |
| 26 to 50                    | 2 spaces                     |
| 51 to 75                    | 3 spaces                     |
| 76 to 100                   | 4 spaces                     |
| 101 to 150                  | 5 spaces                     |
| 151 to 200                  | 6 spaces                     |
| 201 to 300                  | 7 spaces                     |
| 301 to 400                  | 8 spaces                     |
| 401 to 500                  | 9 spaces                     |
| 501 to 1000                 | 2% of total                  |
| over 1000                   | 20 spaces plus 1% over 1000. |

5. **Required quantity of parking and loading.** The required numbers of parking and loading spaces for common uses permitted in the various zoning districts are indicated below. For uses not specified, the zoning director shall determine the requirements based on a determination of the most similar listed use.

| Abbreviations –<br>DU – Dwelling unit<br>GFA – Gross floor area<br>GLA – Gross land area | Required Number of<br>Parking spaces | Required Number<br>of Loading spaces |
|--|--------------------------------------|--------------------------------------|
| <b>Agricultural and agri-business uses</b>   | No requirement                       | No requirement                       |
| <b>Residential uses</b>  |                                      |                                      |
| Dwellings<br>(unless otherwise noted below)  | 2 per dwelling                       | No requirement                       |
| Multiple family dwelling   | 2 per dwelling                       | No requirement                       |
| Family homes   | 2 per dwelling                       | No requirement                       |
| Group quarters   |                                      |                                      |
| Assisted living dwelling   | 1 per empl. + 1 per 4 dwlg.          | No requirement                       |
| Detention facilities   | 1 per empl. + 1 per 4 beds           | No requirement                       |
| Dormitory & other group quarters   | 1 per 2 beds                         | No requirement                       |
| Nursing care facility  | 1 per empl. + 1 per 4 beds           | No requirement                       |
| Home occupations   | (see business type)                  | (see business type)                  |
| Mfd housing park (plan. devel.)  | 2 per dwelling                       | No requirement                       |
| Mobile home  | 2 per dwelling                       | No requirement                       |
| <b>Office uses</b><br>(unless otherwise noted below)                                     | 1 per 300 sq. ft. GFA                | No requirement                       |
| Finance, insurance, real estate  | 1 per 200 sq. ft. GFA                | No requirement                       |
| Medical & dental clinics (incl. chiropractors, podiatrists, orthodontists, etc.)         | 1 per 150 sq. ft. GFA                | No requirement                       |
| <b>Trade uses</b>  |                                      |                                      |

| Electric wind generator (Private use)  | None  | None                                 |
| Sewage treatment for subdivision   | None  | None                                 |
| Sewage lagoon  | None  | None                                 |
| Water storage tanks  | None  | None                                 |

### **Section 5.02: Sign Requirements**

1. **Purpose.** The purpose of this section is to set forth minimum requirements for use, size and location of signs in order to ensure public health safety and welfare and promote implementation of the comprehensive plan.
2. **Scope of regulations.** The regulations contained in this section apply to signs in all zoning districts. No sign may be located, erected or maintained except in compliance with the regulations of this section.
3. **Nonconformities.** Any sign legally in existence on the effective date of this ordinance that is made nonconforming by these regulations or any amendments thereto may continue subject to the requirements of Section 4.02, including provisions for amortization of nonconformities in subsection 4.02-4. C.
4. **Permit required.** A sign permit, issued by the Zoning Director in response to an application containing information needed to determine compliance with the requirements of this Section, shall be required prior to erection of any sign, except exempt signs as described in subsection 6 below.
5. **Prohibited signs.**

## SUPPLEMENTAL REQUIREMENTS

- A. No sign shall be placed on or over any road right-of-way other than an official traffic or street sign and such other signs approved for placement by the controlling public agency.
  - B. No sign shall be placed on any public or private party without the consent of the owner or authorized agent of the owner of the property.
  - C. No sign shall be placed at any location where it may, by reason of its size, shape, design, location, content, coloring, manner of illumination or changing display capability, constitute a traffic hazard or a detriment to traffic safety by obstructing the vision of drivers by obscuring or otherwise physically interfering with any official traffic control device, or that may be confused with an official traffic control device. Signs must conform to the corner visual clearance requirements of section 4.09.
- 6. Exempt signs.** The following signs are exempt from the regulations of this section.
- A. Traffic control signs approved by the controlling public agency for placement on the public right-of-way and other signs required by law or government order.
  - B. Display of any official flag or emblem of the nation or state.
  - C. Any sign located within a building that is not visible from a public right-of-way.
  - D. Grave markers, memorials and statues of persons or events that are non-commercial.
  - E. Temporary holiday decorations and displays.
  - F. Community event notices.
  - G. Signs attached to or applied directly to a motor vehicle that is used in the normal course of business. A sign-bearing vehicle that is parked more or less permanently in a location visible from a traveled road may be determined to be a sign and therefore subject to the requirements of this section.
  - H. Information signs to provide direction, safety or convenience of the public to assist in finding entrances, exits, parking, rest rooms, telephones, etc.
  - I. Address signs containing only the address of the premises.
  - J. Political signs promoting a public issue or a candidate for public office.
  - K. Real estate for sale or rent signs that comply with the size and location standards for on-premise signs in the zoning district.
  - L. Construction site signs identifying a development, developer, principal contractors, designers, etc.
  - M. Incidental signs serving the interest of the property owner, such as “No Hunting”, “No Trespassing”, etc.
- 7. Standards for on-premise advertising signs.** Standards for on-premise advertising signs are set forth in the following tables.

**SUPPLEMENTAL REQUIREMENTS**

A. Free-standing signs.

(1) Pylon signs

|    | Allowed? | Maximum Size | Required Setbacks          | Maximum Height | Minimum Clearance from Grade |
|----|----------|--------------|----------------------------|----------------|------------------------------|
| AP | No       | N/A          |                            |                |                              |
| AE |          |              |                            |                |                              |
| NR |          |              |                            |                |                              |
| SR |          |              |                            |                |                              |
| GC | Yes      | 100 sq. ft.  | 10 ft. Front<br>5 ft. Side | 45 ft.         | 12 ft.                       |
| HC |          | 200 sq. ft.  |                            |                |                              |
| LI |          | 100 sq. ft.  |                            |                |                              |
| GI |          |              |                            |                |                              |

(2) Ground signs

|    | Allowed?                                  | Maximum Size | Required Setbacks          | Maximum Height | Minimum Clearance from Grade |
|----|---|--------------|----------------------------|----------------|------------------------------|
| AP | Home Occupation Signs                     | 25 sq. ft.   | 10 ft. Front<br>5 ft. Side | 6 feet         | None                         |
| AE |   |              |                            |                |                              |
| NR |   |              |                            |                |                              |
| SR | Home Occupation Signs & Apt. Ident. Signs |              |                            |                |                              |
| GC | Yes                                       | 100 sq. ft.  |                            | 10 feet        |                              |
| HC |   | 200 sq. ft.  |                            |                |                              |
| LI |   | 100 sq. ft.  |                            |                |                              |
| GI |   |              |                            |                |                              |

**SUPPLEMENTAL REQUIREMENTS**

**B. Building signs.**

**(1) Wall signs**

|    | Allowed?                                   | Maximum Size     | Maximum Height            |
|----|--|------------------|---------------------------|
| AP | Home Occupation Signs                      | 25 sq. ft.       | Not above eave or parapet |
| AE |  |                  |                           |
| NR |  |                  |                           |
| SR | Home Occupation Signs<br>Apt. Ident. Signs | 10 sq. ft.       |                           |
| GC | Yes  | 20% of wall area |                           |
| HC |  |                  |                           |
| LI |  | 10% of wall area |                           |
| GI |  |                  |                           |

**(2) Window signs**

|    | Allowed? | Maximum Size       | Maximum Number of Signs |
|----|----------|--------------------|-------------------------|
| AP | No       | N/A                |                         |
| AE |          |                    |                         |
| NR |          |                    |                         |
| SR |          |                    |                         |
| GC | Yes      | 25% of window area | 2 per building side     |
| HC |          |                    |                         |
| LI | No       | N/A                |                         |
| GI |          |                    |                         |

**(3) Projecting signs**

|    | Allowed? | Maximum Size | Maximum Height            | Maximum Projection from Bldg | Minimum Clearance                       |
|----|----------|--------------|---------------------------|------------------------------|---|
| AP | No       | N/A          |                           |                              |   |
| AE |          |              |                           |                              |   |
| NR |          |              |                           |                              |   |
| SR |          |              |                           |                              |   |
| GC | Yes      | 12 sq. ft.   | Not above eave or parapet | 6 ft.                        | 8 ft. over walkway<br>14' over driveway |
| HC |          |              |                           |                              |   |
| LI | No       | N/A          |                           |                              |   |
| GI |          |              |                           |                              |   |

**8. Standards for off-premise advertising signs.**

A. Standards for off-premise advertising signs (e.g. billboards) are set forth in the following table:

|    | Allowed?  | Required Separation  | Maximum Size  | Required Setbacks        | Maximum Height |
|----|---|--|---|--------------------------|----------------|
| AP | No  | N/A  | N/A   | N/A                      | N/A            |
| AE |   |  |   |                          |                |
| NR |   |  |   |                          |                |
| SR |   |  |   |                          |                |
| GC | Conditional Use approved by Board of Adjustment | 1000 ft. between off-premise signs; 1000 ft. from AE, NR, SR zones | 500 sq. ft. + 1 addl. sq.ft. per 1' addl. separation up to 672 sq.ft. | Zoning district setbacks | 35 ft.         |
| HC |   |  |   |                          |                |
| LI | No  | N/A  | N/A   | N/A                      | N/A            |
| GI |   |  |   |                          |                |

B. No off-premise advertising signs shall be located within 660 feet of the nearest right-of-way line or in a location visible from the nearest right-of-way line of U.S. Highway 75 between its intersection with U.S. Highway 20 and the Plymouth County line.

**Section 5.03: Floodplain Management Ordinance**

**1. Definitions**

Unless specifically defined below, words or phrases used in this Ordinance shall be interpreted so as to give them the meaning they have in common usage and to give this Ordinance its most reasonable application.

- A. Appurtenant Structure** – A structure which is on the same parcel of the property as the principal structure to be insured and the use of which is incidental to the use of the principal structure.
- B. Base Flood** - The flood having one (1) percent chance of being equaled or exceeded in any given year. (Also commonly referred to as the “100-year flood”).
- C. Base Flood Elevation (BFE)** – The elevation floodwaters would reach at a particular site during the occurrence of a base flood event.
- D. Basement** - Any enclosed area of a building which has its floor or lowest level below ground level (subgrade) on all sides. Also see "lowest floor."
- E. Development** - Any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation, drilling operations or storage of equipment or materials. “Development” does not include “minor projects” or “routine maintenance of existing buildings and facilities” as defined in this section. It also does not include gardening, plowing, and similar practices that do not involve filling or grading.

## SUPPLEMENTAL REQUIREMENTS

- F. Enclosed Area Below Lowest Floor** – The floor of the lowest enclosed area in a building when all the following criteria are met:
- (1) The enclosed area is designed to flood to equalize hydrostatic pressure during flood events with walls or openings that satisfy the provisions of 5.03-7 B(4)(a) of this Ordinance, and
  - (2) The enclosed area is unfinished (not carpeted, drywalled, etc.) and used solely for low damage potential uses such as building access, parking or storage, and
  - (3) Machinery and service facilities (e.g., hot water heater, furnace, electrical service) contained in the enclosed area are located at least one (1) foot above the base flood elevation, and
  - (4) The enclosed area is not a "basement" as defined in this section.
- G. Existing Construction** - Any structure for which the "start of construction" commenced before the effective date of the first floodplain management regulations adopted by the community.
- H. Existing Factory-Built Home Park Or Subdivision** - A factory-built home park or subdivision for which the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before the effective date of the first floodplain management regulations adopted by the community.
- I. Expansion Of Existing Factory-Built Home Park Or SUBDIVISION** - The preparation of additional sites by the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).
- J. Factory-Built Home** - Any structure, designed for residential use which is wholly or in substantial part, made, fabricated, formed or assembled in manufacturing facilities for installation or assembly and installation, on a building site. For the purpose of this Ordinance factory-built homes include mobile homes, manufactured homes, and modular homes; and also include "recreational vehicles" which are placed on a site for greater than 180 consecutive days and not fully licensed for and ready for highway use.
- K. Factory-Built Home Park Or Subdivision** - A parcel or contiguous parcels of land divided into two or more factory-built home lots for sale or lease.
- L. Five Hundred (500) Year Flood** – A flood, the magnitude of which has a two-tenths (0.2) percent chance of being equaled or exceeded in any given year or which, on average, will be equaled or exceeded at least once every five hundred (500) years.
- M. Flood** - A general and temporary condition of partial or complete inundation of normally dry land areas resulting from the overflow of streams or rivers or from the unusual and rapid runoff of surface waters from any source.

## SUPPLEMENTAL REQUIREMENTS

- N. Flood Insurance Rate Map (FIRM)** - The official map prepared as part of (but published separately from) the Flood Insurance Study which delineates both the flood hazard areas and the risk premium zones applicable to the community.
- O. Flood Insurance Study (FIS)** – A report published by FEMA for a community issued along with the community’s Flood Insurance Rate Map(s). The study contains such background data as the base flood discharge and water surface elevations that were used to prepare the FIRM.
- P. Floodplain** - Any land area susceptible to being inundated by water as a result of a flood.
- Q. Floodplain Management** - An overall program of corrective and preventive measures for reducing flood damages and promoting the wise use of floodplains, including but not limited to emergency preparedness plans, flood control works, floodproofing and floodplain management regulations.
- R. Floodproofing** - Any combination of structural and nonstructural additions, changes, or adjustments to structures, including utility and sanitary facilities, which will reduce or eliminate flood damage to such structures.
- S. Floodway** - The channel of a river or stream and those portions of the floodplains adjoining the channel, which are reasonably required to carry and discharge flood waters or flood flows so that confinement of flood flows to the floodway area will not cumulatively increase the water surface elevation of the base flood by more than one (1) foot.
- T. Floodway Fringe** - Those portions of the Special Flood Hazard Area outside the floodway.
- U. Highest Adjacent Grade** – The highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure
- V. Historic Structure** - Any structure that is:
- (1) Listed individually in the National Register of Historic Places, maintained by the Department of Interior, or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing of the National Register;
  - (2) Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;
  - (3) Individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or,
  - (4) Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified by either i) an approved state program as determined by the Secretary of the Interior or ii) directly by the Secretary of the Interior in states without approved programs.

## SUPPLEMENTAL REQUIREMENTS

- W. Lowest Floor** - The floor of the lowest enclosed area in a building including a basement except when the criteria listed in the definition of Enclosed Area below Lowest Floor are met.
- X. Maximum Damage Potential Development** - Hospitals and like institutions; buildings or building complexes containing documents, data, or instruments of great public value; buildings or building complexes containing materials dangerous to the public or fuel storage facilities; power installations needed in emergency or other buildings or building complexes similar in nature or use.
- Y. Minor Projects** - Small development activities (except for filling, grading and excavating) valued at less than \$500.
- Z. New Construction** - (new buildings, factory-built home parks) - Those structures or development for which the start of construction commenced on or after the effective date of the first floodplain management regulations adopted by the community.
- AA. New Factory-Built Home Park Or Subdivision** - A factory-built home park or subdivision for which the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of the first floodplain management regulations adopted by the community.
- BB. Recreational Vehicle** - A vehicle which is:
- (1) Built on a single chassis;
  - (2) Four hundred (400) square feet or less when measured at the largest horizontal projection;
  - (3) Designed to be self-propelled or permanently towable by a light duty truck; and
  - (4) Designed primarily not for use as a permanent dwelling but as a temporary living quarters for recreational, camping, travel, or seasonal use.
- CC. Routine Maintenance of Existing Buildings and Facilities** – Repairs necessary to keep a structure in a safe and habitable condition that do not trigger a building permit, provided they are not associated with a general improvement of the structure or repair of a damaged structure. Such repairs include:
- (1) Normal maintenance of structures such as re-roofing, replacing roofing tiles and replacing siding;
  - (2) Exterior and interior painting, papering, tiling, carpeting, cabinets, counter tops and similar finish work;
  - (3) Basement sealing;
  - (4) Repairing or replacing damaged or broken window panes;
  - (5) Repairing plumbing systems, electrical systems, heating or air conditioning systems and repairing wells or septic systems.

