Lisa:

The application is being done by the consultant to the board. That being said, there is no prepared application at this time. At the board's direction, an application for funding is being prepared by the consultant and will be done some time prior to the February 28th due date. Until there is an award of a grant, there is nothing to be kept on the record. I think there will be a contract with the consultant. When it is done, that could be your record.

Mark

Enclosed is a copy of the WIRB grant application for Orton Slough.

Thanks

Lisa
