Courthouse Security Meeting:

It was the recommendation of the Committee that we do not purchase cameras for the Courthouse at this time because of the huge expense. This recommendation was brought forward by the Sheriff.

We would also like to give Human Resource permission to work with the Sheriff to hire three part-time retired law enforcement workers to begin the program.

Additional discussion is needed in hiring of a full time sergeant to supervise the program.

We need to move the security scanner from the second floor to the north door as soon as we can so that it is in place.

We need to start training sessions for Courthouse employees on the whole process.

Discussion of wheel chair lift for the north side doors of the Courthouse.