- DD. Special Flood Hazard Area (SFHA)** – The land within a community subject to the "base flood". This land is identified on the community's Flood Insurance Rate Map as Zone A, A1-30, AE, AH, AO, AR, and/or A99.
- EE. Start Of Construction** - Includes substantial improvement, and means the date the development permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement, was within 180 days of the permit date. The actual start means either the first placement or permanent construction of a structure on a site, such as pouring of a slab or footings, the installation of pile, the construction of columns, or any work beyond the stage of excavation; or the placement of a factory-built home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of the building, whether or not that alteration affects the external dimensions of the building.
- FF. Structure** - Anything constructed or erected on the ground or attached to the ground, including, but not limited to, buildings, factories, sheds, cabins, factory-built homes, storage tanks, grain storage facilities and/or other similar uses.
- GG. Substantial Damage** - Damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damage condition would equal or exceed fifty (50) percent of the market value of the structure before the damage occurred. Volunteer labor and donated materials shall be included in the estimated cost of repair.
- HH. Substantial Improvement** - Any improvement to a structure which satisfies either of the following criteria:
- (1) Any repair, reconstruction, or improvement of a structure, the cost of which equals or exceeds fifty (50) percent of the market value of the structure either (i) before the "start of construction" of the improvement, or (ii) if the structure has been "substantially damaged" and is being restored, before the damage occurred.
  - (2) The term does not, however, include any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions. The term also does not include any alteration of an "historic structure", provided the alteration will not preclude the structure's designation as an "historic structure".
  - (3) Any addition which increases the original floor area of a building by 25 percent or more. All additions constructed after the effective date of the first floodplain management regulations adopted by the community shall be added to any proposed addition in determining whether the total increase in original floor space would exceed 25 percent.

**II. Variance** - A grant of relief by a community from the terms of the floodplain management regulations.

**JJ. Violation** - The failure of a structure or other development to be fully compliant with the community's floodplain management regulations.

**2. Statutory Authority, Findings of Fact and Purpose**

A. The Legislature of the State of Iowa has in Chapter 335, Code of Iowa, as amended, delegated the power to counties to enact zoning regulations to secure safety from flood and to promote health and the general welfare.

B. Findings of Fact

(1) The flood hazard areas of Woodbury County are subject to periodic inundation which can result in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base all of which adversely affect the public health, safety and general welfare of the community.

(2) These flood losses, hazards, and related adverse effects are caused by: (i) The occupancy of flood hazard areas by uses vulnerable to flood damages which create hazardous conditions as a result of being inadequately elevated or otherwise protected from flooding and (ii) the cumulative effect of obstructions on the floodplain causing increases in flood heights and velocities.

(3) This ordinance relies upon engineering methodology for analyzing flood hazards which is consistent with the standards established by the Department of Natural Resources.

C. Statement of Purpose. It is the purpose of this Ordinance to protect and preserve the rights, privileges and property of Woodbury County and its residents and to preserve and improve the peace, safety, health, welfare, and comfort and convenience of its residents by minimizing those flood losses described in 5.03-2.B(1) of this Ordinance with provisions designed to:

(1) Reserve sufficient floodplain area for the conveyance of flood flows so that flood heights and velocities will not be increased substantially.

(2) Restrict or prohibit uses which are dangerous to health, safety or property in times of flood or which cause excessive increases in flood heights or velocities.

(3) Require that uses vulnerable to floods, including public facilities which serve such uses, be protected against flood damage at the time of initial construction or substantial improvement.

(4) Protect individuals from buying lands which may not be suited for intended purposes because of flood hazard.

(5) Assure that eligibility is maintained for property owners in the community to purchase flood insurance through the National Flood Insurance Program.

**3. General Provisions**

- A. Lands to Which Ordinance Apply. The provisions of this Ordinance shall apply to all lands within the jurisdiction of Woodbury County shown on the Official Floodplain Zoning Map as being within the boundaries of the Floodway, Floodway Fringe, General Floodplain and Shallow Flooding (Overlay) Districts, as established in section 5.03-5 below.
- B. Establishment of Official Floodplain Zoning Map. The Flood Insurance Rate Map (FIRM) for Woodbury County and Incorporated Areas, dated 7-17-2024, which was prepared as part of the Flood Insurance Study for Woodbury County, is (are) hereby adopted by reference and declared to be the Official Floodplain Zoning Map. The Woodbury County Flood Insurance Study is hereby adopted by reference and is made a part of this ordinance for the purpose of administering floodplain management regulations.
- C. Rules for Interpretation of District Boundaries. The boundaries of the zoning district areas shall be determined by scaling distances on the Official Floodplain Zoning Map. When an interpretation is needed as to the exact location of a boundary, the Zoning Director shall make the necessary interpretation. The Board of Adjustment shall hear and decide appeals when it is alleged that there is an error in any requirement, decision, or determination made by the Zoning Director in the enforcement or administration of this Ordinance.
- D. Compliance. No structure or land shall hereafter be used and no structure shall be located, extended, converted or structurally altered without full compliance with the terms of this Ordinance and other applicable regulations which apply to uses within the jurisdiction of this Ordinance.
- E. Abrogation and Greater Restrictions. It is not intended by this Ordinance to repeal, abrogate or impair any existing easements, covenants, or deed restrictions. However, where this Ordinance imposes greater restrictions, the provision of this Ordinance shall prevail. All other ordinances inconsistent with this Ordinance are hereby repealed to the extent of the inconsistency only.
- F. Interpretation. In their interpretation and application, the provisions of this Ordinance shall be held to be minimum requirements and shall be liberally construed in favor of the governing body and shall not be deemed a limitation or repeal of any other powers granted by State statutes.
- G. Warning and Disclaimer of Liability. The standards required by this Ordinance are considered reasonable for regulatory purposes. This Ordinance does not imply that areas outside the designated Floodplain (Overlay) District areas will be free from flooding or flood damages. This Ordinance shall not create liability on the part of Woodbury County or any officer or employee thereof for any flood damages that result from reliance on this Ordinance or any administrative decision lawfully made there under.
- H. Severability. If any section, clause, provision or portion of this Ordinance is adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of this Ordinance shall not be affected thereby.

**4. Administration**

**A. Appointment, Duties and Responsibilities of Local Official**

- (1) The Zoning Director is hereby appointed to implement and administer the provisions of this Ordinance and will herein be referred to as the Administrator.
- (2) Duties and responsibilities of the Administrator shall include, but not necessarily be limited to the following:
  - (a) Review all floodplain development permit applications to assure that the provisions of this Ordinance will be satisfied.
  - (b) Review floodplain development applications to assure that all necessary permits have been obtained from federal, state and local governmental agencies including approval when required from the Department of Natural Resources for floodplain construction.
  - (c) Record and maintain a record of (i) the elevation (in relation to North American Vertical Datum 1988 of the lowest floor (including basement) of all new or substantially improved structures or (ii) the elevation to which new or substantially improved structures have been floodproofed.
  - (d) Notify adjacent communities/counties and the Department of Natural Resources prior to any proposed alteration or relocation of a watercourse and submit evidence of such notifications to the Federal Emergency Management Agency.
  - (e) Keep a record of all permits, appeals and such other transactions and correspondence pertaining to the administration of this Ordinance.
  - (f) Submit to the Federal Insurance Administrator an annual report concerning the community's participation, utilizing the annual report form supplied by the Federal Insurance Administrator.
  - (g) Notify the Federal Insurance Administration of any annexations or modifications to the community's boundaries.
  - (h) Review subdivision proposals to ensure such proposals are consistent with the purpose of this ordinance and advise the Zoning Commission of potential conflict.
  - (i) Maintain the accuracy of the community's Flood Insurance Rate Maps when;
    - (i) Development placed within the Floodway (Overlay) District results in any of the following:
      - (1) An increase in the Base Flood Elevations, or
      - (2) Alteration to the floodway boundary
    - (ii) Development placed in Zones A, AE, AH, and A1-30 that does not include a designated floodway that will cause a rise of more than one foot in the base elevation; or
    - (iii) Development relocates or alters the channel.

## SUPPLEMENTAL REQUIREMENTS

Within 6 months of the completion of the development, the applicant shall submit to FEMA all scientific and technical data necessary for a Letter of Map Revision.

- (j) Perform site inspections to ensure compliance with the standards of this Ordinance.
- (k) Forward all requests for Variances to the Board of Adjustment for consideration. Ensure all requests include the information ordinarily submitted with applications as well as any additional information deemed necessary to the Board of Adjustment.

### B. Floodplain Development Permit

- (1) Permit Required - A Floodplain Development Permit issued by the Administrator shall be secured prior to any floodplain development (any man-made change to improved and unimproved real estate, including but not limited to buildings or other structures, mining, filling, grading, paving, storage of materials and equipment, excavation or drilling operations), including the placement of factory-built homes..
- (2) Application for Permit - Application shall be made on forms furnished by the Administrator and shall include the following:
  - (a) Description of the work to be covered by the permit for which application is to be made.
  - (b) Description of the land on which the proposed work is to be done (i.e., lot, block, track, street address or similar description) that will readily identify and locate the work to be done.
  - (c) Location and dimensions of all structures and additions
  - (d) Indication of the use or occupancy for which the proposed work is intended.
  - (e) Elevation of the base flood.
  - (f) Elevation (in relation to North American Vertical Datum 1988 of the lowest floor (including basement) of structures or of the level to which a structure is to be floodproofed.
  - (g) For structures being improved or rebuilt, the estimated cost of improvements and market value of the structure prior to the improvements.
  - (h) Such other information as the Administrator deems reasonably necessary (e.g., drawings or a site plan) for the purpose of this Ordinance.
- (3) Action on Permit Application - The Administrator shall, within a reasonable time, make a determination as to whether the proposed floodplain development meets the applicable standards of this Ordinance and shall approve or disapprove the application. For disapprovals, the applicant shall be informed, in writing, of the specific reasons therefore. The Administrator shall not issue permits for variances except as directed by the County Board of Adjustment.

## SUPPLEMENTAL REQUIREMENTS

- (4) Construction and Use to be as Provided in Application and Plans - Floodplain Development Permits based on the basis of approved plans and applications authorize only the use, arrangement, and construction set forth in such approved plans and applications and no other use, arrangement or construction. Any use, arrangement, or construction at variance with that authorized shall be deemed a violation of this Ordinance. The applicant shall be required to submit certification by a professional engineer or land surveyor, as appropriate, registered in the State of Iowa, that the finished fill, structure floor elevations, floodproofing, or other flood protection measures were accomplished in compliance with the provisions of this Ordinance, prior to the use or occupancy of any structure.

**5. Establishment of Zoning (Overlay) Districts.** The floodplain areas within the jurisdiction of this ordinance are hereby divided into the following districts:

- A. Floodway (Overlay) District (FW) – those areas identified as Floodway on the Official Flood Plain Zoning Map;
- B. Floodway Fringe (Overlay) District (FF) – those areas identified as Zone AE on the Official Flood Plain Zoning Map but excluding those areas identified as Floodway;
- C. General Floodplain (Overlay) District (GF) – those areas identified as Zone A on the Official Flood Plain Zoning Map, and;
- D. Shallow Flooding (Overlay) District (SF) – those areas identified as Zone AO or AH on the Official Flood Plain Zoning Map.

The boundaries shall be as shown on the Official Floodplain Zoning Map. Within these districts, all uses not allowed as Permitted Uses are prohibited unless a variance to the terms of this ordinance is granted after due consideration by the Board of Adjustment.

### **6. Floodway (Overlay) District (FW)**

#### A. Permitted Uses

All development within the Floodway District shall be permitted to the extent that they are not prohibited by any other ordinance (or underlying zoning district) and provided they meet applicable performance standards of the Floodway District.

#### B. Performance Standards

All Floodway District uses allowed as a Permitted Use shall meet the following standards.

- (1) No development shall be permitted in the Floodway District that would result in any increase in the base flood elevation. Consideration of the effects of any development on flood levels shall be based upon the assumption that an equal degree of development would be allowed for similarly situated lands.
- (2) All development within the Floodway District shall:
  - (a) Be consistent with the need to minimize flood damage.
  - (b) Use construction methods and practices that will minimize flood damage.
  - (c) Use construction materials and utility equipment that are resistant to flood damage.

## SUPPLEMENTAL REQUIREMENTS

- (3) No development shall affect the capacity or conveyance of the channel or floodway of any tributary to the main stream, drainage ditch or any other drainage facility or system.
- (4) Structures, buildings, recreational vehicles, and sanitary and utility systems, if permitted, shall meet the applicable performance standards of the Floodway Fringe District and shall be constructed or aligned to present the minimum possible resistance to flood flows.
- (5) Structures, if permitted, shall have low flood damage potential and shall not be for human habitation.
- (6) Storage of materials or equipment that are buoyant, flammable, explosive or injurious to human, animal or plant life is prohibited. Storage of other material may be allowed if readily removable from the Floodway District within the time available after flood warning.
- (7) Watercourse alterations or relocations (channel changes and modifications) must be designed to maintain the flood carrying capacity within the altered or relocated portion. In addition, such alterations or relocations must be approved by the Department of Natural Resources.
- (8) Any fill allowed in the floodway must be shown to have some beneficial purpose and shall be limited to the minimum amount necessary.
- (9) Pipeline river or stream crossings shall be buried in the streambed and banks or otherwise sufficiently protected to prevent rupture due to channel degradation and meandering or due to the action of flood flows.

### **7. Floodway Fringe (Overlay) District (FF)**

#### **A. Permitted Uses**

All development within the Floodway Fringe District shall be permitted to the extent that they are not prohibited by any other ordinance (or underlying zoning district) and provided they meet applicable performance standards of the Floodway Fringe District.

#### **B. Performance Standards**

All development must be consistent with the need to minimize flood damage and meet the following applicable performance standards. Until a regulatory floodway is designated, no development may increase the Base Flood Elevation more than one (1) foot. The applicant will be responsible for providing the Department of Natural Resources with sufficient technical information to make such determination.

(1) All development shall:

- (a) Be designed and adequately anchored to prevent flotation, collapse or lateral movement.
- (b) Use construction methods and practices that will minimize flood damage.
- (c) Use construction materials and utility equipment that are resistant to flood damage.

## SUPPLEMENTAL REQUIREMENTS

- (2) Residential structures - All new or substantially improved residential structures shall have the lowest floor, including basement, elevated a minimum of one (1) foot above the base flood elevation. Construction shall be upon compacted fill which shall, at all points, be no lower than 1.0 ft. above the base flood elevation and extend at such elevation at least 18 feet beyond the limits of any structure erected thereon. Alternate methods of elevating (such as piers or extended foundations) may be allowed where existing topography, street grades, or other factors preclude elevating by fill. In such cases, the methods used must be adequate to support the structure as well as withstand the various forces and hazards associated with flooding.

All new residential structures located in areas that would become isolated due to flooding of surrounding ground shall be provided with a means of access that will be passable by wheeled vehicles during the base flood. However, this criterion shall not apply where the Administrator determines there is sufficient flood warning time for the protection of life and property. When estimating flood warning time, consideration shall be given to the criteria listed in 567-75.2(3), Iowa Administrative Code.

- (3) Non-residential structures - All new or substantially improved non-residential structures shall have the lowest floor (including basement) elevated a minimum of one (1) foot above the base flood elevation, or together with attendant utility and sanitary systems, be floodproofed to such a level. When floodproofing is utilized, a professional engineer registered in the State of Iowa shall certify that the floodproofing methods used are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the base flood; and that the structure, below the base flood elevation is watertight with walls substantially impermeable to the passage of water. A record of the certification indicating the specific elevation (in relation to North American Vertical Datum 1988 to which any structures are floodproofed shall be maintained by the Administrator.

- (4) All new and substantially improved structures:

- (a) Fully enclosed areas below the "lowest floor" (not including basements) that are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or meet or exceed the following minimum criteria:
- (i) A minimum of two (2) openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided.
  - (ii) The bottom of all openings shall be no higher than one foot above grade.
  - (iii) Openings may be equipped with screens, louvers, valves, or other coverings or devices provided they permit the automatic entry and exit of floodwaters.

## SUPPLEMENTAL REQUIREMENTS

Such areas shall be used solely for parking of vehicles, building access and low damage potential storage.

- (b) New and substantially improved structures must be designed (or modified) and adequately anchored to prevent flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.
- (c) New and substantially improved structures shall be constructed with electric meter, electrical service panel box, hot water heater, heating, air conditioning, ventilation equipment (including ductwork), and other similar machinery and equipment elevated (or in the case on non-residential structures, optionally floodproofed to) a minimum of one (1) foot above the base flood elevation.
- (d) New and substantially improved structures shall be constructed with plumbing, gas lines, water/gas meters and other similar service utilities either elevated (or in the case of non-residential structures, optionally floodproofed to) a minimum of one (1) foot above the base flood elevation or designed to be watertight and withstand inundation to such a level.

### (5) Factory-built homes:

- (a) All new and substantially improved factory-built homes, including those placed in existing factory-built home parks or subdivisions, shall be elevated on a permanent foundation such that the lowest floor of the structure is a minimum of one (1) foot above the base flood elevation.
- (b) All new and substantially improved factory-built homes, including those placed in existing factory-built home parks or subdivisions, shall be anchored to resist flotation, collapse, or lateral movement. Anchorage systems may include, but are not limited to, use of over-the-top or frame ties to ground anchors as required by the State Building Code.

### (6) Utility and Sanitary Systems:

- (a) On-site wastewater disposal and water supply systems shall be located or designed to avoid impairment to the system or contamination from the system during flooding.
- (b) All new and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the system as well as the discharge of effluent into flood waters. Wastewater treatment facilities (other than on-site systems) shall be provided with a level of flood protection equal to or greater than one (1) foot above the base flood elevation.
- (c) New or replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system. Water supply treatment facilities (other than on-site systems) shall be provided with a level of protection equal to or greater than one (1) foot above the base flood elevation.
- (d) Utilities such as gas or electrical systems shall be located and constructed to minimize or eliminate flood damage to the system and the risk associated with such flood damaged or impaired systems.

## SUPPLEMENTAL REQUIREMENTS

- (7) Storage of materials and equipment that are flammable, explosive or injurious to human, animal or plant life is prohibited unless elevated a minimum of one (1) foot above the base flood elevation. Other material and equipment must either be similarly elevated or (i) not be subject to major flood damage and be anchored to prevent movement due to flood waters or (ii) be readily removable from the area within the time available after flood warning.
- (8) Flood control structural works such as levees, flood walls, etc. shall provide, at a minimum, protection from the base flood with a minimum of 3 ft. of design free-board and shall provide for adequate interior drainage. In addition, the Department of Natural Resources shall approve structural flood control works.
- (9) Watercourse alterations or relocations must be designed to maintain the flood carrying capacity within the altered or relocated portion. In addition, such alterations or relocations must be approved by the Department of Natural Resources.
- (10) Subdivisions (including factory-built home parks and subdivisions) shall be consistent with the need to minimize flood damages and shall have adequate drainage provided to reduce exposure to flood damage. Development associated with subdivision proposals (including the installation of public utilities) shall meet the applicable performance standards of this Ordinance. Subdivision proposals intended for residential use shall provide all lots with a means of access which will be passable by wheeled vehicles during the base flood. Proposals for subdivisions greater than five (5) acres or fifty (50) lots (whichever is less) shall include base flood elevation data for those areas located within the Floodway Fringe (Overlay) District.
- (11) Accessory Structures to Residential Uses
  - (a) 1) Detached garages, sheds, and similar structures that are incidental to a residential use are exempt from the base flood elevation requirements where the following criteria are satisfied:
    - (i) The structure shall be designed to have low flood damage potential. Its size shall not exceed 600 sq. ft. in size. Those portions of the structure located less than 1 foot above the base flood elevation must be constructed of flood-resistant materials.
    - (ii) The structure shall be used solely for low flood damage potential purposes such as vehicle parking and limited storage. The structure shall not be used for human habitation.
    - (iii) The structure shall be constructed and placed on the building site so as to offer minimum resistance to the flow of floodwaters.
    - (iv) The structure shall be firmly anchored to prevent flotation, collapse, and lateral movement which may result in damage to other structures.
    - (v) e. The structure's service facilities such as electrical and heating equipment shall be elevated or floodproofed to at least one foot above the base flood elevation.
    - (vi) f. The structure's walls shall include openings that satisfy the provisions of 5.03-7 B (4)(a) of this Ordinance.

## SUPPLEMENTAL REQUIREMENTS

- b. 2) Exemption from the base flood elevation requirements for such a structure may result in increased premium rates for flood insurance coverage of the structure and its contents.

### (12) Recreational Vehicles

- (a) Recreational vehicles are exempt from the requirements of subsection 5.03-7 B (5) of this Ordinance regarding anchoring and elevation of factory-built homes when the following criteria are satisfied.

- (i) The recreational vehicle shall be located on the site for less than 180 consecutive days, and,
- (ii) The recreational vehicle must be fully licensed and ready for highway use. A recreational vehicle is ready for highway use if it is on its wheels or jacking system and is attached to the site only by quick disconnect type utilities and security devices and has no permanently attached additions.

- (b) Recreational vehicles that are located on the site for more than 180 consecutive days or are not ready for highway use must satisfy requirements of subsection 5.03-7 B (5) of this Ordinance regarding anchoring and elevation of factory-built homes.

- (13) Pipeline river and stream crossings shall be buried in the streambed and banks, or otherwise sufficiently protected to prevent rupture due to channel degradation and meandering.

- (14) Maximum Damage Potential Development – All new or substantially improved maximum damage potential development shall have the lowest floor (including basement) elevated a minimum of one (1) foot above the elevation of the 500-year flood, or together with attendant utility and sanitary systems, be floodproofed to such a level. When floodproofing is utilized, a professional engineer registered in the State of Iowa shall certify that the floodproofing methods used are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the 0.2% annual chance flood; and that the structure, below the 0.2% annual chance flood elevation is watertight with walls substantially impermeable to the passage of water. A record of the certification indicating the specific elevation (in relation to North American Vertical Datum 1988 to which any structures are floodproofed shall be maintained by the Administrator. Where 0.2% chance flood elevation data has not been provided in the Flood Insurance Study, the Iowa Department of Natural Resources shall be contacted to compute such data. The applicant will be responsible for providing the Department of Natural Resources with sufficient technical information to make such determinations.

**8. General Floodplain (Overlay) District (GF)**

**A. Permitted Uses**

(1) All development within the General Floodplain District shall be permitted to the extent that they are not prohibited by any other ordinance (or underlying zoning district) and provided they meet the applicable performance standards of the General Floodplain District.

(2) Any development which involves placement of structures, factory-built homes, fill or other obstructions, storage of materials or equipment, excavation or alteration of a watercourse shall be reviewed by the Department of Natural Resources to determine (i) whether the land involved is either wholly or partly within the floodway or floodway fringe and (ii) the base flood elevation. The applicant shall be responsible for providing the Department of Natural Resources with sufficient technical information to make the determination.

(3) Review by the Iowa Department of Natural Resources is not required for the proposed construction of new or replacement bridges or culverts where:

(a) The bridge or culvert is located on a stream that drains less than one hundred (100) square miles, and

(b) The bridge or culvert is not associated with a channel modification that constitutes a channel change as specified in 567-71.2(1)b, Iowa Administrative Code.

**B. Performance Standards**

(1) All development, or portions thereof, to be located in the floodway as determined by the Department of Natural Resources shall meet the applicable provisions and standards of the Floodway (Overlay) District subsection 5.03-6.

(2) All development, or portions thereof, to be located in the floodway fringe as determined by the Department of Natural Resources shall meet the applicable provisions and standards of the Floodway Fringe (Overlay) District subsection 5.03-7.

**9. Shallow Flooding (Overlay) District (SF)**

**A. Permitted Uses.** All development within the Shallow Flooding District shall be permitted to the extent that it is not prohibited by any other ordinance (or underlying zoning district) and provided they meet the applicable performance standards of the Shallow Flooding District.

**B. Performance Standards.** The performance standards for the Shallow Flooding District shall be the same as the performance standards for the Floodway Fringe District with the following exceptions:

(1) In shallow flooding areas designated as an AO Zone on the Flood Insurance Rate Map, the minimum floodproofing/flood protection elevation shall be equal to the number of feet as specified on the FIRM (or a minimum of 2.0 ft. if no number is specified) above the highest natural grade adjacent to the structure.

(2) In shallow flooding areas designated as an AH Zone on the Flood Insurance Rate Map, the minimum floodproofing/flood protection elevation shall be equal to the elevation as specified on the FIRM.

- (3) In shallow flooding areas designated as either an AH or AO Zone on the Flood Insurance Rate Map, drainage paths are required around structures on slopes to adequately guide floodwaters around and away from proposed structures.

**10. Appointment and Duties of Board of Adjustment**

A Board of Adjustment is hereby established which shall hear and decide (i) appeals, and (ii) requests for variances to the provisions of this ordinance, and shall take any other action which is required of the Board.

- A. Appeals - Where it is alleged there is any error in any order, requirement, decision, or determination made by an administrative official in the enforcement of this ordinance, the aggrieved party may appeal such action. The notice of appeal shall be filed with the Board of Adjustment and with the official from whom the appeal is taken and shall set forth the specific reason for the appeal. The official from whom the appeal is taken shall transmit to the Board of Adjustment all the documents constituting the record upon which the action appealed from was taken.
- B. Variance - The Board of Adjustment may authorize upon request in specific cases such variances from the terms of this Ordinance that will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of this Ordinance will result in unnecessary hardship. Variances granted must meet the following applicable standards.
  - (1) Variances shall only be granted upon: (i) a showing of good and sufficient cause, (ii) a determination that failure to grant the variance would result in exceptional hardship to the applicant, and (iii) a determination that the granting of the variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public or conflict with existing local codes or ordinances.
  - (2) Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood would result. Consideration of the effects of any development on flood levels shall be based upon the assumption that an equal degree of development would be allowed for similarly situated lands.
  - (3) Variances shall only be granted upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.
  - (4) In cases where the variance involves a lower level of flood protection for structures than what is ordinarily required by this Ordinance, the applicant shall be notified in writing over the signature of the Administrator that: (i) the issuance of a variance will result in increased premium rates for flood insurance up to amounts as high as \$25 for \$100 of insurance coverage and (ii) such construction increases risks to life and property.
  - (5) All variances granted shall have the concurrence or approval of the Department of Natural Resources.
- C. Hearings and Decisions of the Board of Adjustment
  - (1) Hearings. Upon the filing with the Board of Adjustment of an Appeal or a request for a Variance, the Board shall hold a public hearing. The Board shall

## SUPPLEMENTAL REQUIREMENTS

fix a reasonable time for the hearing and give public notice thereof, as well as due notice to parties in interest. At the hearing, any party may appear in person or by agent or attorney and present written or oral evidence. The Board may require the appellant or applicant to provide such information as is reasonably deemed necessary and may request the technical assistance and/or evaluation of a professional engineer or other expert person or agency, including the Department of Natural Resources.

(2) Decisions. The Board shall arrive at a decision on an Appeal or Variance within a reasonable time. In passing upon an Appeal, the Board may, so long as such action is in conformity with the provisions of this ordinance, reverse or affirm, wholly or in part, or modify the order, requirement, decision, or determination appealed from, and it shall make its decision, in writing, setting forth the findings of fact and the reasons for its decision. In granting a Variance, the Board shall consider such factors as contained in this section and all other relevant sections of this ordinance and may prescribe such conditions as contained in 5.03-10 C(2)(b).

(a) Factors Upon Which the Decision of the Board of Adjustment Shall be Based. In passing upon applications for Variances, the Board shall consider all relevant factors specified in other sections of this Ordinance and:

- (i) The danger to life and property due to increased flood heights or velocities caused by encroachments.
- (ii) The danger that materials may be swept on to other land or downstream to the injury of others.
- (iii) The proposed water supply and sanitation systems and the ability of these systems to prevent disease, contamination and unsanitary conditions.
- (iv) The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner.
- (v) The importance of the services provided by the proposed facility to the County.
- (vi) The requirements of the facility for a floodplain location.
- (vii) The availability of alternative locations not subject to flooding for the proposed use.
- (viii) The compatibility of the proposed use with existing development and development anticipated in the foreseeable future.
- (ix) The relationship of the proposed use to the comprehensive plan and floodplain management program for the area.
- (x) The safety of access to the property in times of flood for ordinary and emergency vehicles.
- (xi) The expected heights, velocity, duration, rate of rise and sediment transport of the flood water expected at the site.
- (xii) The cost of providing governmental services during and after flood conditions, including maintenance and repair of public utilities

## SUPPLEMENTAL REQUIREMENTS

(sewer, gas, electrical and water systems), facilities, streets and bridges.

- (xiii) Such other factors which are relevant to the purpose of this Ordinance.
- (b) Conditions Attached to Variances - Upon consideration of the factors listed above, the Board of Adjustment may attach such conditions to the granting of variances as it deems necessary to further the purpose of this Ordinance. Such conditions may include, but not necessarily be limited to:
- (i) Modification of waste disposal and water supply facilities.
  - (ii) Limitation of periods of use and operation.
  - (iii) Imposition of operational controls, sureties, and deed restrictions.
  - (iv) Requirements for construction of channel modifications, dikes, levees, and other protective measures, provided such are approved by the Department of Natural Resources and are deemed the only practical alternative to achieving the purpose of this Ordinance.
  - (v) Floodproofing measures. Floodproofing measures shall be designed consistent with the flood protection elevation for the particular area, flood velocities, durations, rate of rise, hydrostatic and hydrodynamic forces, and other factors associated with the regulatory flood. The Board of Adjustment shall require that the applicant submit a plan or document certified by a registered professional engineer that the floodproofing measures are consistent with the regulatory flood protection elevation and associated flood factors for the particular area.
- (3) Appeals to the Court - Any person or persons, jointly or severally, aggrieved by any decision of the Board of Adjustment may present to a court of record a petition, duly verified, setting forth that such decision is illegal, in whole or in part, specifying the grounds of the illegality. Such petition shall be presented to the court within thirty days after the filing of the decision in the office of the Board.

### 11. Nonconforming Uses

- A. A structure or the use of a structure or premises which was lawful before the passage or amendment of this Ordinance, but which is not in conformity with the provisions of this Ordinance, may be continued subject to the following conditions:
- (1) If such use is discontinued for six (6) consecutive months, any future use of the building premises shall conform to this Ordinance.
  - (2) Uses or adjuncts thereof that are or become nuisances shall not be entitled to continue as nonconforming uses.

## SUPPLEMENTAL REQUIREMENTS

- (3) If any nonconforming use or structure is destroyed by any means, including flood, it shall not be reconstructed if the cost is more than fifty (50) percent of the market value of the structure before the damage occurred, unless it is reconstructed in conformity with the provisions of this Ordinance. This limitation does not include the cost of any alteration to comply with existing state or local health, sanitary, building or safety codes or regulations or the cost of any alteration of a structure listed on the National Register of Historic Places, provided that the alteration shall not preclude its continued designation.
- B. Except as provided in 5.03-11 A (2), any use which has been permitted as a Variance shall be considered a conforming use.

### 12. Penalties for Violation

Violations of the provisions of this Ordinance or failure to comply with any of the requirements (including violations of conditions and safeguards established in connection with grants of Variances) shall constitute a misdemeanor. Any person who violates this Ordinance or fails to comply with any of its requirements shall upon conviction thereof be fined not more than \$500 or imprisoned for not more than 30 days. Each day such violation continues shall be considered a separate offense. Nothing herein contained shall prevent Woodbury County from taking such other lawful action as is necessary to prevent or remedy violation.

### 13. Amendments

The regulations and standards set forth in this Ordinance may from time to time be amended, supplemented, changed, or repealed. No amendment, supplement, change, or modification shall be undertaken without prior approval of the Department of Natural Resources.

### **Section 5.04: Adult Use Regulations**

1. **Applicability.** The regulations in this section apply to adult uses as allowed in Section 3.03-4 (i.e., as allowed uses in the GI, General Industrial Zoning District) and hereby establish specific locational and development requirements intended to minimize potential negative secondary effects of those adult uses.
2. **Locational requirements.** No adult use shall be established less than 1000 feet from any of the following:
  - A. Any other adult use.
  - B. Residentially zoned or used property.
  - C. Public parks or recreational areas.
  - D. A church or similar place of religious worship or study.
  - E. A public or private elementary or secondary school.
  - F. A library, museum or other cultural facility.
  - G. A day care center.
  - H. An Interstate highway right-of-way.

- I. An incorporated city boundary.
3. **Measurement.** The separation distances required in Section 2 above shall be measured along a direct line from the closest point of the zoning lot containing the adult use to the closest point of the property containing the use or zoning district from which the adult use is to be separated.
4. **Operational requirements.** Other specific operational requirements for adult uses as established by separate ordinances adopted by the Board of Supervisors.

**Section 5.05: Telecommunication Towers**

1. **Intent.** Based upon the Communications Act of 1934, as amended by the Telecommunications Act of 1996 (the Act) grants the Federal Communications Commission (FCC) exclusive jurisdiction over certain aspects of telecommunication services. This section is intended to regulate towers, telecommunications facilities and antennas in the County in conformance with the Act without prohibiting or intending to prohibit any person from providing wireless telecommunication service. Telecommunication facilities, towers and antennas in the County shall be sited, to protect residential areas and land uses from potential adverse impact of installation of towers and antennas through careful design, siting, and camouflaging, to promote and encourage shared use / co-location of towers and other antenna support structures rather than the construction of additional single use towers, to avoid potential damage to property caused by towers, telecommunications facilities and antennas by ensuring such structures are soundly and carefully designed, constructed, modified, maintained, repaired and removed when no longer used or are determined to be structurally unsound and to ensure that towers and antennas are compatible with surrounding land uses.
2. **Definitions.** All terms in this Section which are not specifically defined herein shall be construed in accordance with the Communications Act of 1934, the Telecommunications Act of 1996 and the Rules and Regulations of the Federal Communications Commission (FCC). As used in this Section, the following terms shall have the following meanings:
  - A. Antenna -- A device, designed and intended for transmitting or receiving television, radio, or microwave signals, direct satellite service (including direct-to-home satellite service), and/or video programming services via multi-point distribution services.
  - B. Antenna Support Structure -- Any building or structure other than a tower which can be used for location of telecommunications facilities.
  - C. Drop zone -- The area within a radius of the base of a telecommunication tower specified by the professional design engineer to be the limit of physical damage from a structural failure. In the absence of a specification by the design engineer, the drop zone shall be assumed to be a circular area with radius equal to the combined height of the tower and any antennas for any free-standing tower or for a guyed tower, the combined length of the length of any guy wire and the distance from the base of the tower to the anchor point of the guy wire.
  - D. Satellite Dish Antenna -- An antenna consisting of a radiation element intended for transmitting or receiving television, radio, microwave, or radiation sig-

## SUPPLEMENTAL REQUIREMENTS

nals and supported by a structure with or without a reflective component to the radiating dish, usually circular in shape.

- E. Stealth -- Any telecommunications facility, tower, or antenna which is designed to enhance compatibility with adjacent land uses, including, but not limited to, architecturally screened roof-mounted antennas, antennas integrated into architectural elements, and towers designed to look other than a tower, such as light poles, power poles and trees
  - F. Telecommunication Tower -- A self-supporting lattice, guyed, or monopole structure that supports telecommunications facilities. The term tower shall not include amateur radio operator's equipment as licensed by the FCC or structure supporting an earth station antenna serving residential premises or dwelling units exclusively.
- 3. Location of Towers.** Telecommunication towers are allowed only as conditional uses as specified in subsection 3.03-4. No person shall develop, construct, or modify height of a tower upon any tract of land within the zoning jurisdiction of the County prior to approval of a conditional use by the Board of Adjustment pursuant to the procedures set forth in subsection 2.02-9.
- 4. Construction Standards for Towers**
- A. All towers, telecommunications facilities and antennas within the zoning jurisdiction of the County, after the effective date of this Ordinance, shall conform to this ordinance and all other construction standards set forth by the County, federal, and state law and applicable American National Standards Institute (ANSI).
  - B. Upon completion of construction of a tower and prior to the commencement of use, an engineer's certification that the tower is structurally sound and in conformance with all of the aforementioned applicable regulatory standards shall be filed in the Zoning Office.
- 5. Application to Develop a Tower.** In addition to the information required for a conditional use application in subsection 2.02-9.C, the application for a telecommunications tower conditional use shall include the following:
- A. The names, addresses and telephone numbers of all owners of other towers or useable antenna support structures within a one-mile radius of the proposed tower, including publicly and privately owned towers and structures.
  - B. An affidavit attesting to the fact that the applicant has made diligent but unsuccessful efforts to obtain permission to install or co-locate the applicant's telecommunications facilities on a tower or useable antenna support; or written technical evidence from an engineer that the applicant's telecommunications facilities cannot be installed or co-located on another tower or useable antenna support structure.
  - C. Color photo simulations showing the proposed location of the tower with a photo-realistic representation of the proposed tower as it would appear viewed from the nearest residentially used and / or zoned property and nearest roadway, street or highway.
  - D. Site Plan. Descriptions and diagrams of the proposed tower, telecommunications facilities and/or antenna, manufacturers literature including drop zone of the proposed tower, road right-of-way, appurtenances such as buildings,

## SUPPLEMENTAL REQUIREMENTS

driveways, parking areas, and fences or other security enclosures with significant detail to allow persons reviewing the application to understand the kind and nature of the proposed facility.

- E. A vicinity map indicating the site location with reference to identified roads and township, range and section numbers within two miles of the proposed telecommunication tower site.

### **6. Setbacks and Separation or Buffer Requirements**

- A. All towers shall be set back on all sides a distance equal to the drop zone or the zone district setback, whichever is greater. The height of the tower shall be measured from the grade at the foot of the base pad to the top of any telecommunications facilities. Setback requirements shall be measured from the base of the tower to the property line of the tract of land on which it is located or land within an easement.
- B. Towers exceeding two hundred (200) feet in height must be separated from all residentially zoned districts and occupied structures, other than those utilized by the tower owner, by a minimum of one hundred percent (100%) of the height of the proposed tower, whichever is greater.
- C. Separation between towers.
  - (1) Towers shall be separated from other towers by the larger drop zone of the towers.:
  - (2) The Board of Adjustment can approve multiple towers closer together to maximize their utility for the intended use.

**7. Structural Standards for Towers Adopted.** The Structural Standards for Steel Antenna Towers and Antenna Supporting Structures, 1991 Edition (ANSI/EIA/TIA 222-E-1991), as amended, is hereby adopted except such portions as are hereinafter deleted, modified, or amended by Ordinance and set forth in this Article of the Zoning Ordinance.

**8. Illumination.** Lighting of telecommunication towers shall comply with requirements of the Federal Aviation Administration (FAA). Towers may be equipped with dual mode lighting, unless red blinkers are the only light source used. Strobe lighting may be used only during daylight hours. Nonconforming telecommunication tower lighting systems must be brought into compliance with these requirements pursuant to Section 4.02-4. C.

**9. Security Fencing.** All self-supporting lattice or guyed towers shall be enclosed within a security fence or other structure designed to preclude unauthorized access. Monopole towers shall be designed and constructed in a manner which will preclude to the extent practical, unauthorized climbing of said structure.

**10. Exterior Finish.** Towers not requiring FAA painting or marking shall have an exterior finish which enhances compatibility with adjacent land uses, subject to review and approval by the Board of Adjustment as part of the application approval process. All towers that must be approved as a conditional use shall be stealth design unless stealth features are impractical or the cost of such features represents an undue burden on the applicant.

**11. Maintenance, Repair or Modification of Existing Towers.** All towers constructed or under construction on the date of approval of this Ordinance may continue in ex-

## SUPPLEMENTAL REQUIREMENTS

istence as a legal non-conforming structure and may be maintained or repaired without complying with any of the requirements of this Section. Nonconforming structures or uses may not be enlarged or the degree of nonconformance increased without complying with this Section, including applying for and obtaining a conditional use permit. Said application shall describe and specify all items which do not comply with this Section and may request, subject to final review and approval of the Board of Adjustment, an exemption from compliance as a part of the approval of the conditional use permit.

- 12. Inspections.** The owner of the telecommunication tower shall provide copies of any inspection reports resulting inspections of the tower required either by this section, any other governmental authority, or by the operational procedures of the owner. The County reserves the right to conduct inspection of towers, antenna support structures, telecommunications facilities and antenna upon reasonable notice to the tower owner or operator to determine compliance with this Section and to prevent structural and equipment failures and accidents which may cause damage, injuries or nuisances to the public. Inspections may be made to determine compliance with the County's Zoning Ordinances and any other construction standards set forth by the County, federal, and state law or applicable ANSI standards. County inspections shall be made by either an employee of the County's Zoning Office, Building Inspector, or a duly appointed independent representative of the County.
- 13. Maintenance.** All towers, antenna support structures, antennas and telecommunications facilities shall be maintained in good condition by the owner or operator so that the same does not constitute a nuisance to or a danger to the life or property of any person or the public.
- 14. Abandonment.** If any tower shall cease to be used for a period of one (1) year, the Zoning Office shall notify the tower owner that the site will be subject to determination by the Zoning Director that the site has been abandoned. Upon issuance of written notice to show cause by the Zoning Director, the tower owner shall have thirty (30) days to show preponderance of evidence that the tower has been in use or under repair during the period of apparent abandonment. In the event the tower owner fails to show that the tower has been in use or under repair during the relevant period, the Zoning Director shall issue a final determination of abandonment of the site and the tower owner shall have seventy-five (75) days thereafter to dismantle and move the tower. In the event the tower is not dismantled and removed, the tower shall be declared a public nuisance by the Zoning Director, or his/her designee and a written request shall be directed to the County Attorney to proceed to abate said public nuisance pursuant to authority of the Iowa Code and Woodbury County codes, and charge the costs thereof against the real estate on which the tower is located or the owner of record of the said real estate.
- 15. Satellite Dish Antennas.** In residentially zoned districts, satellite dish antennas may not exceed a diameter of ten feet

### **Section 5.06: Airport Hazard Area Height Restrictions.**

- 1. Purpose.** The purpose of airport hazard area height restrictions is to coordinate structure height limits with the airspace requirements for safe and efficient operation of aircraft using FAA regulated airport facilities such as the Sioux Gateway Airport.
- 2. Subarea height restrictions.** The airport hazard area is composed of the following defined sub-areas. The regulations set forth in this chapter shall control if they are

## SUPPLEMENTAL REQUIREMENTS

more restrictive than the underlying base zoning district regulations. No physical obstructions, including structures and trees, shall be permitted to encroach into the following described airport hazard area zones as illustrated on the Airport Height Limitation Map, dated September 18, 2006, on file in the Woodbury County Zoning Office:

- A. Instrument runway approach zone. For an instrument runway, the approach zone is the space above each of the following described planes:
    - (1) The initial plane has a slope of 50 horizontal to 1 vertical projected from a point 200 feet beyond the end of the runway for a distance of 10,000 feet with the shape of the plane to be a symmetrical trapezoid centered on an extension from the runway with a width of 1000 feet at its lowest point and a width of 4000 feet at its highest point; and
    - (2) The second plane has a slope of 40 horizontal to 1 vertical projected from the high end of the initial plane for an additional distance of 40,000 feet with the shape of the plane to be a symmetrical trapezoid centered on an extension from the runway with a width of 4000 feet at its lowest point and a width of 16,000 at its highest point.
  - B. Noninstrument approach zone. For an airport runway not designed to be used for instrument landings, the approach zone is the space above a plane with a slope of 40 horizontal to 1 vertical projected from a point 200 feet beyond the end of the runway for a distance of 10,000 feet with the shape of the plane to be a symmetrical trapezoid centered on an extension from the runway with a width of 500 feet at its lowest point and a width of 2500 feet at its highest point.
  - C. Transition zones. The transition zone is the space above the plane surfaces described by extending outward perpendicular to the centerline of each runway 5000 feet from the outer edge of the approach zone at a slope of 7 horizontal to 1 vertical.
  - D. Horizontal zone. The horizontal zone is the space above a horizontal plane 150 feet above the established airport elevation (1097 feet above mean sea level for the Sioux Gateway Airport) within an area described by lines connecting the tangents of and following arcs with radii of 10,000 feet from the center of the end of each runway.
  - E. Conical zone. The conical zone is the space above a surface described by radiating outward and upward from the perimeter of the horizontal zone at a ratio of 20 horizontal to 1 vertical for a horizontal distance of 4000 feet.
  - F. Exceptions: Nothing in this chapter shall be construed as prohibiting the growth, construction or maintenance of any tree or structure to a height of up to 45 feet above the surface of the ground.
3. **Use restrictions.** No use may be carried out within the airport hazard area that creates electrical interference for radio communications, causes glare or otherwise interferes with visibility, or otherwise endangers take-offs, landings or maneuvering of aircraft.
  4. **Definitions.** Unless specifically defined below, words or phrases used in this chapter shall be interpreted as defined in section 6.02 or as having the meanings they have in common usage as appropriate to give this chapter its most reasonable application.

## SUPPLEMENTAL REQUIREMENTS

- A. Airport – The Sioux Gateway Airport and any other airport facilities in or near Woodbury County that are operated in conformance with the Federal Aviation Administration regulations.
- B. Airport elevation – The highest point of the usable landing area at the airport, measured in feet above mean sea level. For the Sioux Gateway Airport, the airport elevation is 1097 feet above mean sea level,
- C. Airport hazard – Any physical object or use of land that obstructs the air space required for the flight of aircraft in landing or taking off at an airport or that is otherwise hazardous to flight of aircraft.
- D. Height – Elevation above mean sea level.
- E. Instrument runway – An airport runway that is equipped or will be equipped with electronic navigation aids to permit landings and take-offs by aircraft under conditions of limited visibility.
- F. Nonconforming use -- Any pre-existing structure, object of natural growth, or use of land which is inconsistent with the provisions of this chapter.
- G. Noninstrument runway -- A runway other than an instrument runway.
- H. Obstruction -- Any tangible, inanimate physical object, natural or artificial, that protrudes above the surface of the ground.
- I. Runway -- A designated portion of the airport, as herein defined, prepared for landing and takeoff of aircraft along the centerline of its longest dimension.
- J. Structure – Anything constructed, erected or placed on a fixed location on the ground or on another structure, specifically including buildings, walls, fences, signs, towers, and storage tanks, but excluding paving. Vehicles and other movable objects may be considered as structures if they are placed in a generally fixed location for a purpose other than transportation.
- K. Tree -- Any object of natural botanical growth.

