Board	Loan Note Fees	20,000	20,000	
Total CIP Requests		2,679,438	2,679,438	

IMPROVEMENT REQUEST

Department/Division Title: Woodbury County Sheriff's Office – Jail division

Request: Te84 intercept whole body scanner. Our current body scanner was purchased in 2018 and the manufacturer no longer produces this model and replacement parts are becoming obsolete and difficult to find, not to mention finding someone who is able to perform maintenance on the scanner. Software updates are no longer available or supported. If and when something breaks, we will lose a critical security component to detect contraband and to ensure the safety of our staff.

Justification: Continued reliance on unsupported and obsolete equipment increases liability exposure and undermines jail security operations. Failure of this system would require a return to less effective and more labor-intensive screening methods, increasing staffing demands and safety risks.

Financial Impact:

Te84 intercept body scanner - \$139,000

Shipping -\$2,500

5 year warranty - \$40,000

Thermal scanner - \$20,000

Total financial impact \$201,500

Budget Account Detail

Account Number:	Description:	Amount:	Explanation:
0001-05-1050-000-63600	jail machinery/equipment	\$201,500	New body scanner
Total:		\$201,500	

IMPROVEMENT REQUEST

Department/Division Title: Woodbury County Sheriff's Office – Jail division

Request:

- 120 Motorola R5 portable radios \$82,800,
- 120 Radio mic's \$11,520
- 15 multi-chargers \$8,175
- 24 desktop chargers \$1,656
- 3 inch fixed loop cases \$2,640
- 1 program cable \$18

Justification: Our jail staff has been using the same portable radios for approx. 15 years and the wear and tear is starting to catch up. We are constantly buying replacement parts on Amazon and Motorola does not manufacture our current radio's any longer. In some cases our current radios sustain damage, where the cost to repair exceeds the cost to replace. Our current radios are no longer providing the level of reliability, which puts our correctional staff at risk. The radio system is used for a variety of duties to include jail operation, building security, entrance security, and all court security functions. The reliability of our current radios have come in question during the most recent protest, which occurred in the LEC parking lot. We currently have a very robust radio infrastructure in place within the building, however, the ageing radios have become increasingly unreliable. Some of the issues we have are battery life, lapel mic's that disconnect or will not transmit, radio power cycling unexpectedly, leaving our staff in a vulnerable and unsafe situation. We are in need of a dependable solution with the Correction's Officer's safety in mind.

Financial Impact: Total replacement cost for listed items above: \$106,809.00

Budget Account Detail

Account Number:	Description:	Amount:	Explanation:
