SPECIAL PROVISIONS

MAINTENANCE GRAVEL

1. The quantities of work as shown in the contract documents are approximate only and are subject to increase or decrease. All quantities of work, whether increased or decreased, are to be performed at the unit prices stipulated in the contract. No adjustment in price will be made on any item of work due to a variance from the contract quantities.

The contractor shall furnish all necessary machinery, equipment, tools, materials and supplies, labor and shall be capable of providing the means of construction necessary to complete the work. The contractor shall also furnish all granular material where specified in the contract. A scale house, when or where needed, shall be provided along with the scale prior to commencing of weighing. The scale shall be of sufficient size and length to accommodate all tandem axle and smaller trucks. Any other method of weighing shall have prior approval of the County Engineer. Weighing equipment shall meet the requirements of Section 2001.07.

The contractor will do all "Extra Work" which may be required to complete the contract contemplated at the contract unit prices, or lump sums to be agreed upon in writing before starting such work, or if such prices or sums can not be agreed upon, to perform such work on a force account basis, as provided in the IDOT Standard Specifications.

The contractor shall perform the work within 100 working days with an EARLIEST STARTING DATE will be of **July 1, 2013**. Once work is started, it shall continue without interruption until completion.

The contractor will pay liquidated damages of \$100.00 per working day elapsing after the expiration of the contract period accruing until the completion of the work.

The contractor shall provide a minimum of 10 trucks hauling to the county at all times. If the number of trucks hauling to a county stockpile drops below 10, the county, at its option, may stop stockpiling operations for the day and charge a full working day.

2. The contractor shall furnish all equipment for stockpiling, and perform the stockpile work at the sites designated. In addition, the contractor shall furnish all granular material for stockpile items 1 through 8 inclusive. The County Engineer will approve the spot for stockpiling at the proposed sites. Stockpiling at locations away from production sites shall be done with a crawler type tractor.
3. The condition of the roads in the spring will be the controlling factor for starting work on any item. The County Engineer will be the final authority in determining if the haul roads are stable enough for hauling.
4. If gravel deposit is taken from below water, the contractor shall, by pumping, lower the water level below the excavation line a minimum of 24 hours prior to removal of gravel. The working time and size of pump or pumps to be used is to be approved by the County Engineer.

Project G-2014

Special Provisions Continued

In the event the pit can not be pumped below the excavation line, the gravel removed from below water shall be stockpiled and permitted to drain for a minimum of 24 hours before crushing. This may require the use of two draglines, one to stockpile gravel taken from below water level and one to feed the crusher.

Gravel furnished by the Contractor shall be crushed pit run material.

The gravel shall be a uniformly graded product complying with the following gradation specification.

<u>Sieve</u>	<u>Percent Passing</u>
1 1/4"	100%
3/4"	80-95%
#4	50-65%
#8	35-50%
#30	10-30%

The depth and location of excavation and quality of acceptable material in each pit is to be determined by the County Engineer.

5. The contractor shall be equipped to work the face of the gravel deposit to uniformly mix the various layers of material.
6. The contractor shall hold harmless and indemnify Woodbury County, Iowa and its officers and employees from any and all claims, demands, actions, fines, and judgments for damages arising out of or in connection with any activity of the contractor or any of the contractor's agents or employees under this contract or upon the premises to which this contract applies.
7. The contractor shall abide by and enforce the rules and regulations of the Federal Occupational Safety and Health Act (OSHA), as amended; and the Federal Mine Safety and Health Act (MSHA) of 1977, as amended; and shall comply with all other Federal, State, and County laws and regulations and shall hold the county and the public harmless of any penalties and fines that may be assessed against Woodbury County and/or the public resulting from the contractors operations and/or any other of his activities relative thereto. The haul road within the pit and the access road to the pit shall be considered an integral part of the pit and shall be built and maintained by the contractor to meet the above referenced laws and regulations. Any penalties and/or fines assessed to Woodbury County relative to the contractors operations shall be reimbursed in full to the County by the Contractor prior to final settlement of the contract. An access road is defined as an ingress or egress roadway between the pit and an official county road normally used by the traveling public.
8. The contractor shall bear the full costs of any litigation or other proceedings brought against Woodbury County, Iowa or any of its officers or employees which involves an alleged injury to any employee(s) or agent of the Contractor or to any other person who has been authorized by the contractor to be upon the

premises covered by this contract prior to completion of the project, except employees of Woodbury County.