### **Section 5.07: Special Event – RAGBRAI and Special Event – RAGBRAI with Alcohol**

1. **Purpose.** The purpose of this Ordinance is to assist county officials to control the public health and safety issues created by the infusion of a large number of people in the county by establishing regulations for vendors in the unincorporated areas of Woodbury County during the Des Moines Register's Annual Great Bicycle Ride Across Iowa (RAGBRAI).
2. **Definitions.**
  - A. RAGBRAI. The term RAGBRAI is an acronym for the Des Moines Register's Annual Great Bicycle Ride Across Iowa event.
  - B. Use, Temporary. A use permitted within a designated zoning district and established for a fixed period of time with the intent of terminating such use upon the expiration of the time period. In the case of RAGBRAI, when held in Woodbury County, Iowa, the temporary use shall be limited to a period of time starting no more than one day prior to the start of the official event date in Woodbury County and terminating no more than one day after the completion date of RAGBRAI in Woodbury County.

## SUPPLEMENTAL REQUIREMENTS

3. **Special Event – RAGBRAI.** The sale of food, beverages (excluding alcohol products), goods, and services during the designated timeframe of RAGBRAI when hosted in Woodbury County, Iowa is a temporary use and shall be limited to a period of time starting no more than one day prior to the start of the official event date in Woodbury County and terminating no more than one day after the end of said event. The temporary use shall only be conducted from private property and shall not be conducted from the right-of-way. Temporary uses for RAGBRAI may not be appropriate in every zoning district. Refer to the Section 3.03.4: Land Use Summary Table of Allowed Uses in each Zoning District for the appropriate zoning district. The sale of alcohol products is prohibited unless a Conditional Use Permit is obtained from the Woodbury County Board of Adjustment.
4. **Special Event – RAGBRAI with alcohol. Conditional Use Permit required.** If a property owner desires to offer alcohol as part of the Special Event – RAGBRAI, a conditional use permit application shall be submitted to the Community and Economic Development office as per the subsections 2.02.9 and 5.07 of the Zoning Ordinance. The application must come accompanied with a temporary site plan that shall show the location of all existing buildings, existing parking, proposed temporary tents, canopies, structures, and fences, proposed temporary parking, and other features as required by the Zoning Director.
5. **Documentation.** The property owner shall be responsible for obtaining and complying with all necessary federal, state and local permits including, but not limited to liquor licensing and submit all appropriate documentation to the Zoning Director for review and the Planning and Zoning Commission and Board of Adjustment if a conditional use permit is required.

**Section 5.08: Utility-Scale Solar Energy Systems (US-SES) Conditional Use**

1. **Statement of Intent.** The purpose of this Section is to regulate the construction, installation, and operation of Utility-Scale Solar Energy Systems (US-SES) in Woodbury County, in a manner that promotes economic development, protects property values, and ensures the protection of health, safety, and welfare while also avoiding adverse impacts to important areas such as agricultural lands, conservation lands, and other sensitive lands.

If this Section conflicts with any other provision of the Woodbury County Zoning Ordinance, this Section shall control.

2. **Definitions.** For use in this Section, certain terms or words used herein shall be interpreted or defined as follows:
  - A. **Applicant.** The person or entity submitting the application under this Section, which is normally expected to be the owner or operator of a US-SES, or the owner of the US-SES development.
  - B. **Conditional Use Permit (CUP).** A use that is allowed in conformance with the regulations of the zoning district in which it is located, if and only if, approved by the Board of Adjustment as provided in subsection 2.02-9. A CUP issued by the Woodbury County Board of Adjustment is required before associated building permit(s) can be issued in unincorporated Woodbury County.
  - C. **Concentrating Solar Power Systems.** A system that generates solar power by using mirrors, lenses, or similar reflecting surfaces to concentrate sunlight collected over large areas onto smaller focal areas. Concentrating solar power systems are prohibited.
  - D. **Feeder Circuits/Lines.** A power line or network of lines used as a collection system that carries energy produced by a solar energy system to an interconnection point like a substation. Feeder circuits are most often placed underground.
  - E. **Glare/Glint.** Light reflected off of a surface.
  - F. **Ground-Mounted System.** A system where a rack(s) of panels is mounted on concrete posts or poles anchored in the ground and are wired or plumbed to an adjacent home or structure.
  - G. **Interconnection.** Link between a generator of electricity and the electric grid. Interconnection typically requires connection via infrastructure such as power lines and a substation, as well as a legal agreement for the project to be connected to the grid.
  - H. **Module.** An individual unit comprised of multiple photovoltaic (PV) cells, with multiple modules used in a solar energy system.
  - I. **Mounting.** The method of anchoring solar energy system modules to the ground or a building.
  - J. **Non-Participating Landowner.** A landowner who has not signed a binding agreement with the Applicant/Developer/Owner of the US-SES project.

## SUPPLEMENTAL REQUIREMENTS

- K. **Occupied Residence.** A building designed for, and occupied on a regular basis (50% or more of the year, and is currently occupied or has been occupied in the last two years) as an abode.
- L. **Operator.** The entity or individual that operates a US-SES.
- M. **Owner.** The entity or entities with an equity interest in the US-SES, including their respective successors and assigns. Owner does not mean the landowner from whom a lease, easement, or other property right is acquired for locating the US-SES unless the landowner has an equity interest in the US-SES.
- N. **Participating Landowner.** A landowner under lease, easement or other binding property agreement with the applicant, developer, or owner of the US-SES.
- O. **Photovoltaic (PV) Cells.** Semiconductors which generate electricity whenever light strikes them; generally grouped on panels.
- P. **Project Area.** The geographic area encompassing all components of a US-SES project, including border fencing.
- Q. **Property Line.** The legal boundary between separately owned real estate parcels, and between privately owned parcels and public owned land or public right of way.
- R. **Setback.** The minimum distance from a certain object, structure or point to the edge of any part or component of the US-SES.
- S. **Solar Array.** Equipment used for private or utility scale solar energy systems. Can be mounted on primary or accessory structures, on a racking system affixed to the ground, or integrated as a mechanical or structural component of a structure.
- T. **Solar Collector.** A device, structure or part of a device or structure for which the primary purpose is to transform solar radiant energy into thermal, mechanical, chemical, or electrical energy.
- U. **Solar Easement.** An easement created to protect a solar project from encroachment by adjacent properties which would shade panels. See Iowa Code 564A.
- V. **Solar Energy.** Radiant energy received from the sun that can be collected in the form of heat or light by a solar collector.
- W. **Solar Energy Systems, Private.** An energy system that converts solar energy to usable thermal, mechanical, chemical, or electrical energy primarily for immediate onsite use that already has an existing principal use on the same parcel. Solar Energy Systems, Private shall be allowed only as a non-utility scale accessory use to a permitted principal use. Surplus energy sold back to a utility must comply with all applicable laws including but not limited to Section 199, Chapter 15.11(5) of Iowa Administrative Code, and all requirements of the Iowa Utilities Board. Systems can be mounted on primary or accessory structures, on a racking system affixed to the ground, or integrated as a mechanical or structural component of a structure.

## SUPPLEMENTAL REQUIREMENTS

- X. **Solar Energy Systems, Utility Scale (US-SES).** An energy system, commonly referred to as a “solar farm”, which converts solar energy to useable thermal, mechanical, chemical, or electrical energy primarily for transmission through the electrical grid for offsite use or wholesale and/or retail sale. Systems can be mounted on primary or accessory structures, on a racking system affixed to the ground, or integrated as a mechanical or structural component of a structure. Utility scale solar energy systems do not include concentrating solar power (CSP) systems.
  - Y. **Solar Panel.** 1) A grouping of photovoltaic cells used to generate electricity directly from sunlight. A grouping of these panels is called an array. 2) A panel circulating water or other liquid through tubes to collect, transfer and store the sun’s heat for domestic hot water and building heat.
  - Z. **Solar Storage Battery.** A device that stores energy from the sun and makes it available in an electrical form.
  - AA. **Solar Storage Unit.** A component of a solar energy device that is used to store solar-generated electricity or heat for later use.
  - BB. **Substation.** A facility that converts electricity produced by a generator like a solar energy system to a higher voltage, allowing for interconnection to high-voltage transmission lines.
  - CC. **System Height.** The height of a solar energy system, usually referring to ground mounted systems. Total system height is the measurement from the ground to the top of the mounting or modules associated with a system.
  - DD. **Transmission lines.** Power lines used to carry electricity from collection systems or substations over long distances.
3. **Applicability.** Section 5.08 applies to US-SES within unincorporated Woodbury County. It shall be unlawful to construct, erect, install, alter, locate, or operate any US-SES within unincorporated Woodbury County, without first obtaining a Conditional Use Permit from the Woodbury County Board of Adjustment.
- At all times, US-SES shall comply with the terms of the Conditional Use Permit, the agreements and plans associated with the Conditional Use Permit, and the Woodbury County Zoning Ordinance.
- 4. **Conditional Use Permit (CUP).** US-SES shall require a Conditional Use Permit within the General Industrial (GI) Zoning District. US-SES is prohibited in all other Zoning Districts in Woodbury County. This use shall be subject to the procedures and standards included in this Ordinance. Concentrating solar power systems are prohibited.
  - 5. **Application Materials.** In addition to all submittal requirements of a conditional use application, the application for a US-SES installation shall include the following information on the site plan or in narrative form, supplied by the utility scale installation owner, operator or contractor installing the structures:
    - A. The name and address of the applicant, as well as the proposed owners or operators of the project, including the contact information (name, address, telephone and email) of their authorized representatives. The ap-

## SUPPLEMENTAL REQUIREMENTS

plication shall designate the entity who requests the Conditional Use Permit.

- B. A certified abstractor listing of the names and mailing addresses of all owners of real property lying within one (1) mile from the subject property shall be provided with the application.
- C. Legal descriptions of all properties, leased and/or owned, identified to be part of the project area.
- D. Location and size of existing and proposed structures.
- E. Location and layout of vehicle parking, loading and queuing areas, street accesses, and driveways.
- F. Number, location and spacing of solar panels/arrays.
- G. Planned location of underground or overhead electric lines.
- H. Project development timeline which indicates how the applicant will inform adjacent property owners and interested stakeholders in the community.
- I. Pre-construction survey of nearby roads that may be impacted by construction of the facility.
- J. Flood hazard area designations
- K. Interconnection Agreement.
- L. Operation and Maintenance Plan.
- M. Decommissioning Plan.
- N. Soil Erosion and Sediment Control Plan
- O. Setback analysis showing the minimum setback requirements, or any agreed on greater setback provisions, are met by the project.
- P. Emergency Response Plan
- Q. Such other information as the Zoning Director may require to determine compliance with the provisions of this Ordinance.

**6. Requirements.** US-SES are subject to the following requirements:

- A. No application for a US-SES Conditional Use Permit shall be granted without first submitting all required information and documentation, and paying all associated fees to the County.
- B. **Setbacks.** The Zoning District Dimensional Standards of Section 3.04 shall apply.
- C. **Height.** A solar panel shall be no less than two (2) feet (Twenty-Four inches) off the ground. A solar panel shall not exceed twenty (20) feet in height above grade at maximum tilt of the solar panel(s).
- D. **Screening.** Project shall provide vegetative screening for all residences within 200 feet of the project boundaries.

(1) Applicant shall submit a screening plan for each residence within 200 feet of the project boundaries.

## SUPPLEMENTAL REQUIREMENTS

- (2) Screening may be waived by the owner of a residence. Waiver must be in writing and recorded.
  - (3) Screening may be waived by the Board of Adjustment upon submission of a viewshed study from the applicant demonstrating that the project is not within the viewshed of the dwelling due to topography, existing vegetation, or other factors. The point of reference used in the viewshed study shall be as close to the dwelling as possible.
  - (4) Any vegetative screening within the project boundaries shall be maintained throughout the life of the project by the project owner. Any screening on the dwelling property shall be maintained by the project owner for no less than twelve months.
  - (5) Deciduous trees shall have a minimum caliper of 1.5" when planted, shall be at least six (6) feet tall within three (3) years of installation, and shall have a minimum mature height of twelve (12) feet.
  - (6) Screening plans shall use no less than two varieties of tree.
- E. **Utility connections.** Reasonable efforts shall be made to place all utility connections from the solar installation underground, depending on appropriate soil conditions, shape and topography of the site, distance to the connection, or other conditions or requirements.
  - F. **Glare minimization.** All solar panels must be constructed to minimize glare or reflection onto adjacent properties and adjacent roadways and must not interfere with traffic, including air traffic, or create a safety hazard.
  - G. **Appurtenant structures.** All appurtenant structures shall be subject to bulk and height regulations of structures in the underlying zoning district.
  - H. **Floodplain considerations.** Utility scale solar installations are considered to be maximum damage potential structures and facilities for purposes of the floodplain district regulations.
  - I. **Fencing/security.** A security fence must be installed along all exterior sides of the utility scale solar installation and be equipped with a minimum of one gate and locking mechanism on the primary access side. Security fences, gates and warning signs must be maintained in good condition until the US-SES installation is dismantled and removed from the site.
  - J. **Compliance with local, state and federal regulations.** US-SES installations shall comply with applicable local, state and federal regulations.
  - K. **Submittal Requirements.** In addition to the requirements in Section 2.02.9, the applicant shall submit all required materials contained in this Section at the time of the application for a Conditional Use Permit.
7. **Permitting Process.** In addition to the items required for a conditional use permit application in subsection 2.02-9. C, the process for a US-SES conditional use permit shall include the following:
    - A. Application for approval of a permit to construct a US-SES shall be submitted to the Zoning Director on a permit application form provided by the Zoning Di-

## SUPPLEMENTAL REQUIREMENTS

rector and must include any additional information determined by the Zoning Director as necessary to demonstrate compliance with all applicable codes and requirements, along with the application fee, as established by resolution of the Board of Supervisors.

- B. As conditions for approval, the following agreements must be executed with Woodbury County:
    - (1) Decommissioning, Abandonment, Financial Security, and Site Restoration Plan
    - (2) Woodbury County Road Use and Repair Agreement
    - (3) Woodbury County Public Drainage System Protection Agreement
  - C. Distribution. The Zoning Director shall distribute copies of the application materials to the Planning and Zoning Commission and to the appropriate County departments, and public utilities for comment.
  - D. Staff Review. The appropriate county departments shall review the application and prepare reports of their findings and comments to the Planning and Zoning Commission prior to the review.
    - (1) To assure conformance with the goals and objectives of the county's comprehensive plan, the Zoning Director may make recommendations for conditions for approval including use restrictions required to preserve and improve the peace, safety, health, welfare, comfort, and convenience of the future residents of the subdivision and neighboring properties.
  - E. All US-SES permit applications shall require review by the Woodbury County Planning and Zoning Commission and approval by the Woodbury County Board of Adjustment following the standards and procedures for Conditional Uses as outlined in Section 2.02-9 of the Woodbury County Zoning Ordinance and shall follow the same schedule for submitting applications.
  - F. Expiration. A Conditional Use Permit issued by the Board of Adjustment for a US-SES shall expire at the end of one (1) year from issuance if a US-SES building permit has not been obtained from the Board of Supervisors as provided in subsection 5.08-8. After expiration, a new US-SES conditional use permit application would have to be filed and approved prior to application for a US-SES building permit.
8. **US-SES Building Permit Requirement.** In addition to the requirements of the Conditional Use Permit, each US-SES project must obtain an approved US-SES Building Permit from the Board of Supervisors prior to the start of any construction. An approved US-SES Building Permit shall be valid for one (1) year from the date of its issuance. The Zoning Department will supply a US-SES Building Permit application form to be used by any person or entity seeking to construct a US-SES project. The application shall contain:
- A. The name and address of the applicant, as well as the proposed owners or operators of the project, including the contact information (name, address, telephone and email) of their authorized representatives. The application shall designate the entity who will be the permit holder of the US-SES Building Permit.

## SUPPLEMENTAL REQUIREMENTS

- B. A Final Development Plan for the project, which shall contain aerial images of the entire proposed project area, showing the proposed location of the solar arrays, private access roads, feeder lines, substations and all other components of the project. The Plan shall show property lines and setback distances, as well as all public roads and public drainage district facilities (i.e. – ditches and underground tiles) in the project area. The Plan shall also identify any wind turbines, communication antennae, and airports (including private airstrips) located within five (5) miles of the project area; city boundaries within two (2) miles; and all lakes, permanent water courses and Public Conservation Areas within three (3) miles of the project area boundaries. In providing the above information, the Plan shall use a GPS coordinate system that is compatible with the County's geographical information and data systems. The Plan shall also include a mailing address for the owner of each communication antenna identified.
- C. Project details, including the name of the project, the final number of arrays, generating capacity, and all the requirements of the Conditional Use Permit application as included in this Section.
- D. Approval. Approval of the US-SES building permit by the Board of Supervisors shall be based upon findings that the proposed use of the site and the proposed location and dimensions of the structure(s) on the subject parcel(s) of real property comply with the zoning provisions of this ordinance, the conditions of the Conditional Use Permit and that no longer than one year has passed since the issuance of the Conditional Use Permit. The Board of Supervisors must also ensure that agreements and plans as outlined in this Section are in place as part of the building permit issuance process.
- E. Denial. If a building permit application is denied, the application shall be returned to the applicant with a written explanation of the reasons for the denial.
- F. Expiration. A building permit shall expire and become void if the construction or change in use of the property has not commenced within one year after issuance. If necessary, additional one-year renewals may be approved at the sole discretion of the Board of Supervisors.

### 9. Woodbury County Road Use and Repair Agreement

- A. **Roads.** Applicants shall adhere to the Woodbury County Road Use and Repair Agreement, and in doing so, shall identify all roads to be used for the purpose of transporting solar components, substation parts, cement, and/or equipment for construction, operation or maintenance of the solar installation and obtain applicable weight and size permits from the impacted road authority prior to construction.
- B. **Existing Road Conditions.** Applicants shall conduct a pre-construction survey, in coordination with the impacted local road authorities to determine existing conditions of roads identified pursuant to Section 6.1. The survey shall include photographs or video and written documentation of the condition of the identified road facilities. The applicant is responsible for on-going road maintenance and dust control measures identified by the County Engineer during all phases of construction.

**10. Woodbury County Public Drainage System Protection Agreement**

- A. Applicants shall adhere to the Woodbury County Public Drainage System Protection Agreement, and in doing so, shall be responsible for immediate repair of damage to public drainage systems stemming from construction, operation or maintenance of the US-SES (where required).

**11. Operation and Maintenance Plan.** The applicant shall submit a plan for the operation and maintenance of the solar installation including all necessary services, frequency of service, preventative maintenance measures, and monitoring. The operation and maintenance plan should include at a minimum:

- A. Preventative maintenance practices and schedules for all on-site equipment including but not limited to: inverters, panels, equipment pads, tracking systems, transformers, access entrances, internal roads, gates, fencing, security systems, stormwater management installations.
- B. Annual reporting and verification to the Zoning Director on the status or changes to ongoing service schedule.
- C. Schedule of all other monthly, annual, or semiannual reporting requirements for other submittals including: agricultural impact mitigation plan, decommissioning plan, and vegetation management plan.
- D. Noise. No operating solar energy equipment shall produce noise exceeding any of the following limitations, with the exception of initial construction and routine maintenance. Adequate setbacks and effective noise mitigating equipment shall be used to comply with these limitations:
  - (1) An hourly average noise level of fifty-five (55) dBA during the day (between sunrise and sunset), and an hourly average noise level of fifty (50) dBA at night (between sunset and sunrise), as measured at the occupied dwelling of any adjacent property containing an existing residential structure. If the ambient sound pressure level exceeds 55 dBA during the day or 50 dBA at night, the standard shall be the ambient Leq (equivalent continuous sound pressure level) plus 5 dBA.
  - (2) A baseline noise evaluation shall be completed by a board certified professional by the Institute of Noise Control Engineering (INCE), or an appropriately licensed Professional Engineer (PE) prior to construction of the proposed solar site.
  - (3) A post-construction noise evaluation shall be performed by a third-party board certified professional by the Institute of Noise Control Engineering (INCE), or an appropriately licensed Professional Engineer (PE) following commencement of commercial operation of the project to verify compliance with the County's standards.
  - (4) The owner(s) of adjacent properties within 500 feet may voluntarily agree, by written and recorded waiver, to a higher noise level.
- E. Issue resolution protocols. Contact information for responsible party to address issues that may arise (damaged equipment causing excessive noise, etc.).

## SUPPLEMENTAL REQUIREMENTS

- F. Disposal/recycling plan for damaged or obsolete facility equipment or hazardous waste. No storage of inoperable or obsolete equipment shall be allowed to remain on-site. Site operator shall be responsible for the cleanup of debris related to storm damage.
- G. Cleaning chemicals and solvents. During operation of the proposed installation, all chemicals or solvents used to clean photovoltaic panels should be low in volatile organic compounds and the operator should use recyclable or biodegradable products to the extent possible. Any on-site storage of chemicals or solvents shall be referenced.
- H. Maintenance, repair, or replacement of facility. Maintenance shall include, but not be limited to, painting, structural repairs, and integrity of security measures. Site access shall be maintained to a level acceptable to emergency response officials. Any retrofit, replacement or refurbishment of equipment shall adhere to all applicable local, state and federal requirements.
- I. Repowering. Proposals to replace more than twenty five percent (25%) of the panels in a facility within a twelve (12) month period will be required to submit a new Conditional Use Permit application based on the requirements in this ordinance for review and approval. A repowering event does not include replacement of panels in previously approved locations due to weather damage, equipment failure, or a force majeure event.
  - (1) The plan shall include updated information for some or all of the reports and plans required by this section, as determined necessary by the Zoning Director.
  - (2) The Board of Adjustment shall review and approve, conditionally approve, or deny the repowering plan as per the requirements of Sections 2.02.9 and 5.08.

### **12. Decommissioning, Abandonment, Financial Security, and Site Restoration Plan.**

- A. The application must include a decommissioning plan that describes the following:
  - (1) The anticipated life of the utility scale solar installation.
  - (2) The anticipated manner in which the project will be decommissioned, including plans to recycle components and dispose of any hazardous materials.
  - (3) The anticipated site restoration activities.
  - (4) The estimated decommissioning costs in current dollars.
  - (5) The method for ensuring that funds will be available for decommissioning and restoration of the site.
- B. Decommissioning cost considerations. The applicant shall provide the estimated cost of decommissioning, excluding the salvage value, should be presented from both the solar applicant and from an independent third-

## SUPPLEMENTAL REQUIREMENTS

party engineer, at the recommendation of the Woodbury County Engineer, at the expense of the applicant.

- (1) Removal of any hazardous materials at the facility, as determined by a Toxic Characteristic Leaching Procedure (TCLP) or other similar test approved by Woodbury County and as described in the facility's Operations and Maintenance Plan. TCLP testing shall be performed prior to any ground disturbance at the project site.
  - (2) Salvage value shall not be included in the cost estimate.
  - (3) The estimated decommissioning cost must be updated every 5 years of the project using the same process as the initial decommissioning cost process.
- C. Site restoration activities. Restoration activities shall include, but not be limited to, the following:
- (1) Removal of all components and equipment.
  - (2) Soil in project area shall be decompacted and seeded with a cover crop, unless otherwise specified in the approved vegetation plan and/or agricultural impact mitigation plan.
  - (3) For any part of the energy project on leased property, the plan may incorporate agreements with the landowner regarding leaving access roads, fences, gates or repurposed buildings in place or regarding restoration of agricultural crops or forest resource land. Any use of remaining structures must be in conformance with the regulations in effect at that time.
- D. Performance agreement and proof of financial surety. At the time of permitting, the applicant, facility owner, or site operator shall provide a Performance Agreement and accompanying financial surety instrument to cover the cost of decommissioning in accordance with the following:
- (1) Decommissioning funds shall be required in an amount of 125% of the most recent estimated decommissioning total cost paid for by the project owner/developer. The decommissioning funds shall remain in place until one (1) year after the last day of decommissioning unless sooner released by the Woodbury County Board of Supervisors
  - (2) Decommissioning funds shall be maintained in the form of a performance bond, surety bond, escrow account, bank letter of credit, stable parent company guarantee, or other form of financial assurance as approved by the Woodbury County Board of Supervisors. Any financial document evidencing the maintenance of the decommissioning funds shall include provisions for releasing the funds to the County or a contractor hired by the County in the event decommissioning is not timely completed as outlined herein.
  - (3) Prior to any ground disturbance, grading or construction activity on the site, one-hundred twenty-five percent (125%) of total es-

## SUPPLEMENTAL REQUIREMENTS

Estimated decommissioning costs shall be provided by any of the means listed above.

- (4) Financial surety shall be maintained for the life of the project.
  - (5) Proof of recertification of the financial surety instrument must be submitted to the County annually. The county shall be notified immediately if the financial security instrument is cancelled, lapses, or otherwise is no longer in effect.
  - (6) Every five (5) years, the facility owner or operator shall retain an independent Licensed Iowa Engineer approved by the County to re-estimate the total cost of decommissioning and attest that the value of the financial surety instrument is appropriate. This report shall be filed with the County and shall incorporate any new industry information learned since the last cost determination.
  - (7) The required amount of the decommissioning fund shall match the re-estimated cost of decommissioning. Within ninety (90) days of filing the re-estimation report with the County, the facility owner or operator shall cause the fund balance of the financial surety instrument to be adjusted to ensure that it matches 125% of the re-estimated decommissioning cost.
- E. Commencement of site decommissioning. Decommissioning of the site shall commence at the time identified in the project decommissioning plan or performance agreement, or when the facility is determined to have been abandoned.
- (1) Decommissioning shall be completed in accordance with the approved decommissioning plan.
  - (2) The landowner or tenant shall notify the Zoning Director both when the project is discontinued and when decommissioning is complete.
  - (3) Third-party verification, as well as County verification of completed decommissioning will be required before the financial surety may be released.
  - (4) The facility will be considered abandoned or out of commission in the following circumstances:
    1. Upon termination or expiration of the solar farm leases/easements; or
    2. After one year without production, storage of energy, or use as a backup facility; or
    3. Failure to comply with the terms of the Conditional Use Permit after written notice of infractions from the County and a period of no less than 90 days to allow the operator to bring the US-SES into compliance.
    4. Exceptions could be made for:

## SUPPLEMENTAL REQUIREMENTS

- a. A force majeure event that has occurred or is occurring, which will prevent the facility from resuming operation within 12 months.
- b. If the facility is in the process of being repowered.
- c. The project is pending completion of construction of the facility due to a backlog of cases or service requests in the MISO queue.
- d. A situation in which the project owner can provide evidence to the Woodbury County Board of Supervisors, that the facility's period of continuous inactivity is due to circumstances beyond the project owners control and that the facility has not been abandoned.
- e. Appeal of the notice of abandonment from the county within a set time of the project owner's receipt of the notice in which the project owner explains the reasons for operational difficulty and provides a timeframe for corrective action that the county deems reasonable.

**13. Soil Erosion and Sediment Control Plan.** A grading plan shall be submitted and shall include all proposed changes to the landscape of the site (e.g., clearing, grading, topographic changes, tree removal, etc.). The plan shall be accompanied with the following documentation:

**A. Erosion and Sediment Control**

- (1) The applicant agrees to conduct all roadwork and other site development work in compliance with a national pollutant discharge elimination system (NPDES) permit as required by the state department of natural resources and comply with requirements as detailed by local jurisdictional authorities during the plan submittal. If subject to NPDES requirements, the applicant must submit the permit for review and comment, and an erosion and sediment control plan before beginning construction. The plan must include both general 'best management practices' for temporary erosion and sediment control both during and after construction and permanent drainage and erosion control measures to prevent damage to local roads or adjacent areas and to prevent sediment-laden run-off into waterways.

**B. Stormwater Management Plan**

- (1) For the purposes of pollutant removal, stormwater rate and run-off management, flood reduction and associated impacts, the applicant shall provide a detailed analysis of pre- and post-development stormwater runoff rates for review by local jurisdictional authorities.

**14. Emergency Response Plan**

- A. The applicant shall submit an emergency response plan prior to any ground disturbance at the project site detailing the planned response ac-

## SUPPLEMENTAL REQUIREMENTS

tions that will be taken by the solar facility operator, including any battery energy storage systems in the event of an emergency situation. These actions are intended to minimize health risks to personnel and people in the surrounding community, as well as minimize adverse impacts to the environment.

- (1) The plan shall include, but is not limited to, a detailed narrative of response procedures and the facility representatives responsible for management of the following plausible contingencies that could occur at the facility: natural disaster/severe weather, fire, security incident, capacity/transmission, environmental, chemical, pipeline (if applicable), and medical. It shall include procedures for a site evacuation, designated egress routes and emergency staging areas.
- (2) The plan shall include a standalone section detailing the emergency response protocols specific to battery energy storage areas (if applicable).
- (3) The plan shall be developed in coordination with local first responders, Woodbury County Emergency Management & Siouxland District Health personnel.

### 15. Future Operators

- A. Future operators, successors, assignees, or heirs of an US-SES are subject to all conditions of the Conditional Use Permit, its associated agreements and plans, and this Ordinance. The holder of a US-SES Conditional Use Permit shall notify the County at least 90 days prior of the intent to sell or transfer or change operators of the US-SES.

### 16. Enforcement

#### A. Violations

- (1) It shall be unlawful to locate, erect, construct, reconstruct, alter, repair, convert, or maintain any building, land, or structure, or use any land, building or sign in violation of any regulation in, or any provisions of, this Section, or any amendment or supplement thereto, lawfully adopted by the County Board of Supervisors; or to fail to comply with any requirement or condition imposed by the Board of Adjustment.
- (2) Any person, firm or corporation found to be in violation of any provision of this Section shall be served written notice by the Zoning Director or designee stating the nature of the violation and providing a reasonable time limit for the satisfactory correction thereof. Such person shall, within the period of time stated in the notice, take all necessary action to correct the violation and shall permanently cease such violation.
- (3) Each day during which the violation continues shall be a separate violation.
- (4) A Notice of Violation may be served as a first attempt to gain compliance. If compliance is not met with the sending of a Notice of Violation then a Citation shall be served on the property

## SUPPLEMENTAL REQUIREMENTS

owner. The offender shall be provided a reasonable time, (not to exceed) thirty (30) days in which to correct the violation. A violation which occurs for a short period of time is observed and there is no other reasonable means for ensuring compliance, be served a citation immediately upon observation of a violation.

- (5) If the violation is not corrected, Woodbury County may seek such remedies, civil or criminal as are authorized by law.

### 17. Penalty

- A. The Zoning Director or designee may assess the maximum civil penalty per day for each violation allowed upon each violation, as outlined in the Woodbury County Zoning Ordinance that continues to exist.
- B. Remedies
  - (1) If work is being done in violation of any provision of this Section and continues beyond the date of notice and the work is not being done to correct a violation, an immediate stop-work order shall be issued by the Zoning Director. Such order shall be given to the owner of the property, the authorized agent(s), or the person or persons in charge of the activity on the property and shall be posted upon the property. The stop work order shall state the conditions under which work may be resumed.
  - (2) Violations by an individual or property owner will prohibit any additional permits for that property or other properties to be issued unless said permits will remedy abatement of the violation. Stop work orders will be placed on any work on other property in which the violator is operating or owns.
  - (3) If the Zoning Director determines that a violation is an immediate threat to public safety or welfare and the property owner or operator has failed to take corrective action within the time period stated in the notice provided, Woodbury County may take such remedial action as is necessary to protect the public safety or welfare. Such remedial action may include entering the property where a violation is present, correcting the violation, and placing a lien on the property to secure payment and reimbursement of any and all expenses incurred by Woodbury County to correct such violation.

