Veterans Affairs Parking Request

Jeremy Taylor, Vice-Chair
Woodbury County Board of Supervisors
March 3, 2015

#7

The Request

- *We are very concerned about the congestion of the parking lot and the availability of parking spots. The spots directly in front of our office are often used by patrons of Central Mart. We are especially concerned Veterans may not visit the office because it looks so busy and/or there is not parking available. The Commission requests that the first 2 parking spots on the long side of the building be marked Veterans only or Veteran parking. There are plenty of times we have more than two Veterans in the office, but we think this would help, as a lot of times one or both of those spots are filled, not by our customers. We would appreciate any action that could be taken on this.*

Proposed Spots

Short / South Side of Building

2 Handicapped Parking Spots

Parking Spaces Belong to County Building

The Motion

Motion: I move that the first two most parking spaces of the Triview Bldg. on the west (long side) be designated Veterans Affairs Parking Only and two spaces on the south (short side) be designated Customers of Social Services / Veterans Affairs Only with a warning that violators be towed at their own expense.
