Mr. Matthew Ung, Chair  
Woodbury County Board of Supervisors  
Board of Supervisors Office  
Woodbury County Courthouse  
620 Douglas St  
Sioux City, Iowa 51101

Dear Mr. Ung:

The Public Health Accreditation Board (PHAB) is extremely pleased to inform you that Siouxland District Health Department in Sioux City, Iowa, was awarded the designation of national accreditation through PHAB on March 17, 2020. To receive this national accreditation through PHAB, Siouxland District Health Department underwent a rigorous, multi-faceted, peer-reviewed assessment process to ensure it met nationally established public health quality standards and measures.

Strong public health departments make all communities healthier places to live, work, learn, and play. PHAB's national accreditation program fosters health departments' commitment to accountability, communications, transparency, quality improvement, performance management, and the capacity to deliver essential public health services to promote and protect the health of the community. Committed to achieving the highest standards of public health practice, the health department has also demonstrated a consistent and continued commitment to strengthening community partnerships to improve health, which in turn enables the department to better serve the Sioux City community.

PHAB thanks you for supporting Siouxland District Health Department's successful pursuit of accreditation and congratulates you on the important role you played to assure that your community will now be able to reap the benefits of being served by a nationally accredited health department.

Sincerely,

Paul Kuehnert, DNP, RN, FAAN  
President and CEO  
Public Health Accreditation Board

*The Public Health Accreditation Board is a nonprofit organization that works to improve and protect the health of the public by advancing and transforming the quality and performance of governmental public health agencies in the U.S. and abroad.*