Woodbury County may seek other such remedies, civil or criminal as are authorized by law.

## **ARTICLE 6. DEFINITIONS.**

### **Section 6.01: Construction of Terms.**

The following rules shall be applied in the interpretation of terms in these regulations, except when the context clearly requires otherwise.

1. Words used or defined in one tense or form shall include other tenses and derivative forms.
2. Words in the singular shall include the plural and the plural shall include the singular.
3. Words of one gender shall include the other gender.
4. The words “shall” and “must” are mandatory. “Shall” imposes a duty; “must” states a requirement.
5. The word “may” is permissive or confers a power.
6. The word “person” includes individuals, firms, corporations, partnerships, companies, associations and other similar legal entities.
7. Words not specifically defined herein should be construed according to context and normal usage of the language, except that technical words and phrases and other words which have acquired an appropriate meaning in law, shall be construed according to such meanings.
8. If there is a difference of meaning or implication between the text of these regulations and any heading, caption or illustration, the text shall control.
9. References to requirements of the “state code”, the Iowa Code or the Code of Iowa are synonymous and refer to the Code of Iowa, in effect on the date of adoption of these regulations.

### **Section 6.02: Definitions.**

When used in these regulations, the following terms shall have the following meanings ascribed to them, except when the context clearly requires otherwise.

1. **Abutting.** Bordering upon; having a contiguous boundary. Land parcels separated by a public right-of-way may be construed as abutting.
2. **Accessory Use.** See “Use, Accessory”.
3. **Accessory Structure (or building)** See “Structure, Accessory”.
4. **Adjacent.** Nearby, may or may not be abutting.
5. **Adult entertainment.** A business that features exhibition or performance, either live or by means of recorded images and/or sounds, of “specified sexual activities” or “specified anatomical areas”
6. **Adult product sales.** A business that has a substantial portion of its displayed merchandise or of the retail or wholesale value of its displayed merchandise; derives a substantial portion of its revenues; or maintains a substantial section of its sales or display space for the sale or rental of any type of merchandise intended for use in the execution of, or that is characterized by an emphasis upon, the exhibition or description of “specified sexual activities” or “specified anatomical areas.” The term “substantial portion” as used in this definition shall mean over 25 percent.

7. **Adult use.** A business that includes either an adult entertainment business or an adult product sales business.
8. **Agriculture.** The art or science of cultivating the ground, including harvesting of crops and rearing and management of livestock for production of plant crops and livestock for food, fiber and fuel.
9. **Airport.** Facilities for the takeoff and landing of aircraft, including runways, aircraft storage buildings, helicopter pads, air traffic control facilities, informational facilities and devices, terminal buildings, and airport auxiliary facilities, including fences, lighting and antennae systems, driveways, and access roads. This term includes aircraft maintenance facilities, aviation instruction facilities, and heliports when part of a larger airport facility.
10. **Animal, farm.** See Livestock.
11. **Antenna.** A system or device used to transmit or receive electromagnetic waves.
12. **Area.** Depending upon context, either a general space devoted to an identified use (i.e., parking area) or the two-dimensional measurement of a horizontal space on a floor or on the ground.
13. **Assisted living facility.** A residence for two or more tenants that provides rooms, meals, personal care and supervision of self-administered medications. Assisted living facilities may also provide other services such as recreational activities, financial services and transportation.
14. **Bar.** A commercial enterprise whose primary activity is the sale of alcoholic beverages to be consumed on the premises. Bars include taverns, cocktail lounge and similar facilities serving alcoholic beverages.
15. **Bed and breakfast lodging.** A transient lodging establishment, generally in a single-family dwelling or detached guesthouses, primarily engaged in providing overnight or otherwise temporary lodging for the general public and may provide meals.
16. **Billboard** (See Sign, Off-premise.)
17. **Board of Adjustment.** The board created in subsection 2.01-5 pursuant to requirements of Chapter 335 of the Iowa Code that has the authority to hear and decide upon appeals, variances, requests for interpretations of the requirements of this ordinance, and conditional use requests
18. **Board of Supervisors.** The duly elected Board of Supervisors for Woodbury County, Iowa.
19. **Borrow pit.** A site from which soil material is removed to be used as fill for landscaping, building or highway construction and maintenance and other similar activities.
20. **Buffer.** An area of land, including landscaping, berms, walls, fences, and building setbacks, that is located between land uses of different character that is intended to mitigate negative impacts of the more intense use on a less intensive use.
21. **Building.** A structure including walls or roof that is designed and used for the enclosure, shelter or protection of people, property or uses. Two or more buildings may be included in a single structure if the buildings are separated by a dividing fire-resistant wall with no openings.
22. **Commission.** (See Planning and Zoning Commission)

- 23. **Common area.** Land within a development, not individually owned or dedicated for public use, which is designed and intended for the common use or enjoyment of the tenants of the development.
- 24. **Comprehensive Plan.** (see General Development Plan)
- 25. **Conditional use** (see Use, Conditional)
- 26. **Conservation development.** A development technique that concentrates active uses together on smaller sites than might otherwise be required in order to conserve other portions of the site for either common area, natural areas or for agricultural uses.
- 27. **Conservation easement.** A nonpossessory interest in land that restricts the manner in which the land may be developed in an effort to conserve natural resources for future use.
- 28. **Convenience store.** A retail store with a floor area of less than 2,500 square feet that sells motor vehicle fuels and supplies as well as a variety of grocery, food and convenience items. Convenience stores do not include automotive service stations or vehicle repair shops.
- 29. **County.** Woodbury County, Iowa.
- 30. **Cul-de-sac.** A minor street having only one end open to traffic that is permanently terminated by a vehicular turnaround. Cul-de-sac may also refer to a paved circular turnaround at the end of such a dead-end street.
- 31. **Day care.** Care of children, or adults who require direction or physical care, by qualified personnel for less than 24 hours per day.
- 32. **Density (see Intensity).** A ratio of people or dwelling units to land area.
- 33. **Developer.** A person or other legal entity that is responsible for development
- 34. **Development.** Any man-made change, such as grading or construction, intended to make real property more suited to uses other than agriculture or natural area.
- 35. **Dimensional standards.** Requirements or limitations of building height, location, setback or yard dimensions, and maximum ground coverage.
- 36. **District.** (See Zoning District)
- 37. **Duplex** (see Dwelling, two-family)
- 38. **Dwelling.** A building or portion thereof, on a single zoning lot, intended or used for residential purposes, not including transient housing.
- 39. **Dwelling, Single-family.** A residential building used as a dwelling for one household.
- 40. **Dwelling, Multiple-family.** A residential building used as a dwelling for more than two households.
- 41. **Dwelling, Two-family.** A residential building used a dwelling for two households.
- 42. **Dwelling unit.** A building or portion of a building designed and used for residential purposes by a single household including cooking and toilet facilities for use by the household.

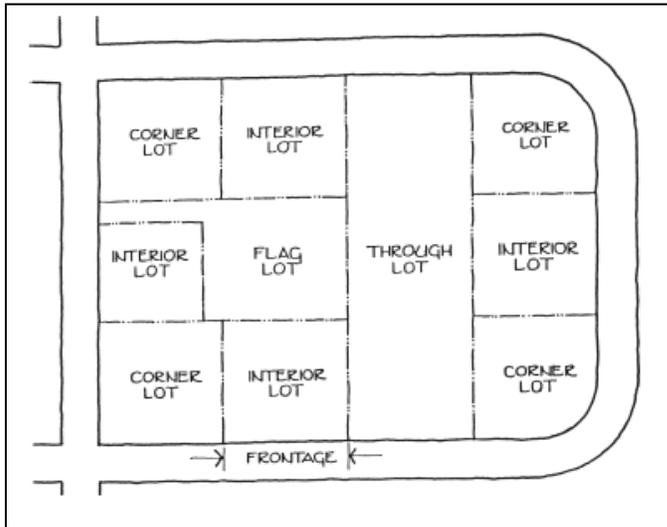

- 43. Easement.** An interest in real estate granted by an owner to another entity which allows a specified use or occupancy of the real estate, or which restricts the rights of the owner to a specified use or occupancy of the real estate.
- 44. Effective date.** The date upon which the requirements of this ordinance become effective. Generally, either (a) the date of publication of notice of adoption of the ordinance, or an amending ordinance by the Board of Supervisors, (b) a specific date set forth in the action adopting this ordinance or an amending ordinance by the Board of Supervisors, or (c) the date that real property comes under the jurisdiction of Woodbury County by means of severance (de-annexation) from a municipality.
- 45. Extraction.** The business enterprise of excavation and removal of stone, gravel, minerals, soil or similar materials from a site, including but not limited to quarries and borrow pits.
- 46. Family.** One or more persons occupying a dwelling and living as a single household as distinguished from a group occupying a group quarters.
- 47. Family home.** A community-based residential home licensed as a residential care facility under Chapter 135C of the Iowa Code or as a child foster care facility under Chapter 237 of the Iowa Code to provide room and board, personal care, rehabilitation services, and supervision in a family environment for not more than eight developmentally disabled or brain injured persons and any necessary support personnel.
- 48. Farm.** Land, farm houses, farm barns, farm outbuilding or other buildings or structures which are primarily adapted, by reason of nature and area or use for agricultural purposes, while so used.
- 49. Farming.** Any agricultural business enterprise activity directly involving cultivation of the soil for growing crops or animal husbandry for the production of food, fiber or fuel. Farming is exempt from the provisions of this ordinance (except flood hazard area regulations in Section 5.03). Criteria for determination of what constitutes farming are set forth in Section 1.03-3.
- 50. Flood.** A general and temporary condition of partial or complete inundation of normally dry land areas resulting from the overflow of streams or rivers or from the unusual and rapid runoff of surface waters from any source.
- 51. Flood plain.** Any land area susceptible to being inundated by water as a result of a flood.
- 52. Floodway.** The channel of a river or stream and those portions of the floodplain adjoining the channel, which are reasonably required to carry and discharge flood waters or flood flows so that confinement of flood flows to the floodway area will not cumulatively increase the water surface elevation of the base flood by more than one (1) foot.
- 53. Floor area.** The sum of the horizontal areas of each floor of a building, measured from the interior faces of the exterior walls or from the centerline of walls separating two buildings. The floor area measurement is exclusive of areas of basements that are not used for principal or accessory uses, unfinished attics, attached garages or space used for off-street parking or loading, breezeways, enclosed and unenclosed porches, elevator or stair bulkheads, and accessory structures.
- 54. Frontage.** The length of a front lot line measured along a public right-of-way. Also, a reference to all property adjacent to one side of a road between two intersecting roads or between an intersecting road and the end of the road.

- 55. Garage.** An enclosed building intended for the storage of motor vehicles.
- 56. Gardening.** The hobby of growing of fruits and vegetables for personal use, not primarily for sale.
- 57. General Development Plan.** The General Development Plan of Woodbury County, Iowa, (the Plan) adopted November 22, 2005 by the Board of Supervisors as a statement of public policy intended to promote, in accordance with present and future needs, the health, safety, morals, convenience, order, prosperity and general welfare of the present and future inhabitants of the county. Also sometimes referred to as a comprehensive plan, the General Development Plan serves as a guide for the requirements of this ordinance and other regulations related to physical development
- 58. Grade.** Depending on context:  
 (a) The elevation of the surface of the ground or paving; or,  
 (b) The physical process of changing the surface of the ground; or,  
 (c) The slope of paving or the ground surface expressed in terms of percentage as a ratio of rise to run.
- 59. Grading.** The physical process of changing the surface of the ground including excavation or fill, or any combination thereof.
- 60. Greenhouse.** A building used for the growing of plants, all or part of which are sold at retail or wholesale.
- 61. Group quarters.** Residential occupancy by groups of people not defined as a family, on a weekly or longer basis. Typical uses include residence halls, boarding/lodging houses, convents, and monasteries.
- 62. Halfway house.** A specialized group quarters that is licensed to provide custodial as well as rehabilitation services for persons who need aid in readjusting to society following a period of imprisonment, hospitalization, or institutionalized treatment.
- 63. Height, Building.** The vertical distance from finished grade to the top of the highest point of the finished roof.
- 64. Home, Manufactured.** A factory-built single-family home that is manufactured or constructed to meet the standards of the National Manufactured Home Construction and Safety Standards Act, (42 USC 5401) as amended, also known as the 1976 HUD Code and is to be used exclusively as a place for human habitation. Factory-built homes constructed prior to 1976 are not certified to meet the HUD standard and are more appropriately referred to as “mobile homes”.
- 65. Home, Mobile.** A factory-built single-family home built prior to the 1976 HUD Code. (See Manufactured Home)
- 66. Home, Modular.** A factory-built dwelling that is manufactured to meet the standards of the State Building Code as applicable to modular housing. Modular homes are subject to the same regulations as site-built homes.
- 67. Home Occupation.** Any activity conducted for gain by the resident of a dwelling as an accessory use on the premises. Regulations for home occupations are set forth in Section 4.14.
- 68. Hospital.** An institution, licensed by the state department of health, providing primary health services and medical or surgical care to persons, primarily inpatients, suffering from illness, disease, injury, deformity, and other abnormal physical or mental

conditions, and including as an integral part of the institution, related facilities such as laboratories, outpatient facilities, or training facilities.

- 69. Hotel.** An establishment that provides transient lodging accommodations to the general public for compensation, with or without accessory services such as restaurants, meeting rooms and recreational facilities.
- 70. Household.** (See Family)
- 71. Industry.** Any use in which the major activity is the treatment, processing, rebuilding, repairing, or bulk storage of material, products, or items, and where the finished product is not acquired by the ultimate user on the premises.
- 72. Intensity.** A measure of the relative concentration of activity for uses based upon impacts upon other uses. High intensity uses are normally uses that generate concentrations of vehicular traffic and activity that is relatively incompatible with lower intensive uses.
- 73. Junk.** Any collection of material, including, but not limited to scrap metals, wood, used appliances, rags, paper, or trash, that is no longer used or usable for its original or intended purpose when stored outside a completely enclosed building.
- 74. Junk vehicle.** A vehicle, including, but not limited to automobile, truck, motorcycle, trailer, etc. that is not capable of operation as intended due to obsolescence, disrepair or removed parts.
- 75. Junk yard.** A place where junk is accumulated, stored or processed for reuse or disposal, whether or not for profit. Salvage and recycling centers are examples of junk yard businesses that are allowed uses in specific zones; other junk yards may constitute public nuisances. (Also see Recycling)
- 76. Kennel, Breeding.** A commercial kennel in which four or more dogs or other domestic household pets are maintained for the purpose of breeding and sale of young animals.
- 77. Kennel, Commercial.** An establishment where four or more adult dogs or other domestic household pets are groomed, bred, boarded, trained or sold as a business.
- 78. Landfill, sanitary.** An engineered land burial facility for the disposal of solid waste which is so located, designed, constructed, and operated to contain and isolate the solid waste so that it does not pose a substantial present or potential hazard to human health or the environment.
- 79. Landscaping.** The modification of a site for an aesthetic or functional purpose, including the planting and preservation of vegetation and the continued maintenance thereof together with grading and installation of minor structures and appurtenances.
- 80. Laundry, Self-service.** An establishment where patrons wash, dry, or dry clean clothing or other fabrics in machines operated by the patron.
- 81. Livestock.** Animals commonly associated with a farming operation, including but not limited to cattle, swine, sheep, goats, horses and poultry, but not including dogs, cats and other common pets.
- 82. Loading space.** An unobstructed, properly surfaced area located entirely on a zoning lot that is reserved for standing vehicles while cargo is being loaded or unloaded.
- 83. Lot.** A parcel of land. (Depending upon context, see "Lot of Record", "Lot, Subdivision" or "Lot, Zoning").

- 84. Lot area.** The total horizontal area enclosed within the lot lines.
- 85. Lot, Corner.** A lot located abutting two roads that intersect at an angle of less than 135 degrees.
- 86. Lot coverage.** Depending upon context, either the portion of a lot covered by structures or the portion of a building site covered by impervious surfaces.

- 87. Lot depth.** The average horizontal distance between the front and rear lot lines.
- 88. Lot, Flag.** A lot with less than the required lot width as specified in the bulk regulations at the front setback and that widens to the required lot width at some distance from the front lot line. Flag lots are intended to allow development of parcels that would otherwise be undevelopable due to constraints of terrain or size and shape of the original parcel.
- 89. Lot frontage.** The distance along the front lot line between its intersections with the side lot lines
- 90. Lot, Interior.** A lot that is not a corner lot.
- 91. Lot line.** A boundary line of a lot that separates it from another land parcel or a right-of-way.
- 92. Lot line, Corner.** On a corner lot, the lot line abutting a road right-of-way that is not the front lot line.
- 93. Lot line, Front.** A lot line bordering a road right-of-way. On a corner lot, one of the lot lines abutting a road right-of-way is selected as a front lot line and the other is a corner side lot line.
- 94. Lot line, Rear.** The lot line that is opposite and most distant from the front lot line.
- 95. Lot line, Side.** Any lot line other than a front or rear lot line.
- 96. Lot, Nonconforming** (See Nonconforming lot).
- 97. Lot of record.** Land designated as a separate and distinct parcel in a subdivision plat which has been filed of record by the County Recorder or a parcel of land described in a deed filed of record.

- 98. Lot, Reverse corner.** A corner lot in which the side street lot line is a continuation of the front lot line of the lot to its rear.
- 99. Lot, Subdivision.** A land parcel within a subdivision plat, identified by a number, intended as a unit for title transfer or development.
- 100. Lot, Through.** A lot, other than a corner lot, with frontage on two roads; a double frontage lot.
- 101. Lot width.** The distance between side lot lines measured at the rear of the required front yard on a line parallel to the front lot line.
- 102. Lot, Zoning.** A tract of contiguous land, under single or unified ownership or control, designated in an application for a building permit to be used, developed or built upon in conformance with the requirements of this ordinance. A zoning lot need not coincide with a lot of record, and may consist of: (a) a single lot of record; (b) a partial lot of record; or (c) a combination of complete and partial lots of record.
- 103. Manufacturing.** The mechanical or chemical transformation of materials or substances into new products, including the assembling of component parts, the creation of products, and the blending of materials.
- 104. Massage establishment.** An establishment providing therapeutic massages administered by persons licensed by the State of Iowa pursuant to Chapters 148, 148A, 150, 150A, 151, 152, 157, or 158 of the Code.
- 105. Medical or dental clinic.** A building or portion of a building containing offices and facilities for providing medical, dental, and related services for outpatients by persons licensed by the State of Iowa pursuant to Chapters 148, 149, 150, 151, 152, 153, and 154 of the Code.
- 106. Nonconforming.** A lot, structure or use that does not conform with the requirements of this ordinance.
- 107. Nonconforming, Legal.** A nonconforming lot, structure or use that did conform with the requirements at the time that the lot, structure or use was established.
- 108. Nonconforming lot of record.** A lot of record that does not comply with the size requirements for any of the permitted uses in the zoning district in which it is located.
- 109. Nonconforming building or other structure.** A building or other structure or portion thereof that does not conform to the bulk regulations of this ordinance.
- 110. Nonconforming parking.** Parking that does not conform to the requirements for location or quantity of parking under this ordinance.
- 111. Nonconforming use.** An existing use that is not an allowed use in the zoning district in which it is located.
- 112. Nuisance, public.** Anything that interferes with the use or enjoyment of property, endangers personal health or safety, or is offensive to the senses, including, but not limited to excessive noise, dust, odors, smoke, gas, pollution, congestion, lighting and litter.
- 113. Nursery (plant).** An establishment for the propagation, cultivation and growth of trees, shrubs, and other plants from seed or stock to be sold for landscaping. Sales of accessory items needed for nurture of plants or maintenance of landscaping such as pesticides, fertilizers, soil conditioners and related tools and equipment are part of the normal operation of a nursery.

- 114. Nursery school.** (See School, Nursery)
- 115. Nursing care facility.** An establishment other than a hospital licensed by the state that provides full-time health-related care and services, including rehabilitative services, as well as room and board for individuals who, because of mental or physical condition, require nursing care and other services.
- 116. Open space.** An area of a lot, including required yards which is not covered by structures (except recreational buildings) or parking, and which is available for use by all occupants of the lot.
- 117. Open space, public.** Open space owned by a governmental agency and dedicated to public use.
- 118. Owner.** The holder of legal title or any equitable interest as filed of record in the offices of the county recorder.
- 119. Parcel.** Generally, any specified land area. More specifically, a part of a tract of land.
- 120. Park.** Any public or private land available for recreational, educational, cultural, or aesthetic use.
- 121. Parking space.** An area reserved and developed for parking of a vehicle.
- 122. Permitted use** (See Use, allowed)
- 123. Person.** Any natural person or an entity created by law including but not limited to a corporation (profit or nonprofit), partnership, or association.
- 124. Pet.** Domesticated animals, including but not limited to dogs and cats, kept by a resident of a dwelling primarily for enjoyment or recreational purposes as compared to agricultural livestock. Horses, cattle, swine, sheep, goats and poultry, whether kept for pleasure or as an income generating activity are considered livestock
- 125. Planned development.** A development designed to provide for an unusual or different arrangement of uses in accordance with an approved development plan. The requirements and procedures for an approved planned development are set forth in Subsections 2.02-5 and 3.01-9.
- 126. Planning and Zoning Commission.** The Planning and Zoning Commission of Woodbury County, Iowa as described at Subsection 2.01-4.
- 127. Planning and Zoning Director.** The official appointed by the Board of Supervisors to administer the provisions of this ordinance.
- 128. Plat.** A map prepared by a licensed land surveyor showing the location, boundaries and legal description of a tract or parcel of land. The term may also be used to indicate a subdivision.
- 129. Recreational vehicle (RV).** A vehicle which is:
- A. Built on a single chassis;
  - B. Four hundred (400) square feet or less when measured at the largest horizontal projection;
  - C. Designed to be self-propelled or permanently towable by a light duty truck; and
  - D. Designed primarily not for use as a permanent dwelling but as a temporary living quarters for recreational, camping, travel, or seasonal use

- 130. Recycling.** Collection and processing of reusable materials including but not limited to metals, glass, plastic, and paper which are intended for reuse, remanufacture, or reconstitution for the purpose of using the altered form.
- 131. Relative.** Persons who are related by blood, marriage, remarriage, or legal adoption or guardianship, including, but not limited to parent, grandparent, child, brother, sister, stepparent, stepchild, stepsister, stepbrother, uncle, aunt, niece or nephew, foster parent and foster child.
- 132. Residence** (see Dwelling)
- 133. Restaurant.** An establishment where food and beverages are prepared and served for the general public as the primary business.
- 134. Retail trade.** The selling of goods, wares, or merchandise directly to the ultimate consumer.
- 135. Rezoning.** An amendment to this ordinance that changes the zoning district designation of a parcel of land on the official zoning map. The procedure for rezoning is set forth in Subsection 2.02-4.
- 136. Right-of-way.** A parcel of land intended to be occupied by roads, sidewalks, utilities and other public purposes. On a subdivision plat, rights-of-way are to be separate and distinct from other lots or parcels. Rights-of-way intended for public facilities shall be dedicated to public use and title transferred to the appropriate public agency.
- 137. Road.** All property dedicated or intended for public or private road, street, alley, highway, freeway, or roadway purposes or to public easements for such thoroughfares. The term is sometimes used to indicate the area of the traveled way within a right-of-way or easement.
- 138. Salvage.** Any article or material that is to be or intended to be reused or recycled in some form.
- 139. Salvage yard.** A facility in which salvage material is bought, sold, stored, dismantled, processed, or recycled.
- 140. School.** An institution providing instruction and including accessory facilities traditionally associated with a program of study which meets the requirements of Title VII of the Code of Iowa.
- 141. School, Nursery.** A school for socialization and instruction to pre-elementary school age children.
- 142. School, Elementary.** A school for children from kindergarten to or through early adolescent ages.
- 143. School, Secondary.** A school for children from adolescent ages to completion of high school diploma requirements.
- 144. Screening.** Visual shielding or separation of one adjacent use from another by use of berms, fences, walls, plant materials or other methods.
- 145. Setback.** The minimum horizontal distance required in the zoning district dimensional standards between a designated lot line (i.e., front, rear, side) and the buildable area of a lot.
- 146. Shopping center.** A group of retail and other commercial establishments that is planned, owned, and managed as a single property with common parking facilities.

- 147. Sign.** Any object, device, or graphic design, located indoors or outdoors, that is intended to advertise, announce, identify, or direct attention to a business, product, or other concept.
- 148. Sign, Building.** A sign that is permanently attached to the wall or roof of a building.
- 149. Sign, Free-standing.** A sign that is permanently attached to its own footings or other anchoring device and that is not attached to a building or other separate structure.
- 150. Sign, Ground.** A free-standing sign that has no minimum clearance from grade with a limited height above grade.
- 151. Sign, Off-premise.** A sign that directs attention to a business, product, service or activity that is not conducted, sold or otherwise located on the same premises as the sign. E.g. billboards.
- 152. Sign, On-premise.** A sign that directs attention to a business, product, service or activity that is conducted, sold or otherwise located on the same premises as the sign.
- 153. Sign, Pylon.** A free-standing sign that has a minimum clearance from grade and a maximum height above grade that is supported upon pylons or poles.
- 154. Sign, Roof.** A building sign that is attached to the roof of a building.
- 155. Sign, Wall.** A building sign that is on or attached to the wall of a building.
- 156. Sign, Window.** A building sign that is in or behind a window of a building and intended to be visible from the road.
- 157. Site plan.** A map or graphics prepared to scale depicting the development of a parcel of land, including but not limited to the location and relationship of the structures, streets, driveways, recreation areas, parking areas, utilities, landscaping, existing and proposed grading, walkways, and other site development information as related to a proposed development.
- 158. Solar Array.** Equipment used for private or utility scale solar energy systems. Can be mounted on primary or accessory structures, on a racking system affixed to the ground, or integrated as a mechanical or structural component of a structure.
- 159. Solar Energy Systems, Private.** An energy system that converts solar energy to usable thermal, mechanical, chemical, or electrical energy primarily for immediate onsite use that already has an existing principal use on the same parcel. Solar Energy Systems, Private shall be allowed only as a non-utility scale accessory use to a permitted principal use. Surplus energy sold back to a utility must comply with all applicable laws including but not limited to Section 199, Chapter 15.11(5) of Iowa Administrative Code, and all requirements of the Iowa Utilities Board. Systems can be mounted on primary or accessory structures, on a racking system affixed to the ground, or integrated as a mechanical or structural component of a structure.
- 160. Solar Energy Systems, Utility Scale.** An energy system, commonly referred to as a “solar farm”, which converts solar energy to useable thermal, mechanical, chemical, or electrical energy primarily for transmission through the electrical grid for offsite use or wholesale and/or retail sale. Systems can be mounted on primary or accessory structures, on a racking system affixed to the ground, or integrated as a

mechanical or structural component of a structure. Utility scale solar energy systems do not include concentrating solar power (CSP) systems.

- 161. Specified anatomical areas.** Human genitals, anus, cleft of the buttocks or the female breast.
- 162. Specified sexual activities.** Any of the following:
- A. Sex acts, normal or perverted, including intercourse, oral copulation, masturbation or sodomy; or
  - B. Excretory functions as a part of or in connection with any of the activities described in subsection A above.
- 163. Spot zoning.** An arbitrary zoning or rezoning of a small parcel of land, usually surrounded by other uses or zoning categories that are of a markedly or substantially different intensity, that is not consistent with the comprehensive land use plan, and that primarily promotes the private interest of the owner rather than the general welfare. This term is not used within these regulations, but is included here because it is commonly used to describe proposed rezonings, which may or not actually be spot zoning.
- 164. Stable, Private.** An accessory structure or land use that is designed, arranged, used, or intended to be used for the keeping of equines for the private use of the occupants of a principal dwelling and their guests, but in no event for hire.
- 165. Stable, Riding.** A structure or land use in or on which equines are kept for sale or hire to the public. Breeding, boarding, or training of equines may also be conducted.
- 166. State.** The State of Iowa.
- 167. Street.** (see Road)
- 168. Structural alteration.** Any change in the supporting members of a structure, such as bearing walls, columns, beams or girders.
- 169. Structure.** Anything constructed, erected or placed on a fixed location on the ground or on another structure, specifically including buildings, walls, fences, signs, swimming pools, towers, and storage tanks, but excluding paving and walkways. Vehicles and other movable objects may be considered as structures if they are placed in a generally fixed location for a purpose other than transportation.
- 170. Telecommunication Tower.** A self-supporting lattice, guyed, or monopole structure that supports telecommunications facilities. The term tower shall not include amateur radio operator's equipment as licensed by the FCC or structure supporting an earth station antenna serving residential premises or dwelling units exclusively.
- 171. Tract.** A fractional part of a section of land or a lot within a subdivision.
- 172. Truck Terminal Operation (Home Occupation Use).** A truck terminal operation meeting all Section 4.14 home occupation use tests except the test listed at subsection 4.14:4 stating home occupation and employee vehicles shall be stored either in a building or screened from the public or private road or from adjacent property.
- 173. Use.** The type of activity or purpose for which a parcel of land and/or structure is arranged, designed, or intended, or for which it may be occupied.
- 174. Use, Accessory.** A use that serves or is subordinate in purpose to another allowed use on the same lot.

- 175. Use, Allowed.** A principal, conditional, accessory or temporary use that may be established in conformance with the regulations of the zoning district in which it is located.
- 176. Use, Conditional.** A use that is allowed in conformance with the regulations of the zoning district in which it is located, if and only if, approved by the Board of Adjustment as provided in subsection 2.02-9.
- 177. Use, Principal.** A use that is allowed as a matter of right in conformance with the regulations of the zoning district in which it is located.
- 178. Utility.** Services and facilities that provide usefulness and amenity for developed property. Utilities include, but are not limited to, sanitary sewer, water systems, natural gas, electricity, wind generation, solar collectors, telephone, cable television, and other telecommunication systems.
- 179. Variance.** Relief from specific requirements of this zoning ordinance granted by the Board of Adjustment pursuant to subsection 2.02.8.
- 180. Warehouse.** A building or other facility used for storage of goods and materials.
- 181. Wholesale trade.** The transportation, distribution and sale of goods, wares, or merchandise to retailers or others who are not the end users of the goods, wares or merchandise.
- 182. Yard.** The open space on a lot located between a principal structure and a lot line. A yard may be larger than the setback requirement.
- 183. Yard, Corner side.** The yard between a corner side lot line and the nearest part of a principal structure.
- 184. Yard, Front.** The yard between a front lot line and the nearest part of a principal structure.
- 185. Yard, Rear** The yard between a rear lot line and the nearest part of a principal structure.
- 186. Yard, Side.** The yard between a side lot line and the nearest part of a principal structure.
- 187. Zone.** (See Zoning District)
- 188. Zoning Director.** (See Planning and Zoning Director)
- 189. Zoning district.** A designation of land areas of the County in accordance with the General Development Plan for which this ordinance establishes uniform regulations of uses of land and structures, dimensional requirements, and related matters.
- 190. Zoning district change** (see Rezoning)
- 191. Zoning map amendment** (See Rezoning)
